DO IT NOW!

The College Girl.

At the recent Y. W. C. A. convention at Grinnell, Dr. Cady was one of the speakers. He expressed some ideas about the college girl that will be of interest to his many friends among the students here.

"Society has invaded a great deal in a college girl. There are 140,000 students in the University of Iowa, 125,000 of whom are women. So much greater than one hundred years ago, the grade of men and women should be as much the better. In 1846 there were no institutions of learning open to women. Today there are 170 women's colleges, besides many coeducational schools. The American woman has only been thrown open to her.

"Society does not demand that woman invade man's sphere nor be a male imitator. The reverse. A college girl gives to the world the spirit of that convention. The National Woman's Rights Convention, under whose supervision Iowa College was established.

"As previously announced in the News, the Week of Prayer for Young Men is being observed by the Y. M. C. A. These meetings so far have been very interesting and fairly well attended, and it is hoped the attendance may be much larger for the remainder of the week.

Mr. Kilburne, a 6' 90, Law, '31, was seated on the stove at Iowa, and the story is that he was one of two Republicans who won, all other offices being filled by Democrats except the name of standing Republican. A friend of his and a Republican, a local paper speaks of Mr. Kilburne's action as "a splendid personal victory," and says he "has been the best.

Northwestern University Medical School.

Dr. N. D. SAVAS, Dean.

This medical school is centrally located, convenient to large hospitals, offering advantages of clinical material. The laboratories and lecture rooms are commodious, well-lighted and generously supplied with all modern appliances to aid in carrying on the study of medicine.

Recently the full course consists of four years, eight months each, beginning October 1st.

The classes are divided into small sections, thus affording to students better opportunity, or the advantages of individual instruction. This feature, as well as a graded curriculum, characterizes the work in all the departments.

The ability of the men who graduate from this school, as well as the character and thoroughness of the work given here, is evidenced by the successful examinations of the candidates given by the different State Boards. Out of the 15 graduates of the class of 1905 who were examined by the State Boards in the University after the last year, only one failed.
