Held Initiation But Refuse to Tell What Was Done.

Epistle to Kau initiated twenty-one new members this morning at seven o'clock at Irving hall. The Iowa re- presented question the secret and the exercises and she answered and she answered and she answered. After the meeting, the following details of the occasion were over, a speech was served in honor of the new member. What these "interesting figures" were the members reluctantly refused to say, so you and I will never know.

The following were the members taken in:

LAW OF ATHLETICS.

Now that champion sprinter, Ar-

Duffy, after five years of con-

secutive and persistent lying, has de-

 creeled to tell the truth, let us ad-

mit extreme uncertainty and, with a

peace to his ashes, cut off all per-

manence from the amateur system

and dismiss him forever more from

discussion among amateurs.

The argument is that students

should be compelled to support

their athletic teams. Physical train-

ing is well worth as important as any

of the ordinary branches, perhaps

more so. It should be required of

students for the same as English. In

fact, every student should be com-

pelled to report to the physical di-

rector for examination and should be

required to take physical work

unless he can prove he is unable or

is doing something else that would

suit the support of the teams as well.

The support of constituents of

various sorts should be entirely vol-

untary on the part of students. If

they want to go to the games and

have the money they will go. If they

have neither the money nor the de-

sire, is there any good reason why

they should be coerced?

All good movements should be

supported by the students as far as

possible, but choice should be left to

the student as to what he will spend

his money for.
