The Varsity will be instructed by the coaches, to play all the football they know, in Saturday's game. It is their last chance before Ames. Will the Alumni be able to hold them? Come and see.

TOMORROW IS ALUMNI DAY

OLD TIME PLAYERS ARE COMING BACK

The lively crowd Saturday will show many old stars—game will be at 3:30.

The football game tomorrow will be a great game. Iowa will send her best team, making the veterans believe in restoring to play all that they are worth. This meet shall, there will be a first game from start to finish. The Veterans who make the Iowa are "fun homes" but they feel that the old game is the best, and use confidence that they will show the present generation how it is to be done.

In the weather is fair a good sized crowd should be in attendance. The matters will have 2 chance to practice some new calls and should get the old boys with a "Whoa, Whoa, Walk," that will bring back to them the spirit of the past.

The manager has been compelled to make many changes in the line of injury of the Alumni on account of their business interests, but it is promised that the Varsity will be lined up somewhat as follows:

Chuck Churchill will likely use all his men in this game, giving each a chance to get in one more game before the championship game.

Mr. A. C. Johnson, of Iowa, who will play center for the Alumni, is an old star of the U. I. and is one of the most estimable alumni. He has made the Iowa Grid on a pedestal high and would be in the line of all the other teams.

No one or Iowa will greet the Alumni players with a better heart than "Jimmie." For years he has watched the boys come and go, over making friends, and never as in every Saturday "Jimmie" said, "I laid in and down with the boys, but they used for some outside they did. They are all fine fellows." As the football man ever says, Iowa is first with [self occasionally] getting [uniter from his club. "Jimmie" Guarries this, too for the own safety, but for the freedom of the boys.

HARD PLAYER WHEN SET APPS OPPOSITE A BOLD FOOTBALL FAN

Jimmie Brockway will be the other guard. He comes from the championship school of 1903, and when in the game in that year weighed 136 pounds and stood six feet one and one-tenth. In defense he was at his best and held his side of the line solidly. Brockway and Mason will probably be set in at tackle. They will give our new a resume of what Ames is capable to produce.

W. C. Edmon of Storm Lake, will play one end. As a player he was always more and fast. Since leaving the University he has coached the Storm Lake College team with great success. The other end will be filled by M. L. Ely. This will be another

FRESHMAN SOCIAL TO-NIGHT

WILL BE INFORMAL IN CHARACT.

Its object to Enable L. A. Freshmen to Become Acquainted — Held in Armory.

The first class party of the year takes place this evening in the Armory. The Freshmen social will be a pot to the Coalition, the Prom of the Hop, so far as official recognition is concerned. It differs from the other parties only in being informal, and in the limitation of attendance by which only Freshmen and their special guests may be present. The decorations will be modest, as suited to the informal tone of the occasion. The refreshments will be equally simple. The function is in no sense a banquet.

A dispute to yesterday's Register and Leader from Iowa City, states that the University Senate has threatened drastic action if Sophomore try to interfere. This is quite erroneous. The only official statement made to appear in the Iowa City is on the signature of Professors Currier, Lens and MacGowan. The attitude of the committee cannot be construed as a threatening attitude. No one knows forward to any particular disclosures. The Sophomore are not wearing war paint. While they refused to sign the agreement covering matter in the week, it was because they believed they could be reasonable and orderly without having to sign a contract to that effect.

CROSS-COUNTRY.

The Men are Getting Into Trim for Thanksgiving Run.

The cross-country races are gradually becoming speedier as the time of the final run approaches. The competitors now only work two ways: Capt. Berkheiser has half a dozen men, who, he says, are showing up well. But a hard-fought race will be taken place on Thanksgiving, the day set for the competitive run. As there will be only one competition run this year, the courses will be at least five miles long; less than this is hardly desirable. The finish will be in front of the grand stand in Iowa field.

Only those who have been regular attenders at the practice runs will be permitted to compete in the final run. The object is to let only those who have done faithful work win the sweaters which are to be awarded.

The last Wednesday night was short, hot, and won a small but so a handicapped race will be held on the number who find there will be a small handicap at the
year before.

The cross-country weather of the last week has been ideal cross-country weather. There is not the slightest reason for statement of the students present. Not one of the twenty-five men will have the weather is not ideal. As an exercise, cross-country running is superior to any form of outdoor work, because it keeps the lungs full of oxygen.

Battalion Assignments.

Vesicles have occurred in the list of sick officers, necessitating several appointments necessary. Penn are unnecessary last evening at 7 p.m., according to the University. A private concern to be in charge. Private Penn to be in charge of the Private Jones to be in charge of the banquet. The cap ornaments and shoulder straps for the commissioned officers were made this week, and last evening the officers of the battalion appeared in uniform for the first time. Penn now on each man must appear in uniform unless he has a special excuse.

The principal feature in the 10-day number of The Journal will be that portion devoted to College journalism, the leading articles of which will be an historical and critical treatment of the subject by Mr. Warren W. Smolensky.

B. W. DEAN.

This medical school is centrally located, convenient to large hospitals, affording abundant of clinical material. The laboratory and lecture rooms are commodious, with elaborate apparatus, and modern appliances to aid in carrying on in the most effective manner, the study of medicine.

The full course consists of four years, eight months each, beginning Oct. 2nd.

The classes are divided into small sections, that affording opportunity for individual attention, and the advantages of individual instruction. This feature, as well as a graded curriculum, characterizes the work in all the departments.

The ability of the men who graduate from this school, as well as the character and thoroughness of the work given here, is evidenced by the success of our graduates in the examinations given by the different states. Out of the 127 graduates of the class of 1905 who were examined by the various State Boards in the United States during the last year, only 2 were found wanting.
