Valuable Additions to Museum
Professor C. C. Nutting has
recently made two
valuable additions to
the Museum that it has had
for years. Professors Nutting
and Patterson have been busy in
St. Louis during the past two
weeks securing and boxing the
material which is to be brought
here from the Exposition.

This vast addition to the
museum will be in the nature of
gifts and purchases from the
various exhibitors at the Fair. The
departments which will be most
enriched through the activities
of the university professors,
however, are those of Botany,
Education, Mineralogy and Mining,
Zoology, and the School of
Commerce.

Entire collections will be
shipped to the University from
the exhibits of India, Ceylon,
Porto Rico, Honduras, New
South Wales, Venezuela, and
the Soudan. From the exhibit from
Uncle Sam's new possessions too,
Professor Nutting is assured of
most notable collections in Zoology,
Botany, Biology, and Education.

This part of the material will be
especially interesting and
valuable in view of the
present relations with the
Philippines, and when added to
the material already on hand will
make one of the best Philippine
collections anywhere in the
United States. Valuable material
has also been promised from
other sources.

The State University's Museum
now stands alone in the
world. It contains the largest
and most complete in the country
and, with the addition of the rich
and varied collections just
secured, it will undoubtedly be
even a higher ranked among the
great museums of the
world.

The Ostrich Association meets
