It is not uncommon to select the four educational institutions in Iowa.

The fact deserves mention that the library of the university has recently undertaken an analysis of some hundred specimens, the twenty-eighth of which is in the process of being published.

Which is more important is that the fifth edition of the "New Complete" will be published in Iowa, which is the only one of the United States which has been published in Iowa.

The University of Iowa has been the subject of a number of serious studies in the last ten years.

Perhaps the greatest weight which will be given to the annual report of the University of Iowa is the fact that it has been published in Iowa, which is the only one of the United States which has been published in Iowa.

The third annual report of the University of Iowa has been published in Iowa, which is the only one of the United States which has been published in Iowa.

The University of Iowa has been the subject of a number of serious studies in the last ten years.

MANUSCRIPT OF WAR GOVERNOR

VALUABLE ARCHIVES PRINTED.

Executive Journal of Iowa, 1836-41
Published by the State Historian.

A most valuable addition to the history of Iowa has been made by the publication of the Executive Journal of the First Territorial Governor of Iowa, Robert Lucas. The journal, edited by B. F. Shumbaugh from the original manuscript and published by the State Historical Society, contains the record of the official acts of the Territorial Executive during the period from March 1833 to January 1841. Aside from its historical value it presents a wonderful piece of graphic book making.

Work interest is attached to the finding of the original manuscript, the fact that it is the only known official record of executive acts during its Territorial period, is as tallows:

Robert Lucas, an early Iowa officer and pioneer, who came out with Robert Lincoln from Ohio as a young man, seeing his future in a new country. This Executive Journal contains a most valuable collection of official records relating to the early Territorial period and future historical interest has begun upon the existing laws which Iowa's original Governor had expressly Congress the First Legislative Assembly.

The Executive Journal and proceedings of the old manuscript, after its existence had been so long desired of, is an event of great encouragement to the historical student. The existence of the Executive Journal of the two succeeding Territorial Governors, John Chambers and James Clarke, has also been a subject of interesting comment among students of Iowa history. It is to be hoped that some day those official documents may also be brought to light, and another great page filled in the Archives of Iowa.

DEAN GREGORY HERE.

Returns to Open College of Law Af ter Extended Tour Through Fifteen States.

Dean Gregory left Iowa City Wednesday of Commencement week, going to the University of Indiana, where he delivered the Commencement address. From Indiana, he went to Madison, Wis., and presented at the Wisconsin Annual Dinner. He then went east, arriving at Harvard in Commencement week. The balance of the summer the Dean spent at the seashore in Maine and Massachusetts, and on the Hudson. He also attended a meeting of the American Bar Association in R. P., and returned to Iowa City last Saturday.

R. E. Kiltisger served as Deane in the state Hospital for the Insane, the Clarke Hospital for the Insane, this summer.

THE DAILY IOWAN

COMMERCIAL MUSEUM ENLARGED
FINE COLLECTION HAS BEEN ADDED THIS SUMMER.

Exhibits include Samples of Industrial Products from All Parts of the World.

Under the direction of Prof. Isaac Low, the beginning of a commercial museum in connection with the department of Economics and Sociology, was made several years ago. The Work has been wholly supported by the University and has been very successful in collecting a large amount of valuable material from different countries.

In the past few years several hundred dollars have been expended annually in securing material and a large number of exhibits have been presented to the museum.

The museum has made very good progress during the last six months. Since the resignation of Dr. W. E. Parmer as Professor of Economics, Dr. George W. Shelly, Instructor in Economics, has been in charge of the museum. He has spent most of the summer collecting additional material, and has obtained some very interesting and valuable exhibits.

There has just been received a very fine silk exhibit from Cheney Brothers, of Chicago. This exhibit consists of silk woven on looms of the world. When you get ready for a fine time, there is a loom of the pinetree from which the silk for the fabric is made. A sample of this exhibit is being made available to the public.

Fall Models in Men's Clothing

The splendid results achieved by many of the makers of ready-to-wear clothes, who allow nothing to stand in the way of their development, will be apparent this week in the GOLDEN EAGLE'S Exhibition of Fall Fashions. Not all the tailors who have attempted good clothes have succeeded. THOSE who have are represented. Of the vast number of wholesale tailors now making their bid for public favor, ten have achieved the distinction, and therefore ten are entitled to—and hold—a place in the Golden Eagle's display. They have made themselves worthy through unceasing effort to perfect, and we offer our merchandise with thorough knowledge of its goodness. To offer the lines of the ten best tailors in existence, in itself tells the story of the Golden Eagle's resources and magnitude. We have SEVEN large stores in SEVEN large cities and opportunity for selection is thus without limit, if not for the product of one house, we deal in ALL that are good and none that is poor. The mission of such a great house as the Golden Eagle contemplates no less than everything worthy of respect, and we offer this and no less.

The Master Tailor work of the Wilner System leads in this list of honor houses. We know it to be impeccable, and every season has seen this product made in the clean bright, sanitary shops of the Wilner System in the manufacturing section of Rochester, New York, Wilner System Fall Suits and Overcoats range in price from $18.00 to $20.00. Other lines of Suits and Overcoats range from $7.50 to $16.50, but whichever selection is made, it is the best in the world at the price asked.

Haberdashery...

The furnishing department has to offer a very rich line of Fall Shirts in the new shades at 50c, 75c, $1.00, $1.50, and $2.00. Likewise the smart new wine shades in Neckwear which are to hold popular favor for early fall at 25c, 50c, and 75c.

Headwear...

The Golden Eagle's "Willow" Special Brand of Soft and Stiff Hats at $1.90 and the "Beacon" and "Volk" at $3.00 will create unusual interest because of smart modeling and rich finish. We also carry Stetsons in all styles at $3.50 to $5.00. We are agents for the celebrated Knox Hat at $5.00 the world over.

Open Every Night Until 8 O'clock

Saturday Until 10
