PRACTICE MARCH FOR BATTLE.

In order to add a little interest to the coming drill, Lieut. Weeks has offered the proposition of a practical march, to last three days and to take place some time in May.

In the militia, and the regular army the camp has been abandoned and the practice marches substituted. It is thought that it will be more interesting and instructive to have a march than to go to camp. In all probability the faculty will petition to cancel the extra from exercises Frisbie and Baxter, and have these two days with Sunday for the march.

If planned now the march will be in the vicinity of Iowa City, so that they may be included and still not be too far away from home.

It is desired that the cadets think over the matter, and if a sufficient number are in favor of it, then the plans can be made in plenty of time.

CHEMISTRY SEMINAR. 

One of the most valuable branches of the work of the Chemistry Department is the seminar held every Tuesday afternoon. The meetings are assisted by the professor, instructors, scholars and followers of the department.

The principal paper of the meeting this week was read by Mr. E. Taliesin. On "The Influence of Metallosides on the Constitution of the Eocene".

The program was closed with a discussion by Professor Ruckwood, who presented a view of the meaning of the term "the nascent state."

TODAY'S BULLETIN

2:30 p.m. - Meeting of Iowa Woman's Club, at the home of Mrs. Buckner, 24 E. Burlington Ave.

4:00 p.m. - Sophomore Class meeting in Assembly room.

7:45 p.m. - Regular Band practice at Armory.

PHILOS CHOOSE AFFIRMATIVE

WILL ARGUE WITH SOUTH DAKOTA.

Iowa Has at Least Four Big Debates on Hand - A Possible Fiftieth in sight.

The Philomathian Society has announced South Dakota. A question was submitted a short time ago and the Iowa debaters have chosen to support the affirmative of the propositional sentence, "Resolved, that the general welfare of the American people, demand the open shop principle in our commerce."

In the preliminary School, Field, and Betterworth will have the affirmative, and Power and Burkett the negative.

The Iowa has a serious situation in face of deciding this year. We have undertaken to win four big western states; Minnesota and Wisconsin are assigned against us by the five eastern states, and the University Debating League has already signed an agreement with the City College in the event Kansas is taken, on which we win.

We are very anxious to accomplish the impossible.

The Philomathian preliminary will be held in this coming Friday night, but providing the holidays. There is some doubt as to whether the preliminaries will be held this year. Counsel appointed by both the societies comprising the Debating League are considering the local situation, with a view to determining feasible plans for registering the debating interests here. Attempts have been made in this direction before, but for one cause or another. It is hoped that the present movement will result in some satisfactory settlement of the debating problem, which has grown more serious every year.

EXTEND ANATOMICAL WORK.

Dr. J. H. Prest乖, of S. U. College of Medicine, Will Send Human Bones to State High Schools.

Iowa City, Iowa, Nov. 13 - Dr. J. H. Prest乖, professor of anatomy in the University, is not satisfied with having his work limited to university students, but has consulted and purchased in operations of plain or extending the work of his department into the high schools of the state in a way that will be of the greatest advantage to the public.

The plan, which is just being started, is to make up complete sets of all bones in the human body to send them to the high schools so that collections for use in the lecture room may be obtained. The bones are not articulated into skeletons, but are sent out in attractive glass cases containing arrangements for the different bones. The preparation of the set is done in the Anatomical Laboratory of the University.

This will be in thevork in the high school laboratories where they will be placed, next year marked the beginning of these collections from those laboratories.

Owing to the large amount of work involved in this enterprise, it is anticipated that the beginning of the project will be December, 50.

Coach Williams, of Minnesota, after seeing St. Louis play last week said "St. Louis are plenty fast and tough in St. Louis."

The Daily Maroon, of Chicago, after Minnesota's game, come out with the following dictator headlines. "MINNEAPOLIS DEFEATS CHAMPIONS OF THE WEST IN CLEAN GAME IN DRIZZLING RAIN. Heavy Northerners, aided by weather, carry Chi-

A MISSIONARY OF SOCIOLOGY

DR. EDWARDS OF YALE IS HERE.

In making a tour of the West, to promote the work of the Carnegie Institute.

Alma M. Edwards, formerly of Yale, is now the Director of the Department of Sociology and the Social Science Institute, in the University. He is making a western tour in the interests of the Carnegie Institution, visiting the work of these organizations and attracting the cooperation of professors and the active interest of students.

In 1902 Andrew Carnegie transferred a board of trustees to the Carnegie Institution in five per cent. U. S. steel bonds for the purpose of founding the Carnegie Institution at Washington, D.C. Its object is to encourage and promote investigations in science, literature, and art. It is a supplementary agency for the purpose of strengthening scientific institutions and scientific workers. In the hands of men of definite social posture organized for unselfish end of education, and to present sufficient duplication of work. It has a decided interest in the advancement of science and learning, and has placed a director in charge of each.

The trip is to be made in connection with the Economic and Sociological departments. The chief activity in this work is to collect and examine large body of material in the direction of legislation, after collecting such material through practical work.

Advertisements.

Advertisements by the Allgemeine, are running at a large amount of advertising in the paper. A large amount of advertising is to be secured which will be eligible in the interest of the University.

The larger towns and cities of the state will send delegations back to their home institutions and scientific associations in the University.

Reduced rates will be given on all railroads, on this date, to all professed members of the University and Iowa City.

Notice.

All reserved seats taken from the library at night must be returned before eight o'clock the next morning. The library open at ten minutes before eight and in order to return these books before going to first hour classes. Any student not observing this regulation will be de-

The librarian.

Jasen Willis, bloom, of Topcon, Kansas, one of the charter members of Phi Beta Kappa in that state, will deliver, Monday, Miss Edith Strang, in this city Tuesday.

J. F. Conner, a former instructor in the Economics Department, visits to Professor Plim, that is now the President of the New York Journal of Commerce at Wash-

A GREAT CHALLENGE!

Notice.

A policy that can be interpreted to make it sound to operate in the development of the University Choral Society. The recommendation of any choir director in the fifty will be sufficient for his incorporation into this organization. It is earnestly hoped that all intending to join the Choral Society will do so at the earliest possible date, unless they can prove themselves to be exceptionally efficient sight readers. Until further notice rejections will be held in the L. A. Assembly Hall on Thursday evenings, 1-5 o'clock.

Mr. R. J. O'Brien, L. V., was elected county attorney of Buchanan county on the democratic ticket. The county is not strongly Republican. Mr. O'Brien is to be congratulated on his political success.

Prizes for Economic Essays.

Our readers may be interested to know that Hart, Schaffner & Marc, of Chicago, have offered through a committee, some very large prizes for the best essay on economic subjects. For the first time a first prize of $1,000, and a second prize of $500 is offered to graduates students, and to undergraduates, a first prize of $200, and a second prize of $100. These papers were to be sent in by June 1, 1907, to Pro- fessor J. Laurence Laughlin, University of Chicago. The subject is to be 100,000,000.

1. The practical wisdom of free- ing raw materials essential to un- expected manufactures, from custom- aries, when uniting the United States.

2. The best methods of obtaining an elastic currency in times of pan- ics.

3. To what extent, and in what form, are socialist tenets held in the United States?

4. In what respect and to what extent have combinations among American railroads limited or modified the influence of competitors?

5. The best methods of avoiding resort to force by labor unions in their conflicts with their employers.

6. The effect of "trusts" upon the prices of goods produced by them. Without deciding for or against the claims of the trust stockholders for the power of skill under a regime of monopoly, what is the history of its practice in the United States?

8. A critical study of modern commercial methods for distributing the products to consumers.

9. The development of a coherent theory since John Stuart Mill.

10. For the benefit of the nation, as well as for the distinction to be won.

11. Many students ought to enter into this contest. For two years past, the same prizes have been an- nounced. The competition in charge is composed of Professor J. Laurence Laughlin, University of Chicago, chairman; Professor J. R. Clark, Co- founder, University of Michigan; Professor H. J. Bannister, University of Minnesota; Hon. Clarence White, New York City; Hon. Corwin Griggs, President of Clark College.

The Hiawatha song books which will be used by the University Mixed Choir, have come. The choir will soon be practicing the songs at their next rehearsal.
