IOWA CITY, IOWA, THURSDAY MORNING, NOVEMBER 15, 1906

No. 43

PHILOS CHOOSE AFFIRMATIVE

WILL ARGUE WITH SOUTH DAKOTA.

Iowa Has at Least Four Big Debates on Hand—A Possible Fifth in Sight.

The Philomathian Society has answered South Dakota. A question was submitted a short time ago and the Iowa debaters have chosen to support the affirmative of the proposition: "Resolved, That the general welfare of the American people demands the open shop principle in our industries." In the preliminary, Scheel, Field, and Butterworth will have the affirmative, and Willis, Fousek and Rorick the negative.

Iowa has a serious situation to face in debating this year. We have undertaken to win four big contest debates; Minnesota and Wisconsin are assigned against us by the five-cornered league, and the University Debating League has already signed an agreement with Notre Dame. If Kansas is taken on, it will make a fifth. We seem to be attempting the impossible.

The Minnesota preliminary will be held on the first available date just preceding the holidays. There is some uncertainty as to where the preliminaries will be held this year.

Committees appointed by each of the societies composing the Debating League are considering the local situation with a view to devising some feasible plan for regulating the debating interests here. Attempts have been made in this direction before without success. It is hoped that the present movement will result in some satisfactory solution of the debating problem, which has grown more serious every year.

EXTEND ANATOMICAL WORK.

Dr. H. J. Prentiss, of S. U. I. College of Medicine, Will Send Human Bones to State High Schools.

Iowa City, Iowa, Nov. 13—Dr. H. J. Prentiss, professor of anatomy in the College of Medicine of the State university, is not satisfied with having his work limited to university students, but has conceived and put in operation a plan of extending the work of his department into the high schools of the state in a way that will doubtless prove very popular.

The plan, which is just being started, is to make up complete sets of all bones in the human body and to send them out to the high schools as loan collections for use in the teaching of physiology. The bones are not articulated into skeletons, but are sent out in attractive hardwood cases containing apartments for the different bones. The preparation of the set is done in the anatomical laboratories, and the cases which will be ornaments in the high school laboratories where they will be placed, are neatly marked as loan collections from those laboratories.

Owing to the large amount of work involved in getting these bones ready, at the beginning only a few sets—a dozen or fifteen—will be sent out, but if they meet a need in the high schools, more will be prepared and sent out from time to time.

W. I. ATKINSON, '06
Will play Guard Saturday.

"GERMANY" SCHWINN
The Big Tackle.

READ THIS, FOOTBALL MEN.

"Everybody on to Iowa."

"Before we go too far on our march to victory, let us consider the next factor. Its color is simply 'Old Gold,' also it is a tough proposition. For the last few years we have had Iowa whipped in our minds but the score keeper has figured otherwise. On the 24th day of November we have another whack at the champions, and every man, woman and child in any way related to I. S. C. is hoping and believing that this time we will carry off the honors. We believe we have a better bunch of 'huskies,' we believe we can put up a better article of football than the Hawkeyes can and we believe we can win. However, the next three weeks will tell us all we want to know.

"Iowa's exceptionally poor showing against the fast Coe team does not prove anything. They merely kept Kent out almost too long. Iowa seems to be looking for odds and you can depend on it when the time comes every Hawkeye firmly expects the Old Gold to defend her title.

"By the way, an excursion train holds 1,000 rooters and more cars can be added if necessary to bring the total up to 1,200. A low rate will be secured and we are all going."

Coach Monilaw, of Missouri, after seeing St. Louis play last week said, "St. Louis are plenty fast and ought to beat Iowa."

The Daily Maroon, of Chicago, after Minnesota's game, came out with the following display headlines, "MINNESOTA DEFEATS CHAMPIONS OF THE WEST IN CLEAN GAME IN DRIZZLING RAIN. Heavy Northerners, aided by weather, outplay Chicago's fast team on wet field—Poor field prevents use of Maroon's good plays—Chicago forced to take poor end of 4 to 2 score after game contest—Captain Eckersall fights hard in vain—Line a surprise.

Coach Williams, of Minnesota, says: "The Minnesota team played a great game on Saturday and will undoubtedly be conceded the championship of the west if it wins from Indiana."

WILL SPEAK AT IOWA CONFERENCE.

Prof. C. C. Nutting, of the University, Will read Paper on November 30th.

Prof. C. C. Nutting, of the state university will appear on the program at the conference of Iowa High Schools and Colleges which meets at the agricultural college at Ames on November 30th. The subject of his paper will be "What are the colleges doing to promote the physical development and moral character of their students?" Principal E. R. Collins, of the local high school will also be in attendance and will take part in the discussion on a paper upon "The Industrial Work and its place in the high schools."

VARSITY RIFLES HOLD REGULAR DRILL.

The Varsity Rifles held their regular drill last evening, and the "spell-down," which was a feature of last year's work, was taken up for the first time this year. This competition is exceptionally valuable to the men for it drills them in the little things which mean so much for the appearance of a company. It will be a part of the drill each evening from now on.

It was announced at the drill that a medal would be given near the close of the second semester for the best drilled man in the company, and under the same conditions as of last year. One will also be given at the end of the year. More will appear of this later when the plans are a little more definite. The company continues to grow at each drill. Two men were voted in, and several applications were read, to be voted upon next week.

PRACTICE MARCH FOR BATTALION.

In order to add a little interest to the spring drill, Lieut. Weeks has offered the proposition of a practice march, to last three days and to take place some time in May.

In the militia and the regular army the camp has been abandoned and practice marches substituted and it is thought that it will be much more interesting and instructive to have a march than to go to camp. In all probability the faculty will be petitioned to excuse the cadets from exercises Friday and Saturday, and have these two days with Sunday for the march. As planned now the march will be in the vicinity of Iowa City, so that may be included and still not be too far away from home on the third day. It is desired that the cadets think over the matter, and if a sufficient number are in favor of it, then the plans can be made in plenty of time.

CHEMISTRY SEMINAR.

One of the most valuable branches of the work of the Chemistry Department is the seminar held every Tuesday afternoon. The meetings are attended by the professors, instructors, scholars and fellows of the department. The principal paper of the meeting this week was read by Mr. Roe E. Remington, on "The Sensitivity of Haemotoxilin as a reagent for the deduction of Copper." Mr. A. L. Tatum also had a paper on "The Influence of Metals for discharging the Electroscope." The program was closed with a discussion by Professor Rockwood, who presented a view as to the meaning of the term "the nascent state."

A MISSIONARY OF SOCIOLOGY

DR. EDWARDS, OF YALE, IS HERE.

Is making a tour of the West, to promote the work of the Carnegie Institute.

Alba M. Edwards, formerly of Yale, now in the Department of Economics and Sociology of the Carnegie Institute, is visiting the University. He is making a western tour in the interest of the Carnegie Institute, explaining the work of that organization and securing the co-operation of professors and the active interest of students.

In 1902 Andrew Carnegie transferred to a board of trustees, \$10,000,000 in five per cent. U. S. steel bonds, for the purpose of founding the Carnegie Institute at Washington. Its object is to encourage and promote investigation in science, literature and art. It is a supplementary agency for the purpose of strengthening scientific institutions and scientific workers. In field of science into its different destitute organized for unorganized effort and to prevent needless duplication of work. It has divided the broad field of science into its different departments and has placed a director in charge of each.

Dr. Edwards is concerned with the Economic and Sociological departments. The chief activity in this field is the collection of reliable data for use in social legislation. The Institute places its material at the disposal of legislatures, after collecting it through practical field work.

Ames-Iowa Game Largely Advertised.

The Athletic management is sending out a large amount of advertising matter for the Ames-Iowa game. Large bill-board posters and window cards will be distributed widely over the state among the alumni of the University.

The larger towns and cities of the state will send delegations back to S. U. I. to see the great championship game. Reduced rates will be given on all railroads, on this date, to those who come in a delegation to Iowa City.

Mr. J. R. Smead and Ward Allen have pledged to Phi Delta Phi.

Sunday, Nov. 18, 4:00 p. m., Y. W. C. A. meeting in Close Hall, Miss Ruth Marsh, leader. Subject, "Lives that Lift."

Notice.

All reserved books taken from the library at night must be returned before eight o'clock the next morning. The library opens at ten minutes before eight to enable students to return these books before going to first hour classes. Any student not observing this regulation will be denied the privileges of the library.

The Librarian.

James Willis Glead, of Topeka, Kansas, one of the charter members of Phi Psi in that state, was visiting his cousin, Miss Joanna Strange, in this city Tuesday.

J. E. Conner, a former instructor in the Economics department, writes to Professor Plum, that he is now special correspondent of the New York Journal of Commerce at Washington.

TODAY'S BULLETIN

2:30 p. m.—Meeting of Iowa Woman's Club, at the home of Mrs. Buckner, 24 E. Burlington.

4:00 p. m.—Sophomore Class meeting in Assembly room.

7:00 p. m.—Regular Band practice at Armory,

7:45 p. m.—Readers' Club meets with Miss Rigby, 903 Iowa Avenue.

WHEN AMES COMES.

A championship game bears with it responsibility. The thousands of alumni, and many thousand old students of S. U. I. are now looking back upon their alma mater with the fervent hope that she will do her best. In the coming contest, of next week, when the championship of the state of Iowa is to be decided, not only those in the grand stand will be supporters of the game, but a great portion of the state of Iowa will anxiously await the result of the contest.

Those who are privileged to play on Iowa's eleven that day, should appreciate their opportunity. Remember thousands of S. U. I. men, women and children are depending upon you to do your duty. Are we to enjoy the sweets of victory, or take a bitter defeat? The men of our eleven carry with them this responsibility. Do your best, Iowa. You know how. Remember your training and we will abide by the result.

The Art Club meeting last Monday evening was a successful one. Miss Hutchinson read a paper on "Pompey" and followed with a discussion on the same subject by Prof. Potter. The membership of the club is gradually increasing, the present number is twenty-five.

Professor Ensign is inspecting high schools at Fayette, Strawberry Point and Monticello or Mt. Vernon this week. Friday evening he will act as judge on an intersociety debate at Cornell College.

Official Notice

To all students in the Graduate College and the College of Liberal Arts; You are requested to call at the office of Dean Currier, Room 108, in the Hall of Liberal Arts, and obtain a copy of "Regulations for Guidance of Students."

Each student should familiarize himself with the regulations found in this manual and govern himself accordingly. H. C. Dorcas, Registrar

John Hands, watch inspector for C., R. I. & P. R. R., repairs all kinds of Watches, Clocks and Jewelry. Everything warranted correct or money refunded.

Notice.

A cordial invitation is extended to students interested in music to cooperate in the development of the University Choral Society. The recommendation of any choir director in the city will be sufficient for entrance into this organization. It is earnestly hoped that all intending to join the Choral Society will do so at the earliest possible date, unless they can prove themselves to be exceptionally efficient sight readers. Until further notice rehearsals will be held in the L. A. Assembly Hall on Thursday evenings, 7 to 8 o'clock. Henry G. Cox, Director.

R. J. O'Brien, L. '05, was elected county attorney of Buchanan county on the democratic ticket. The county being strongly republican, Mr. O'Brien is to be congratulated on his political success.

Prizes for Economic Essays.

Our readers may be interested to know that Hart, Schaffner & Marx, of Chicago, have offered through a committee, some very large prizes for the best essays on economic subjects. For the third time a first prize of \$1,000, and a second prize of \$500.00 are offered to graduate students; and to undergraduates, a first prize of \$300, and a second prize of \$150. These papers must be sent in by June 1, 1907, to Professor J. Laurence Laughlin, University of Chicago. The subjects are as follows:

1. The practical wisdom of freeing raw materials essential to subsequent manufactures, from customs duties, when entering the United States.
 2. The best methods of obtaining an elastic currency in times of panic.
 3. To what extent, and in what form, are socialistic tenets held in the United States?
 4. In what respect and to what extent have combinations among American railways limited or modified the influence of competition?
 5. The best methods of avoiding resort to force by labor unions, in their contests with their employers.
 6. The effect of "trusts" upon the prices of goods produced by them.
 7. How far does the earning power of skill obtain under a regime of trade unions?
 8. A critical study of modern commercial methods for distributing products to consumers.
 9. The development of economic theory since John Stuart Mill.
- For the honor of the institution, as well as for the distinction to be won, many students ought to enter into such a contest. For two years past, the same prizes have been assigned. The committee in charge is composed of Professor J. Laurence Laughlin, University of Chicago, chairman; Professor J. B. Clark, Columbia University; Professor Henry C. Adams, University of Michigan; Hon. Horace White, New York City; Hon. Carroll D. Wright, President of Clark College.

The Hiawatha song books which will be used by the University Mixed Chorus, have come. The chorus will start practicing the songs at their next rehearsal.

DO IT NOW!

MORE MUSIC.

Choral Society and Orchestra are Organized and Begin Practice.

The University Choral Society held its first regular rehearsal yesterday afternoon. "Hiawatha's Wedding Feast" set to music by S. Coleridge-Taylor, will be the work of the society for some weeks. Mr. Cox expresses himself with much enthusiasm as to the excellent results which he thinks assured, from the good voices enlisted and the spirit with which the work is approached.

After the rehearsal the newly-organized society elected W. C. Davis as president. Other officers will be chosen later. Mr. Davis is also president of the Men's Glee Club.

Another first rehearsal was that of the new University Orchestra, at the Armory one evening this week. When fully organized the orchestra will number between thirty and forty pieces. It promises to become one of the most important factors in stimulating musical interest in college circles.

Notice.

All faculty members, their wives and sweethearts, who are interested in music, are cordially invited to cooperate in the development of the University Choral Society by entering the same. "Hiawatha's Wedding Feast," the musical setting by S. Coleridge-Taylor, is now being rehearsed. Until further notice, rehearsals will be held in L. A. Assembly Hall, on Thursday evenings, 7 to 8 o'clock. First rehearsal Nov. 21. Henry G. Cox, Director.

Last night the Phi Delta Phis' initiated Messrs. O'Hern and Adams, both of the class of '08.

STEVENS

ALL our Rifles and Shotguns possess the "Take-down" feature, which is an additional property of merit embodied in the deservedly popular STEVENS products. This is especially desirable in a small arm, that by taking down can be carried in a trunk, grip, or small package.

OUR LINE:
RIFLES, PISTOLS, SHOTGUNS

Don't fail to send for illustrated catalog. It is indispensable to all shooters, and is mailed FREE upon receipt of four cents in stamps to pay postage.

Marlin 16-Gauge Shotgun
This is the smallest and lightest weight (about 6 1-2 pounds) repeating gun ever manufactured, and opens up many new possibilities to the up-to-date sportsman. It is not a 16 barrel on a 12 action, but a new, well-balanced, properly-proportioned gun that, with modern smokeless powders, enables a shooter to use a powerful load in a small shell and reduce, materially, the weight of shells and gun to be carried. The small, light gun handles fast, results in close holding and increased accuracy. Full description in new Marlin Catalog No. A542, just out. Send three stamps for postage to THE MARLIN FIREARMS CO., NEW HAVEN, CONN.

COLDREN THEATRE

WILL S. COLLIER Lessee and Manager.
C. C. ROWLEY Resident Manager.

Thursday evening the attraction at the Coldren will be the famous Gorton Minstrels. Every assurance is given that the production is fine in every respect. The press in the cities in which it has played this season are exceedingly kind in their praise. The seat sale opens this evening.

Baseball and football are the lively themes which give zest to "The Umpire," the long run comedy wonder, which will be the Coldren on Friday evening. Besides possessing a rational and interesting story of certain dramatic episodes concerning a corporation "Grafter," a United States diplomatic agent, a baseball umpire and other interesting persons, it contains amusing reflections on the national games. "The Umpire" claims the virtue of modern ideas cleverly worked out and set in a delightful background of music, dancing and comedy. In the company which Manager Askin will present here are Fred Mace, whom the Chicago artists say is funnier than Eddie Foy, Edith Yerrington, Guellina Baker, Harry Hanlon, Bradley Martin, Katherine Bunn, George Damerel, Helene Salinger, Bert Young, Jessie Houston and Frank Allworth and 50 others. Seat sale Wednesday eve.

WHY IS IT

That when any fancy Dinner or Luncheon in town is given, the groceries are almost always furnished by us? ONE TRIAL ORDER WILL TELL YOU.

Sueppel's Grocery

Established 1879.
22 So. Dubuque St. Both Phones

at the Armory Rink
Every afternoon and even'g, except Monday evening.
Music both Afternoon and Evening.

Electric Light, For Study at Night, Will save the Eyes and Keep You Bright

IOWA CITY ELECTRIC LIGHT CO.

Northwestern University Medical School.

(Chicago Medical College)
DR. N. S. DAVIS, Dean,

This medical school is centrally located, convenient to large hospitals, affording abundance of clinical material. The laboratories and lecture rooms are commodious, well-lighted and generously supplied with all modern appliances to aid in carrying on in the most effective manner, the study of medicine.
The full course consists of four years, eight months each, beginning October 1st.
The classes are divided into small sections, thus affording to students better opportunities, or the advantages of individual instruction. This feature, as well as a graded curriculum, characterize the work in all the departments.
The ability of the men who graduate from this school, as well as the character and thoroughness of the work given here, is evidenced by the success of our graduates in the examinations given by the different State Boards. Out of the 135 graduates of the class of 1905 who were examined by the various State Boards in the United States during the last year, only one failed.
For further particulars address the Secretary,
CHARLES LOUIS MIX,
2431 Dearborn St. Chicago, Ill.
