OLD GOLD AGAINST THE CARDINAL

Battle Royal at Madison Tomorrow

Coaches leave at 1:05 with our men; crowd of rooters go this evening. Badgers are getting ready.

"Yes, it is going to be a hard game. It will be no walkover for us. Our men will all be pretty far condition for the game. I believe they will put up good fight, and if Wisconsin from whom we have, they will have to work out of the way we have.

John G. Chalmers.

We are going up there with the intention of fighting for all we own.

Capt. Allen.

Tomorrow afternoon will give the deciding of one of last football games of the year. Not many Hawkeyes will win, with an exception of the manoeuvres of reaching New Orleans on whom who go will be forced to meet hard supporters of the Old Gold.

The Hawkeyes are in good shape, and in the long game injuries have come thick and fast during this week. While all veterans will enter the game, .

The leaders in the game will be dreamed, that is to be

Professor C. C. Nutting is to read a

paper before the fourth annual con-

ference of Iowa high schools and col-

leges which is to be held at Ames,

Nov. 8. The subject of Professor

Nutting’s paper is, “What are our

colleges and their influence upon the

students and moral character of their students?”

The art club is fairly organized and

has begun its work. At its first regu-

lar meeting last Monday evening,

Professor Ware discussed Ancient

Painting. The talk introduced the

story of Italian painting which will

continue throughout the year.

Northwestern University Medical School

(Clinical Medical College)

Dr. N. S. DAVIS, Dean.

This medical school is centrally located, convenient to large hospi-
tals, allowing abundance of clinical material.
The laboratory and tech-
niques are modern, well-stocked and properly equipped with
all apparatus for teaching.

The full course consists of four years, eight months each, beginning
October 1st.

The classes are divided into eight sections, thus allowing the stud-
ents of each section to have the advantage of individual work.
This feature, as well as a graded system, ensures the work in the
first year to be more intense than in the second.

The ability of the man who graduates from this school, as well as
his character and thoroughness of the work given him, improves
upon the success of our graduates in the examinations given by the
different State Boards. The fact that graduates of the Medical College who were recognized by the various State Boards in the United States during the
last year, astonished us.

For further particulars address the Secretary.
