Good Game.

REDKY GIFFITH IS ALL RIGHT.

Grinnell people seem to feel good about the basketball game played with Iowa both because their team won and because the Iowa team is composed of good fellows. The following quotations from Scarlet and Black indicate that such is the case:

"The teams were evenly matched at the start of the game, but, in the second half the play was more forceful than usual. Iowa was determined to overcome Grinnell's lead and accomplished her goal. These young men have one of the most extensive practices in Iowa. Lantern slides of fishes able to swim and with phosphorescent sides. These he explained, would be the winner. Grinnell showed superiority in throwing baskets but, on the other hand, was unable to prevent Iowa from scoring.

"The game was fast and free from wrangling which has marred some contests. In the second half the play was more forceful than usual. Chas. C. Helmer, law '01, is county attorney of Carroll county, and has decided this work a highly practice.

Mr. Morean, Mr. CLINTON

Our Classmate, a successful teacher of the ancients.

One of the most interesting of the series of scientific lectures now being given occurred last night when Prof. Nutting explained the mysteries of the deep sea. There are few scientists so well fitted to talk on this subject as the professor, whose many ocean voyages make him quite an "old salt."

The bottom of the deep sea, he said, would be utterly dark and without a sign of light, for the phosphorescent fauna found there. He showed pictures of fishes with phosphorescent spots on their sides. These he explained, would look like ordinary windows as they passed through the water, but to those under the yachts could not be seen. He added that the most wonderful of the ancient ones was the saber-toothed tiger, which has marred some contests.

BARNEY CONWAY, the football giant who played in Drake's team here last fall, is elected track captain at that school.

The flags on the University buildings are at half mast today in honor of Judge William J. Haddock, for thirty-eight years secretary of the institution, who died at his home on west Oakland street Wednesday afternoon at quarter past four, after an illness of over three weeks. Paralyzed was the immediate cause of his death.

The day of his death was his seventieth birthday, as he was born in the county of Allamakee, on Feb. 28, 1832. He leaves a wife and three children.

The day of his death was his seventieth birthday, as he was born in the county of Allamakee, on Feb. 28, 1832. He leaves a wife and three children.

Over a generation ago he was judge of the eighth judicial district and was master of ceremonies in the United States court. Judge Haddock came to Iowa City in 1856, and in 1861 entered the firm of Chippewa and Haddock attorneys. After the death of Mr. Clark he gave up his law practice to become secretary of the institution, which office he held consecutively for thirty-eight years. In 1902 he resigned and since then has lived a retired life at his home at 803 east Washington street. It was in this office that he gained his great popularity, and acquaintance, which extended over the entire state and nation. To many of the lawyers now practicing in Iowa and other states, he administered the oath.

No funeral arrangements have yet been made.

EXHIBITION DRILL.

The "Varsity" Drill will give its first free exhibition drill of the season on Wednesday, March 6. This organization is the only voluntary one that has existed in the military department here, it having been organized last fall at the suggestion of the Department of Military Science and Tactics. It was first drilled every Wednesday night since its organization and has reached a high standard of proficiency, which will doubtless be exemplified on the occasion of the exhibition drill.

Undergraduates at Yale are finding much mirth with the annual junior prom this term. The chief objection is the great expense connected with it; the price of ordinary means cannot fall with the price of gas. The Yale "Sord" says editorially: "Abolish the prom and let nothing take its place. It is undesirable, and its importance is superficial. The campus really would be glad to see it go. This faculty, too, opposes it, one member claiming that the work of the class is too much obscured by it even the Yale football game.

The rules are almost as good as those rules can be written without a considerable elimination of the good points of the game. I am in favor of better officials who are not afraid to disqualify a man for an infraction of the rules. As to the open style of play more accidents have occurred on McCook from the so-called open play than the mass formations. The only causeality that ever happened on our field was caused by a tackle on a wide end run. A Drake university man was tackled so hard by a Kansas man that the heavy ball on the hard ground caused concussion of the brain from which the victim died a few hours later. The action of the "Big Nine" was uncalled for, and I hope the western colleges will pay no attention to their absurd changes.

Kansas stands for pure athletics and a strict enforcement of the rules, but the sentiment of the student body is strongly against such changes as will take all interest from the game.

A REALLY GOOD SHOW.

As a usual thing, the advance reading matter concerning coming attractions is so gaudy, so exaggerated, so exaggerated that the average reader is at a loss to make any reasonable discrimination. Every show that's coming is the best that has ever been offered, hence, in announcing the appearance at the Golden Star next Tuesday evening, March 6, of Nat Goodwin's great play, "When We Were Twenty-One," the management will in this instance refrain from publishing any very glowing accounts of this well-known success, as the impression made by this attraction when last seen here was very poor and everyessler that all really can be said is, "ask anybody." Best sale opens Friday evening.

Kansas Would Make Rules of Her Own—To Have Western Association.

The general opinion among those prominent in athletic affairs at the University of Kansas is that the "Big Nine" is going too far in her proposed big school reform. However, Kansas will be under no obligations to follow the Chicago conference. Judge Green said yesterday that he was in favor of forming a western association of the following schools that are outside of the "Big Nine": Kansas, Nebraska, Colorado, Oklahoma and Missouri. Judge Green also said: "The rules are almost as good as those rules can be written without a considerable elimination of the good points of the game.
