ALUMNI ADDRESS DEMOCRATIC RALLY

Judge Wade quotes Gov. Cummins on Tariff—Many Students Attend.

Two president alammet addressed the Johnson county Democracy last evening. They were Hon. Geo. Ball and Judge Martin J. Wade. The occasion was the democratic rally in Smith's Armory.

Mr. Ball has been state senator from this district and is now making a vigorous campaign for election to the legislature. For the second district is one of the most important in the state because the University is situated in it. He discussed the tariff issue. Mr. Ball said that he realized the weight of the old idea which he should shield it, but promised to do his best as the agent of the people.

Upon the introduction of Judge M. J. Wade, the applause was loud and long. Judge Wade's reputation as a statesman is such that the assembly is quick to grant him recognition; this audience was composed of his benefactors, and the students of his own University, and naturally, the voice of enthusiasm was heard. "Judge" said his entire speech upon questions from Governor Cummins. Two of these were "The amount of graft of all insurance companies for all times will not equal one fifth of the amount of which our people are robbed every year by excessive rates."

"I ask for tariff revision and for the tariff wall to be pulled down."

The other side of the question was made clear by the speakers of protected communities.

"The question is an all-discussion of Democratic doctrines, the Judge closed his remarks, and declared that the square exchange deal for the people and foreign activity in the Democratic camp."

Mr. Wade promised that the rally would be the last he would shoulder.

"The object of the rally was the interest shown by the University students."

Resolutions.

In the death of John Clinton Brind’er or the Medical Faculty mourns with deepest regret the loss of its oldest member, and in recognition of the services of a lifetime devoted to the cause of progressive medicine, it is a privilege to record the names of the starting qualities which formed such a factor in the advancement of the College of Medicine.

Dr. Brind’er entered the service of the University in 1880, resigning his first appointment December first of that year, and as a member of the first medical faculty he contributed freely of his enthusiasm and energies to start the work of the University school of medicine. In the present estate of hospital privileges it is well to recall the fact that in the earliest days of the College which they founded and sustains.

In the critical period of its material development, the timely aid of Dr. Brind’er, during his service as a legal agent brought to the college its first medical building.

As professor of Obstetrics and Gynecology and Diseases of children his active labors extended over a period of twenty eight years, during these years of which he served the Faculty as its Dean, and thus with his eight years as Exrector Professor for a period of thirty six years his assistants were linked with the welfare of the College of Medicine.

In the pursuit of his chosen specialty he was unusually skilled as a teacher he attained high rank, and won the affection and esteem of his students, as the development of medical thought tended to his time he easily kept pace. His somewhat rugged personality exuded the kindliest heart which beat for the welfare of student and his fellow man, and his发病 pleasing presence and helpful wisdom will be missed at the Faculty Board and many a medical council.

The Medical Faculty extends to the bereaved family their sympathies and expresses the hope that the keen edge of sorrow will be softened by the memory of this useful life.
