TRACK TEAM TRIALS

CINDER PATH IN GOOD SHAPE

Hamilton and Merton for Normal Entered in Eight Events Apiece—
Good Time in Quarter.

Coach Catlin put his men through a series of tryouts, yesterday afternoon, for places on the team to compete with Normal on next Saturday. The track is in fine shape from the recent rains and good time may be expected in all events.

There was a slight wind down the back stretch, which hindered the men quite a little. The best record in regard to time was made by Rimpke in an unpaced quarter, which he ran in about 52 seconds. According to this indication he will make even the speedy Hamilton extend himself to the limit.

"Cresco" White of the hurdle squad has an injured knee and it is doubtful whether he will be able to enter the meet. But with Brown and Murphy, Iowa is almost assured the first two places in the high hurdles and perhaps in the low.

Hamilton and Merton of Normal seem to be almost the whole team for the teachers. They are both ten second men. Both are sturdy runners and have often proven their ability to win points in many events, but it is doubtful if they can do all the work unaided.

In Engleman the Normalcytes have a high class jumper and he is expected to carry off at least one first. Noble and Woods, the quarter miler and the pole vaulter, respectively, are another pair of strong men and they will make things interesting for Iowa in their events. Doc Pell's squad is not expected to arrive until Saturday.

WHEAT IN THE SHEAF

The Play Demands It and the Manager Must Get It.

"Wanted—To learn the whereabouts of a farmer who hasn't threshed his last year's wheat crop."

Manager McAuliff, of "The Professor's Love Story," confided to an Iowa reporter yesterday that he was contemplating running such an ad in all the city papers in an effort to get wheat sheaves for the Dramatic Club play which occurs one week from Saturday.

The second act of this play, written by Barry and made famous by Willard, is laid in the wheat fields of Tullochmains, Scotland. It is absolutely necessary that the wheat shocks be shown, for the rejuvenated professor plays peep-bo behind them with his secretary, and leaps over them to show his sprightliness.

The offices of the Iowa City land agents have been visited in the hope that enough samples of wheat might be found, but all their collection combined would not make one good-sized sheaf.

Later the Dramatic Club manager said he was not seriously considering the running of the ad, as none but thrifty farmers would answer and thrifty farmers would not be likely to have wheat still unthreshed. But Mr. McAuliff has not despaired and is still on a dark hunt for wheat sheaves.

NEBRASKA LOSES TO HAWKEYE STARS

KENT PITCHES STAR BALL IN TWIRLERS' BATTLE.

Nebraska Starts With Lead But Iowa Wins on Kirk's Home Run.

In one of the finest games of the season, Iowa defeated Nebraska in a hotly contested game, Iowa winning by a final score of 3 to 2. The features of the game were Kent's pitching and Kent's home run in the sixth inning, which brought in two scores and won the game. It was a pitcher's battle from start to finish.

Kent struck out 11 men, while Morse struck out 6.

Nebraska 4 errors, Iowa 3.

Time of game, 1 hour, 5 minutes.

Following is the score by innings:

	R	E
Iowa	0 0 0 0 1 2 0 0	— 3
Neb.	0 0 1 0 1 0 0 0	— 2

The batting order was as follows:

Iowa—W. Kelly 2b, White lf, Kent p, Kirk c, Parsons ss, Davis rf, McDawled cf, E. Kelley 1b, Wilson 3b.

Nebraska—Cook cf, Gaddis 3b, Hyde c, Fenlon lf, Barta 1b, Rine 2b, Carroll ss, Dart rf, Morse p.

Three base hit—Carroll.

Home run—Kirk.

Bases on balls—Off Kent 1; off Morse 0.

Umpire—Edwards.

ASSEMBLY ADDRESS DELIGHTFUL.

The speech at assembly yesterday morning was given by Dr. Wm. T. Eckley, M. '84, professor of anatomy at the University of Illinois medical college. He talked on reminiscences of his college days and life at S. U. I., the changes wrought here since his student days, and the present prosperous conditions of affairs at his alma mater.

The talk was spicy and full of wit and humor, presented in the most telling way. Dr. Eckley struck the center of every student's sense of humor with his first sentences, and for the short time at his disposal he played upon his audience at his will. His skill as a story teller was used with telling effect.

Mr. A. C. Gordon, who has been teaching for the past year at Cherokee, has accepted a position in the East Des Moines High school for the ensuing year. In addition to teaching history, Mr. Gordon will have charge of the track team. He is to succeed Mr. Bair, the famous Grinnell athlete of two or three years ago.

DR. GUTHE ON "ELECTRICAL WAVES."

Professor of Physics Closes Course With Excellent Address.

The course on "Ether Waves" was brought to a climactic close last evening by the scholarly lecture on "Electrical Waves," by Dr. Earl E. Guthe, head of the department of physics. Dr. Guthe, in his short career in the State University, has already established an enviable reputation for himself; and a large and appreciative audience turned out to hear him last evening.

In opening, he briefly enumerated the various theories which have been propounded to account for the wonderful phenomena of electricity. The electro-magnetic theory, however, was selected by the speaker as the basis for his lecture. After tersely reviewing the history of the theory and its founders, he launched out in earnest to demonstrate its validity. The lecturer availed himself of many interesting experiments to make more tangible the fundamental laws of electrical waves. Electrical waves, according to the speaker's remarks, are the same as light waves; only that in the one case the ether waves are very long—miles in length, while in the latter case they are of such shorter dimensions as to be perceptible to the human eye, in the phenomena of light. The series of experiments which he performed made it clearly evident that there is a decided analogy between these two important physical phenomena; and that, after all, light is nothing more or less than electro-magnetic ether waves of smaller length.

It is safe to say that this course has been keenly appreciated by all students of science, as well as by the public at large, who have found them a source of great interest and useful information. It is to be hoped that in the future the University may be favored by further series on subjects of physics which enter so intimately in the pursuit of other related sciences.

EMMETT GREEN COMING ALONG NICELY.

Skull Not Fractured and Speedy Recovery Expected.

Emmett Green, the dental student from Osage, who was seriously injured by falling from his seat in the amphitheater Monday morning, is greatly improved. It was expected that he would be examined this afternoon for a fracture of the skull, but he is showing such improvement that it was decided unnecessary. He has been resting well and sat up the greater part of yesterday afternoon.

MEDICS HOLD SUCCESSFUL MEETING

PHYSICIANS GET BUSY.

Listen to Members of Faculty and Alumni on Medical Questions.

President MacLean delivered the address of welcome at the clinic Tuesday morning. He spoke of the wonderful progress of the college of medicine since 1901, when its building and equipment were destroyed by fire. Two new buildings have been built, with the most modern laboratory connections, and the number of students has increased at an unprecedented rate.

Dr. C. C. Brockman of Ottumwa, president of the alumni association, responded. He expressed himself as pleased at the raised standards of the college, and he thought that the state board should be more particular about requirements of scientific medical work.

Others who spoke were Dr. Farnsworth of Clinton, one of the original professors in the college of medicine; Dr. Treynor of Council Bluffs, a member of the board of regents; and Dr. Eckley, professor in the University of Illinois college of medicine, who graduated from the Iowa school in 1884.

Following is a partial list of the visitors:

J. B. Sherbon, Colfax, Ia.; L. C. Kern, Waverly, Ia.; W. W. Beam, Rolfe, Ia.; B. S. Southars, Southland, Ia.; D. C. Brockman, Ottumwa, Ia.; J. C. Powers, Rush, Hampton, Ia.; I. W. Harrison, Guthrie Center, Ia.; C. L. Scofield, Benson, Minn.; J. H. Pinnerton, Traer, Ia.; Allen Moorman, Redfield, Ia.; J. W. McLean, Rush, Fayette, Ia.; G. W. Murphy, Danbury, Ia.; L. S. Brewer, Quimby, Ia.; A. K. Resner, Manning, Ia.; W. T. Eckley, Chicago, Ill.; M. A. Beach, Stratford, Ia.; L. W. Harding, Solon, Ia.; S. Bailey, Rush, Mt. Ayr, Ia.; E. E. Dunkelburg, Waterloo, Ia.; L. W. Bowman, Alliance, Neb.; C. J. Saunders, Ft. Dodge, Ia.; J. T. Trynor, Council Bluffs, Ia.; J. H. Sims, Clarion, Ia.; J. W. Garth, Clarion, Ia.; F. E. Burbank, Oxford, Ia.; T. J. Farnsworth, Clinton, Ia.

Yesterday afternoon clinics were held by several of the leading University surgeons and physicians. Dr. Wm. Guthrie conducted a clinic in surgery, operating on a large number of patients. Dr. Henry Albert, state bacteriologist, read a paper yesterday morning on recent developments in bacteriology and pathology, demonstrating with specimens of bacteria of various diseases.

Prof. W. T. Eckley, of the University of Illinois, an alumnus of Iowa, had an unusual demonstration yesterday morning, taking up a discussion of anatomic dissections illustrative of the ghoulish sentiment.

Drs. Guthrie, Kessler, Bierring, Van Epps and Chase conducted clinics and demonstrations along various lines.

Last evening there was a reception and banquet at the Burkley, closing the two days' session.

Several professors missed a large number of tulips on the morning after May Day. Was it a revenge on the professors, a lack of bouquet-furnishing gentlemen felt by co-eds, or simple meanness?

When we are defeated two times in one night in debating contests, it is time to think. When we are defeated three times in one year, it is time to grow serious. When we fail to win a debate for two consecutive years it is high time to do something.

Notre Dame has won fourteen consecutive debates. Other schools win often enough to vary the monotony. We keep on in the same old rut. What ails us? No bright young men here? Hardly that. The good state of Iowa has never lacked for men either with skillful hands or with master minds. The University is full of men who can do. Why don't they do it? For the same reason that the man with the sickle does not keep up with the man who uses a self-binder. For the same reason that the Chinaman with a pigtail, long clothes and some thousand or more years of tradition to follow, does not keep pace with the American who cuts his hair, wears trousers and regards not the traditions of the elders if they hinder his progress. We are following a system that has nothing to commend it, not even sufficient age. It is old enough to be quite inadequate, however. If it ever was useful, it has outlived its usefulness.

The Zets and Irvings go to Notre Dame, and return upon their shields. The Philos challenge South Dakota, and get whipped. The laws get ready to meet Kansas, and a merciful providence prevents a meeting which could have furnished an opportunity for another defeat.

The University gets no glory out of this sort of thing, nor do the men get much benefit.

The facts are that our debaters can hardly be called University representatives. They are properly called society representatives. They are not chosen from the University at large. It makes no difference how good or wise or eloquent they are, they still come short of representing the institution. There is too little sifting.

Both Phones 211-213 Iowa Avenue

HONESTLY now, wouldn't a girl of nineteen look like a fossil in the same dress that a woman of forty would wear? And isn't it just as logical for a boy of the same age to choose a suit meant for a man of forty? It's because no other clothier in town ever realized the ridiculous-

ness of having just one sort of clothes for men from the time they put on long pants, until the time they're through with 'em, that we've built up the largest young men's trade in town.

COLLEGE BRAND CLOTHES

are only meant for Collegy fellows alert and style-wise young men, with taste enough to appreciate extreme ideas, and individuality enough to wear them. College Brand styles are originated simultaneously with the smart creations of New York's Fifth Avenue tailors.

MAX MAYER The Good Clothes Store.

1 CENT IS ALL IT WILL COST YOU to write for our big FREE BICYCLE catalogue showing the most complete line of high-grade BICYCLES, TIRES and SUNDRIES at PRICES BELOW any other manufacturer or dealer in the world.

DO NOT BUY A BICYCLE from anyone, at any price, or on any kind of terms, until you have received our complete Free Catalogues illustrating and describing every kind of high-grade and low-grade bicycles, old patterns and latest models, and learn of our remarkable LOW PRICES and wonderful new offers made possible by selling from factory direct to rider with no middlemen's profits.

WE SHIP ON APPROVAL without a cent deposit. Pay the Freight and allow 10 Days Free Trial and make other liberal terms which no other house in the world will do. You will learn everything and get much valuable information by simply writing us a postal.

We need a **Rider Agent** in every town and can offer an opportunity to make money to suitable young men who apply at once.

\$8.50 PUNCTURE-PROOF TIRES ONLY \$4.80 PER PAIR

Regular Price \$8.50 per pair. To introduce We Will Sell You a Sample Pair for Only **4.80** NAILS, TACKS OR GLASS WON'T LET OUT THE AIR

(CASH WITH ORDER \$4.55) NO MORE TROUBLE FROM PUNCTURES.

Result of 15 years experience in tire making. No danger from THORNS, CACTUS, PINS, NAILS, TACKS or GLASS. Serious punctures, like intentional knife cuts, can be vulcanized like any other tire.

Two Hundred Thousand pairs now in actual use. Over Seventy-five Thousand pairs sold last year.

DESCRIPTION: Made in all sizes. It is lively and easy riding, very durable and lined inside with a special quality of rubber, which never becomes porous and which closes up small punctures without allowing the air to escape. We have hundreds of letters from satisfied customers stating that their tires have only been pumped up once or twice in a whole season. They weigh no more than an ordinary tire, the puncture resisting qualities being given by several layers of thin, specially prepared fabric on the tread. That "Holding Back" sensation commonly felt when riding on asphalt or soft roads is overcome by the patent "Basket Weave" tread which prevents all air from being squeezed out between the tire and the road thus overcoming all suction. The regular price of these tires is \$8.50 per pair, but for advertising purposes we are making a special factory price to the rider of only \$4.80 per pair. All orders shipped same day letter is received. We ship C.O.D. on approval. You do not pay a cent until you have examined and found them strictly as represented.

We will allow a cash discount of 5 per cent (thereby making the price \$4.55 per pair) if you send FULL CASH WITH ORDER and enclose this advertisement. We will also send one nickel plated brass hand pump and two Sampson metal puncture closers on full paid orders (these metal puncture closers to be used in case of intentional knife cuts or heavy gashes). Tires to be returned at \$2.00 expense if for any reason they are not satisfactory on examination.

We are perfectly reliable and money sent to us is as safe as in a bank. Ask your Postmaster, Banker, Express or Freight Agent or the Editor of this paper about us. If you order a pair of these tires, you will find that they will ride easier, run faster, wear better, last longer and look finer than any tire you have ever used or seen at any price. We know that you will be so well pleased that when you want a bicycle you will give us your order. We want you to send us a small trial order at once, hence this remarkable tire offer.

COASTER-BRAKES, built-up-wheels, saddles, pedals, parts and repairs, and prices charged by dealers and repair men. Write for our big SUNDRY catalogue.

DO NOT WAIT but write us a postal today. **DO NOT THINK OF BUYING** a bicycle or a pair of tires from anyone until you know the new and wonderful offers we are making. It only costs a postal to learn everything. Write it NOW.

COUNCIL OF NINE.

A New Student Body Formed.

At the meeting of the Board of Student Delegates held last Monday, that board adopted the report of the committee of nine which was appointed a few weeks ago, for the purpose of recommending a better means of communication between students and the University authorities.

The plan adopted was to the effect that there shall be a Council of Nine, consisting of the student delegates of the senior classes of the several colleges, including the College of Women.

Of this council the president of the University is to be an honorary member. In this way a committee small enough to carry on work with dispatch, and yet representative of the entire student body, is established.

This council does not abolish or supersede the Board of Student Delegates, as at present constituted, but that board will continue to stand. The committee recommended that at present it would not be best to adopt a constitution defining the powers of this new council, but that the defining of such powers would best be left to time and experience.

This new Council of Nine may be of great use and value to the University, and it is believed and hoped that such will be the case.

At the meeting of the delegates, the matter of arousing more interest and enthusiasm in the county clubs movement was also discussed at some length. These clubs have done much good, and may do much more.

Phi Rho Sigma entertained in honor of its visiting members at its fraternity rooms, on last Tuesday evening. The evening was spent in smoking and story telling. Many stories of the early '70's and '80's were listened to with much eagerness by the younger members of the fraternity. Delightful refreshments were served and many of the visiting members responded to toasts. The guests

THE BULLETIN

THIS space is reserved for announcements of coming University events. Notices should be handed in as soon as possible so they may not fail to be given sufficient publicity.

Dr. Cross of Tiffin, Iowa, is attending the alumni meeting this week.

Dr. Grant of Riverside, Iowa, is in the city attending the alumni meeting.

Drs. Seymore and Saunders of Fort Dodge are shaking hands with old friends.

Dr. Perle Clifton Irwin, '04, of Waseau, Iowa, is visiting friends at S. U. I.

Dr. C. C. Hetzel, '03, a member of Sigma Nu, spent Monday and Tuesday with friends in Iowa City. He has established a good practice in Avoca, Iowa.

Dr. Krause, '02, of Cedar Rapids, is spending a few days in our city.

Dr. E. R. Walker of Elizabeth, Ill., is visiting relatives and friends and attending the alumni meeting this week.

Dr. Grant, '97, is visiting his alma mater this week. He is practicing in Riverside, Iowa, where he has been since his graduation.

S. V. Beanlieu, '04, at present teaching in the Capital Park High school, has been elected to the superintendency of the Williamsburg public schools. Miss Agnes Moravec, '03, is to be his first assistant in the high school.

Miss Wata Jones, '06, of Iowa City, has been chosen science teacher in the high school at Corydon, Iowa.

Dr. Geo. Lewis Day, '95, of Lone Tree, Iowa, is shaking hands with old friends, today.

Best work. St. James barber shop.

Continental restaurant is now open. Straight board or tickets cheap. Come and give us a trial. North Linn St.

UNIVERSITY CALENDAR
