TEAM LEAVES FOR ST. LOUIS

LAST PRACTICE ON IOWA FIELD TONIGHT

In good condition after Ames game—Ames will be up to play.

Tonight will be the last time Coach Herrold will line up the Hawkeyes of Iowa State this year, as they will have no final workouts of importance the next few days before they begin the northward journey of the year's work on the gridiron.

Last night the men were on the field, where the coach let them play exercise to loosen up their joints, and give them a chance to get the feel of their backs. The rules of their limited.

Everything was a preparation, yet being able to tone up on the same even as against tonight's. With the exception of a few others the team will have the feeling of a team that is one. The best of all, they were in peak physical, which means much for secret service on future day. Coming out of a growing center, Iowa State is still the most highly rated team in the country. The name was well restored, though lost, in the battle for the state title.

Orders of produce department wears with a hand band on, the work of the market. The department is a health center, collecting all of these products, and our better, and good for the city of Dubuque three times more than the Iowa State. The team did their best, yet it still did not help. Who knows what the score will be now? Iowa State forever more. This team is the top team in the country and is the best of them.

Tonight the team will leave for St. Louis to meet the Missouri, there. We were all set for a big day's work in every way in this game. All the players are set to do their best, and they did well. Not only did the team win, but they were the pride of the city and gave the man who presented it.

The team was the University's best. Eight more than they ever were. They won the day's work and it is known to us as the best of the year. The team was the University's best. Eight more than the Iowa State. The team did their best, yet it still did not help. Who knows what the score will be now? Iowa State forever more. This team is the top team in the country and is the best of them.

PROFESSOR BRYDEN TO LEAVE.

Will Take the Chair of Chemistry and Molding at the School of Mines.

Professor Charles L. Bryden, who for the past three years has been at the head of the Department of Mining and Metallurgy at the University, has been appointed in order to accept the chair of Metallurgy and Geology of the School of Mines in Denver, Colo. His resignation was accepted just evening by President McLean. Professor Bryden will probably leave before the next ten days.

The degree of Doctor of Mines was conferred on Dr. Bryant in 1902, at LaSalle, Ill. He is a native of New York, and holds the degree of B. B. S. in Chemistry and Metallurgy. Expelling to Iowa he was given in a very responsible position on the professional staff, and has filled a large place in the athletic activities of the school. His departure will be deeply regretted by friends in the faculty and the student body.

WILL GO TO WASHINGTON.

Professor Calvin Made a Member of An Important Public Board.

Professor Calvin is a member of the National Advisory Board on Soil and Structural Research. A meeting of this board is called for Dec. 8, in Washington, at which the University is present by the Norton committee on the committee on Field Work, in which the members to date include: Mr. V. C. White of West Virginia, and John H. Hammond, a noted man engineer of New York City.

FIRST M. E. CHURCH, NOW UNDER A CONSTRUCTION.

METHODISTS LAY CORNERSTONE FOR NEW CHURCH.

Rev. Dr. Clark conducted two day's exercises in laying stone.

The cornerstone of the new church at the beginning of which the organization of the new Methodist Church was last war. The weather was somewhat cloudy, but a large crowd witnessed the ceremony at the site of Jefferson and Washington streets.

For a few days the exercises have been conducted under the leadership of Dr. Clark. They will have an en extension in the services. In the ceremonies are Rev. B. B. Fellows, Rev. Samuel Groves, Mayor, Geo. W. Ball, Rev. Geo. E. Ball, and Rev. J. O. Vasey. Rev. J. W. Wylie and the pastor, Rev. J. O. McLean.

The church when completed will be one of the largest in Iowa and will have a seating capacity of 3000. The building is a part of the larger scheme for the present frame on the corner of Main and West.

Program of morning exercises is the following: in the program of morning exercises are: the first of the church at the beginning of the day's exercises, the weather was somewhat cloudy, but a large crowd witnessed the ceremony at the site of Jefferson and Washington streets. The church when completed will be one of the largest in Iowa and will have a seating capacity of 3000. The building is a part of the larger scheme for the present frame on the corner of Main and West.

Dr. England's Lectures.

Yesterday afternoon, at 4 o'clock,
the Ohio of the lectures in the series
on 'The World's Great Literati' was
carried in the Assembly Room of
the L. A. Building by Dr. C. W.
Buchanan. His subject, 'Old High
German Literature', included a sur-
yary of the beginnings of the Hun-
cerns of Germany, with the further
development of the same up to the
beginning of the 12th century. Into
the two numbers of the series already
printed, Dr. Buchanan's paper was both
scholarly and interesting in the exten-
so, and served further to whet the
interest so generally manifested
in this very unusual manner of literati.
CLOTHES don't make men but they go a long ways to make a good impression. If a young chap isn't pleasing looking, he is handicapped. Nowadays the College Man has the call. He is energetic, bright, a wholesome looking type. And the men who even look like a College man has a decided advantage.

COLLEGE BRAND CLOTHES distinguish men. They hold them out from the crowd. They are not like the ordinary sorts of ready-made clothes. The chap who wears them is always well dressed. The men's tailor is out of a great many men's reach, but merchant tailoring styles are not.

COLLEGE BRAND CLOTHES are just for young men and men who want to look young—made and priced young men's way.

Professor Washburn Lec­

ure.

Last evening in the Fine Arts Le­
ture room, the Art Club Related to Kenyon Hall, was addressed by Professor Washburn, on the subject, "The Beginning and Development of "Hakka" Painting." The professor's pictures are given to the club once a month, and in the accompanying notices the members consider papers on the works of the masters.

Get your driving lessons from C. A. Murphy, Both Phones.

Reit Pillingham of the Domin, spent Sunday at his PI Delt house with her aunt, Miss Ruth Marsh.

We compete with the cheapest club—The Merchant.

Miss Caroline Pierson, Vt. of Water­

field, will be in the 'Tvr Delt' house for Thanksgiving.

Students, when you are in need of a new fancy, call up C. A. Murphy.

WINCHESTER
FACTORY LOADED SMOKELESS POWDER SHOTGUN SHELLS

Good shells in your gun mean a good bag in the field or a good score at the trap. Winchester "Leader" and "Repeater" Smokeless Powder Shells are good shells. Always sure-fire, always giving an even spread of shot and good penetration, their great superiority is testified to by sportsmen who use Winchester Factory Loaded Shells in preference to any other make.

ALL DEALERS KEEP THEM

Northwestern University Medical School.

D. L. S. DAVIS, D.D.S.

This medical school, centrally located convenient to large hospitals, affording abundance of clinical material, the laboratories and instruction rooms are commodious, well equipped and provided with all modern appliances to aid in carrying on the study of the healing art. The full course consists of four years, eight months each, beginning October of each year.

The classes are divided into small sections, thus affording the student that individual teaching which is so desirable in the study of medicine. This feature, as well as a graded curriculum, characterizes the work in all the departments.

The ability of the men who graduate from this school, as well as the character and usefulness of the work given here, is evidenced by the record of the graduates in the State Boards. One of the 113 graduates of the class of 1896 who were examined on the State Boards in the United States during the last year, only one failed.

For further particulars address the Secretary.
