Marlin 16-Gauge Shotgun
This is the smallest and lightest weight (about
9 lbs. 2 oz.) repeating gun ever manufactured,
and opens up many new possibilities to the
up-to-date sportsman. It is not a 16 barrel on
a 12 action, but a 16 barrel, being the
properly proportioned gun that, with modern smokeless powders, enables a
shooter in the big game field to shoot a small shell in a 1/2-mo. charge,
materially, the weight of shells and guns to be carried. The small, light
gun handles fast, results in close holding and
increased accuracy. Full description in our Marlin Catalogue No. 464. Not yet
sent three stamps for ticket to THE MARLIN FIREARMS CO., NEW YORK CITY.
