Carity Dance Given by the Nurses Was an Enjoyable Occasion

The dance given in Smith’s room last night by the nurses of the university for the hospital was an eminently successful. More than eighty couples danced the dainty and as a result the nurses raised more than $150 for the cause. The affair was a success from both a social and artistic point of view. There was a spirit of determination prevalent throughout the evening. The decorations which were simple were neat and tasteful and added to the gaiety of the occasion. The color player was the old gold of the university and the red and white of the hospital.

The armory was well filled and filled with music as soon as 9:45. The grand march was led by Dean and Mrs. Guthrie and was participated in by more than 150 persons. The professors in the college of medicine and the medical students of the college were very much in evidence throughout the evening. There were however a large number of liberal arts and professional students in attendance as well as faculty members from the other departments.

Museltonery’s orchestra provided the music for the occasion. I was able to speak upon the stage at the waist end of the hall.

The patrons and patronsesses of the occasion were: Dean and Mrs. Guthrie; President and Mrs. Whiteis; Dr. and Mrs. Franklin; Dr. and Mrs. Blaiss and Dr. and Mrs. Whites.

Not Out of Debt

Because of the statement in the football edition of the DAILY IOWAN to the effect that there was enough surplus from the football season that has just closed to allow the athletic team to pay off its back debts, the impression has gone over the campus that the union is out of debt. The board of control did apply some of the collection in excess of the expenses as well as to pay up all the bills from the past season but some time will be required to pass the union out of the red and the union to start out the next season on good advantage.

A total of about 175 men have landed in the city for fall term work at Harvard, and the practice is being held daily.

Professor Patterson has been detained in St. Louis because of a hip injury, formerly the material will be placed in his professorial museum. He is assured of a new hip injury, formerly, the material will be placed in his professorial museum.

The psychological laboratory of the State University of Iowa is performing an interesting experiment now with a girl who has been blind for seven years subject. For the sixth time the history of medicine one who has been totally blind has been made to see, and the instance reported from the Iowa psychological department in the first time the operation has ever been successful in this state.

The operation which has been a success was performed by Dr. L. W. Dean. It is known as "teaching the bi-ocular vision to a blind person. As noted above it has only been performed six times in the history of medical science. The work of misunderstanding the lense was done by Dr. Dean while the observation and experiments upon the girl have been conducted by James Burt Miner, professor of psychology. Dr. Dean is Professor of Ophthalmo-logy in the university.

The result of the experiment here is sure to create a sensation throughout the medical world because of the rarity of the success in such experiments.

Hawkeye Prizes

At the ballot box election of officers of the Philomathic society last night the following positions were selected:

J. N. Baird, president; B. J. McRae, vice president; W. H. Wiest, secretary; J. P. F. Gerry, treasurer; Capel, ex-commissioneer; J. C. Butt- worth, secretary; E. J. Edwards, treasurer; P. T. Coopers, Thorpe, etc.; J. W. Conaway, lst. Sergeant-at-arms; F. M. Rous, 2nd. Sergeant-at-arms; Will J. Rhoades was elected to membership.

Merle R. Stone was elected a member of the Zeta sophomore debating team. The team is now complete. Other members are Morses, Bowmen and Sayeddy.

Every high school student in Iowa will appreciate reading the list of prizes offered by the last year’s football board of control did apply some of the collection in excess of the expenses as well as to pay up all the bills from the past season but some time will be required to pass the union out of the red and the union to start out the next season on good advantage.

An important meeting of county club presidents has been held in the office of Prof. I. A. Loos last night for the purpose of constituting the board of control for the coming years. J. J. M. Johnson was named temporary chairman of the organization, and permanent chairman will be named later. Organizers were named from the counties which have ten or more students in the state university. Professor Loos, who is not a member of the board of control, another meeting of the presidents will be held Tuesday night in room 600.

Arrangements are Completed And Decorating is in Progress

Now that the hospital benefit ball is over the attention of the society people of the university is turned toward the sophomore collection which will be held in Smith’s armory next Friday night. The members of the collection committee have made charge of the affair held a meet- ing last night and took additional steps toward making the party the most elaborate of the year.

According to the present arrangements the party is to be held at a place where Iowa City and Cedar Rapids society people meet. The committee has assurance that there will be a large number of Cedar Rapids people at the function. Arrangements have been made for a special car to run the interurban after the collection is made in order to return the crowd to the parlor city in good time. Three patronesses have been named for the party from among the leading people of Cedar Rapids society. There will be six patronesses from here. The committee has agreed upon its scheme for decorating and other arrangements and the time intervening will be spent in getting in readiness for the big event.

One Year Residence Rule is Not Well Received by Big Teams

The freshman elimination rule which was adopted by the big nine representatives in their recent session at Chicago may yet be short lived. The athletic boards of Minnesota and Michigan have both taken action looking toward a rejection of the action and the press dispatches are to the effect that Minnesota will seek the aid of Iowa in abolishing the rule. It is very likely that Indiana and Purdue will follow suit and the rule has been abolished.

Another feature which makes the rule disadvantageous to Iowa is that fact that Ames and Drake may not agree to the in that case Iowa cannot play these schools and retain her place in the Big Nine conference.

The amateur Thespian societies of Broedelphian and Irving societies will give two farces in St. Ben- dan’s hall tonight. The first will be entitled, "Send Me Five Shill- ongs and the other, "What’s Your Point Regulation." The cast is here in its entirety.

Broedelphian elected officers for the winter term yesterday, and the following girls received the following offices: Francis Carroll, vice-president; Helen Williams, recording secretary; Norma Coover, corresponding secretary; Nelle Shawal, assistant secretary; The board of control, and Margaret Hanus assistant-secretary. Pearl Stone was re-elected critic.
Suits and Overcoats

Is Ready for You—Come and let us try it on.

We promise better values in Miss Winter Clothing than can be secured at any other store in Iowa City. A broad demand for a central foundation is still broader. The facilities for buying for one's many stores enables us to retail clothing at about what smaller stores would have to pay wholesale. Come in and let us show you our new styles in winter suits and overcoats. It will cost you nothing to see them or to try them on and not to much of our time.

To California
Golden State Limited Begins December 25

Daily Chicago, St. Louis, and Kansas City, to Los Angeles, Santa Barbara, and San Francisco.

Third season of the most luxuriously equipped train in the world; Buffet, Dining, Observation and Pullman Cars fresh from the builder, fitted with every modern, device known for passengers' comfort.

Round trip at $67.00, second-class, in the westbound train.

Cheerfulness

Learns to laugh: a good laugh is better than medicine.
Learns how to tell a story: a well told story is as welcome as a sunbeam in a sickroom.
Learns to keep your own trouble to yourself: the world is too busy to care for your life and sorrows.
Learns to stop talking: if you cannot see any good in the world keep the bad to yourself.
Learns to hide your ache and pains under pleasant smiles: nobody cares to hear your troubles.
Learns to hold your temper: if you are right you can afford to hold it; if you are wrong you cannot afford to lose it.
Learns to meet your smiles: a good humored man or woman is always welcome.
Learns to enjoy your Cigars, Cigarettes and Pipes at the Clinton Street Speakeasy House.

20 Clinton St.
