HAWKEYE PLAYING GREAT BALL.

Iowa is Now in Top notch FORM—A GREAT GAME SATURDAY.

The "Old Gold" players are now in the pink of form and if they had been in as good condition and playing together as they are now, the results of the two "Big Nine" games would have been different. The Iowa team always runs up into its real form late in the season and from then on plays great ball. The Minnesota-Iowa game of last year will be recalled as the best game played all last season, Iowa is now ready for the Christians and expects to wipe the earth with Yost's pupils team. The Christians are fondly hoping to defeat Iowa, but no Hawkeye will concede such a disaster.

Last Game on Iowa Field.

Saturday will be the "varsity's" last game on the Iowa field this year and it will also be several "Old Gold" stars' last game on their beloved field. Captain McGowan, "Germany" Schulin, besides several others will play their last game on Iowa Saturday. Come out and see these gridiron heroes play their last game on "home ground."

LOCKED GATES AT DRAKE.

Do Not Expect Iowa Spies but Will Take No Chances.

Coach Heston is drilling his men behind closed gates and the utmost secrecy is being maintained in their work. It is claimed that definite effort is being made on their part, and what they are doing and how they are going to take chances with Iowa is being kept a closely guarded secret. Both offensive and defensive work is being drilled into Heston's men. No hint of the plays being rehearsed has been given out, but it is believed that Heston is working on formations for the use of Hasbrouck into the line and to get Taylor and Bur- cham around end.

Drake has a heavy team, heavier than Iowa's, and good material and Drake hopes to defeat the Hawkeyes. This is Heston's ambition and the Drake team hopes to gratify his wish. The Drake team is rounding into form now and Iowa may expect a hard game. The team is reported to be in fine condition.

The students at Drake are enthusiastic over the upcoming game and a great number will be here next Saturday. A special train is expected to be run with a rate of 75 cents. Drake will send 300 students besides her full football squad. The university will also bring her 20 place men along. Drake colors, blue and white, will be seen in abundance on the field Saturday.

Drake Manager Coming.

Drake's athletic manager, Mr. Min- nawi, will be here tomorrow night to complete arrangements for the Drake team.

IOWA CITY, IOWA, WEDNESDAY, NOVEMBER 15, 1905

Prof. Houser's Lecture

A Fine Address Given to Physical Department.

How and when to exercise was the subject of Prof. Houser's address to the students of physical training. Tuesday evening.

Exercise of today depends upon our past. Our ancestors were powerful men munificently and we have inherited the necessity for exercise.

In the past food was captured by muscular effort. Man defended himself with a club, and lived by his physical prowess. Today life is ar- mored and changed from the will-to-primitive man, to the detriment of his organism. But we cannot escape this inherited necessity and the great physical evil of today is lack of exercise, with too much eating.

Normal life brought sufficient ex- ercise to primitive man. But today our activities are essentially mental and exercise must be planned. The Germans and Swedes believe all exercise should be taken in the gymna- sium. The English depend entirely on the out of door sport, but the Kiwis are striking the golden mean.

The gymnasia gives a definite and precision which is highly important in our sensual well balance. It brings into play every muscle of the body which is highly desirable. Out of door exercise has the advan- tage of better air and light.

For physical well being our re- quirements from 100 to 150 foot tons work per day, which is equal to about one fourth of the work done in a day at hard labor. A man walking nine miles a day is doing about 97 foot tons of work, but the exercise must involve the use of all parts of the body in good results and must be obtained in part by systematic exer- cises.

A highly important factor is exer- cise. Put your heart and soul into it. Play to win. Walk to get there. Violent exercise after a meal is entirely out of place. A light morn- ing exercise is good, but the principal exercise should precede the even- ing meal with time for a rub-down, and at least a few minutes relaxation before eating. Exercise at this time relieves the nervous tension.

Exhaustion must not be reached. A tone and not a languor following exercise is the test as to the amount. The lecturer believes exercise given by Prof. Bolton on "How and When to Study."

"FOOTBALL AT MINNE- SOTA.

"Bozner" Football, the new game that the English team introduced to this country, has been the pet of all the freshcman camp for the last day or so. Coach Harris finds that it is just the thing to take away the stiffness that follows a hard game, and the men are reported to like it—Daily Mississippian.
