BOARD OF REGENTS SUBMIT REPORT TO GOVERNOR

Call Attention to Great Increase, and Forecast the Future

Ask appropriations for Physics Building, Law Building, President's House, and other New Structures. -- Increase in the Support Fund

The board of regents made their report for the year 1905-1906, and submitted it today to Governor Cummins and the 32nd General Assembly through the governor's office in Des Moines.

The document is extensive, exhaustive and comprehensive, inasmuch as it embraces, besides the regents' report, the detailed reports from President George E. MacLean; Secretary W. J. McChesney; Treasurer Lovell Swisher and Registrar H. L. Dorcas.

The regents, in their report proper, give an account of the progress of the university during the past year, together with a statement of the plans of the Board of the University for the next few years and a request for the appropriations necessary to carry out those plans.

Prosperity of University.

The year 1905-1906 was one of unexampled prosperity for the University in all its branches. The Regents say, in opening their report:

"The Board is glad to report such progress in almost every field of University work as has been equalled by few similar institutions. The wise liberality of the legislature in its recent provision for the University has borne fruit in such increase in the attendance, in the scope of its work, and in the thoroughness of its instruction, as to more than justify both those who asked and those who gave the support which made such growth possible."

Attendance Booms

In regard to attendance the report says:

"During the period between June 30, 1905, and June 30, 1906, the University's increase in attendance was 18 per cent, the highest percentage shown by any school of similar rank and character in the United States, as shown by authoritative compilations of college statistics, and, after showing that the attendance for 1906-1907 will approximate 2100, an increase of 15 per cent over 1905-1906, the Regents add:

Regents See Glory

"There is every reason to expect that, with the same conditions continuing which now call to our halls such rapidly increasing numbers, we shall have in the last year of the biennium for which the present legislature must provide, between 2300 and 2400 students, 30 per cent more than are now upon our rolls."

After showing in more or less detail the uses to which the appropriation, the Regents devote the greater part of the report to a statement of the needs of the University, which the legislature is asked to meet.

Appropriations Asked.

The following appropriations are asked:

Annual appm	Ann'ly Biennius
Ad annual suppor	\$6000 \$120006
Ad annual repair and	
contingent fund	2500 5000

Permanent annual ap- propriation for library	10000	20000
Total	\$72500	\$145000
Special Appropriations		
For Land	\$ 60,000	
For land for women's hall	15,000	
For equipment of new science building, new wing of University hospital and steam laboratories	45,000	
Equipment and supplies	30,000	
Women's building and equipment of same	125,000	
Paving and sidewalks	5,000	
Improvement of grounds	8,000	
Mechanical stokers and coal and ash conveying mchry	10,000	
	\$298,000	
Total asking for Biennius	\$443,000	

The Board have also directed the architects to prepare plans for the following buildings, to be presented to the General Assembly, these buildings to be erected from the building tax, at a cost of approximately the amounts set out respectively.

Plant house for department of botany	\$4,000.
—\$60,000	
Law building	\$100,000
Physics building	\$150,000
Presidents house	\$15,000

Increase in Support Fund.

An increase in the support fund is rendered necessary for several reasons. The increase in attendance, which is largely in the Colleges of Liberal Arts and Applied Science, where the students pay the least tuition, requires additional expenditures for instruction. The regents say:

"The instructional force which our present income permits us to provide is not properly adequate for the students who are now in attendance, and with every prospect pointing to an addition of two or three hundred students next year, we are compelled to ask for additional funds to provide instruction which it is their right to expect."

The new buildings and equipment as well as the increase in numbers, cause inevitably, a considerable increase in the expenditures for fuel, light, care of buildings and the like. These same causes require increased expenditures for administration. The necessity of adding certain subjects and increasing the amount of instruction in others, in the Colleges of Medicine and Dentistry, in order to maintain the standard of these colleges, is pointed out as another cause of necessarily increased expense, as is also the higher standard of salaries now prevalent in educational institutions, which render advances in salaries at the University imperative.

Permanent Library Fund.

The renewed request for a permanent annual appropriation of \$10000 for books, periodicals, etc., for the library, is enforced by calling attention to the fact that the University library differs from the ordinary pub-

lic library in being an instrument of use rather of entertainment. The University library must have expensive scientific books and publications it must 'keep our students and our teachers in touch with and abreast of current developments of the day in various fields.'

The \$5,000 granted by the 31st General Assembly has proved entirely inadequate for its purpose and the \$100600 is absolutely necessary. The making of the appropriation as a permanent annual one is asked so that the library can be built up systematically and consecutively, being able to plan definitely through a number of years. No part of this appropriation is to be used for salaries of librarians or for the incidental expenses of the library, these being paid from the general income fund of the University.

Land.

Referring to the request for \$606 006 for land, the Regents say:

"The carrying out of the plans of the Board and their experts necessitates the purchase, first, of various tracts necessary to consolidate and unite our present holdings, and, second, tracts needed for present use in line with the development in view by both the Board and its expert advisers."

The University campus extends from its river front—some four blocks in length—back into the city to the east end of the hospital campus, a distance of perhaps half a mile; but its various parts are separated in several places by other properties. The desire of the regents is to unify the campus by acquiring these intervening properties as rapidly as possible and to extend the campus according to a well defined plan, formed after careful consideration and consultation with the leading landscape architects of the country.

A necessity of the present year in this respect is the purchase of land upon which to erect the proposed law building.

As a special request the regents ask \$15,000 for land for the location of the proposed women's hall.

One of the most notable requests is that for a special appropriation of \$125,000 for a women's building and its equipment. This is asked as a special appropriation because of the great need and demand for it at once, and because the proceeds of the building tax for some time to come will be used for other necessary buildings. A women's dormitory has been a crying need at the university for some years particularly since the growing attendance has brought so many young women to the university that the demand has been insistent from all parts of the state. The regents propose to erect an attractive, convenient and comfort-

able women's hall, fireproof and modern in every way, sufficient if possible to accommodate such young women as desire to live there. In addition to giving suitable accommodations to the young women, this will give the university an opportunity for the proper care and supervision of its young women students such as it has not had up to this time, and such as will meet the desires of the parents whose daughters attend the university. The regents set out completely the need of the other special appropriations asked, the purposes of which appear in the summary above.

Building Tax.

In accordance with the requirements of the building tax law of the last legislature, the regents will submit for the approval of the legislature plans for the buildings listed above, to be erected from the building tax during the next two years.

Engineering Building.

The college of applied science has grown so rapidly that the new engineering building, completed a year ago, is already overcrowded and some of the students had to be provided for in other buildings. This makes the building of the next wing of the proposed engineering quadrangle immediately imperative. This new wing is estimated to cost \$60,000.

Law Building.

The need of a law building is so great that it must be met during this biennium. The college of law and the offices of administration are crowded together in the Old Capitol and neither have sufficient room. The regents plan when the college of law is provided with a building, to renovate the Old Capitol, making its interior fireproof, and to fit it up chiefly, if not solely for the offices of administration, which are at present greatly cramped. \$100,000 is the estimated cost of the law building.

The erection of a new and modern physics building, at an approximate cost of 50,000, is another plan for the regents which they will submit to the legislature for approval.

Of Bedford Stone.

planned to build all of these buildings in the uniform fireproof construction of Bedford stone, which has been adopted as the permanent plan of construction by the regents and has been followed in the hall of liberal arts, the new medical buildings, the engineering building and the hall of natural science. This construction is giving the University of Iowa buildings that are unsurpassed by any university in the country in architectural beauty and durability.

The regents will also submit plans for a president's house, and plans for a plant house in connection with the department of botany. These will cost \$15,000 and \$4,000, respectively.

FACULTY DOCTORS READ PAPERS

MEDICAL SOCIETY MET TO-DAY
In Cedar Rapids.

Attendance Drawn from Large Area
—May Come to Iowa City
Next Year.

The meeting of the Iowa Union Medical Society was held in Cedar Rapids yesterday. Several members of the medical faculty and a number of the city physicians went from here, and some of them read papers. Dr. Guthrie, Dr. Jepson, Dr. Prentiss, Dr. Dean and Dr. Van Epps were on the program. Dr. Egdahl was to have taken part, but was detained on account of being on the program of the Medical Faculty Society last evening.

The meetings of the Union draw a large attendance and are representative of the best physicians of the state. Dr. Litting, of Iowa City, is president. There has been some talk of arranging to have the next meeting here. So far, the meetings have always been held in Cedar Rapids. Up to the hour of going to press, it was not known how the matter had been decided.

To Succeed Dr. Shrader.

Dr. Albert has been elected a vice-president-at-large of the American International Congress on Tuberculosis. He will fill the place made vacant by the death of Dr. Shrader. The Congress consists of scientists from all parts of the continent. Dr. Albert has been placed on the standing committees on Pathology and Bacteriology.

Christmas Party for the Grad Club.

The Executive Committee of the Graduate Club held a meeting recently at which plans were made for a Christmas party to be held at the home of Dr. Heard on North Clinton street. It is planned by the club to hold this party next Monday evening. Several new members will be initiated at the same time. A regular meeting of the Graduate club will be held on Thursday night at seven o'clock in the Classical Library in Hall of Liberal Arts.

South Dakota Club Will Entertain.

All South Dakota students are asked to be present at the Philo hall on Saturday evening, Dec. 15, at 8 p. m. A reunion will be held and a reception given by the South Dakota club. After a general entertainment, refreshments will be served at the Olympian Restaurant.

A Curtain Raiser for the Game.

Some specialties on the flying rings will introduce the basket ball game Thursday evening. The class in this work has been practicing only since the beginning of the semester, but has made very creditable progress. This preliminary promises to be quite entertaining. Some of the performers are Hath, Roberts, Bateson and Healy.

Dr. E. W. Rockwood is now lecturing in Dental Metallurgy. This change in the program, which means a considerable addition to Dr. Rockwood's work, is necessary on account of the recent resignation of Professor Bryden, the former head of the department of Metallurgy and Mineralogy. It is hoped that a new teacher will soon take charge of the work.

THE PROPOSED CONSTITUTION.

Before the end of the semester, it is probable that every student will have an opportunity to express his views by ballot, on the proposed organization of the Forensic League. It is desired that the new plan become thoroughly understood, so that students may form an intelligent opinion of it. Accordingly, the text of the new constitution is given in full below:

Art. I.—Name and Purpose.

Sec. 1. The name of this organization shall be the Forensic League of the State University of Iowa.

Sec. 2. The purpose of this League shall be to promote inter-collegiate debate and oratory.

Art. II.—Membership.

Sec. 1. Members of all forensic societies in the University shall be ex-officio members of the League.

Sec. 2. These societies at present, 1906-1907, are specifically as follows: The Zetagathian Literary Society, the Irving Institute, the Philomathian Literary Society of the College of Liberal Arts, and the Marshall Law Society of the College of Law.

Sec. 3. These societies shall become formal members of this League by each one adopting this constitution and signing the same by its president and secretary.

Sec. 4. Any forensic society which may hereafter be formed in the University shall become a formal member of this League by such action as provided for in Sec. 4 of this Article.

Sec. 5. Any other student organization which shall make forensic work a prominent part of its program shall be admitted as members of this League upon application to the Forensic Council and their approval of the same, and upon taking such action as is provided for in Sec. 3 of this Article.

Sec. 6. Any student of the University, not a member of a forensic society or other organization regularly enrolled as a part of the League, may become a member of this League by the payment of an annual fee of Five Dollars.

Article III.—Forensic Council.

Sec. 1. The affairs of this League shall be in charge of an organization to be known as the Forensic Council.

Sec. 2. The majority of the mem-

bers of this Council shall be members of the faculties of the University.

Sec. 3. Each student organization of the University which is a part of this League shall elect one student member of the Council.

Sec. 4. With the present membership, 1906-1907, the Council will consist of five faculty members and four student members.

Sec. 5. Each member of the Council shall be entitled to but one vote.

Sec. 6. The League in its annual meeting shall nominate ten members of the faculties for positions on this council, of whom the President of the University shall nominate four.

Sec. 7. The Chair of Public Speaking shall ex-officio be a member of this Council.

Sec. 8. The Forensic Council shall have charge of the inter-collegiate and debating interests of the University and the faculty members of the same shall constitute the Senate Board on Inter-Collegiate Debate and Oratory.

Sec. 9. A quorum shall consist of five members, provided that three shall be faculty members.

Sec. 10. Regular meetings shall occur once a month on a day set by the by-laws of the League, and the hour and place of such meeting to be set by the chairman of the Council.

Sec. 11. Special meetings may be held at the call of the chairman on due notice to each member of the Council.

Article IV.—Officers.

Sec. 1. The officers of this League arranged in the order of their rank shall be as follows: President, Vice-President, Secretary and Treasurer.

Sec. 2. These offices shall be filled by the student members of the Council in the order of the seniority of the society which he represents. For the first year, the Zetagathian L. S. shall have the presidency, Irving Institute the vice-presidency, the Marshall Law Society the office of secretary, the Philomathian L. S. the office of treasurer.

Sec. 3. The term of office shall be for one year.

Sec. 4. The offices shall be held in rotation, the representative of each society filling the office next in rank each successive year.

Article V.—Manager.

Sec. 1. The Board Regents shall appoint a manager. The appointee shall, in connection with the Chair of Public Speaking, act as a trainer for the inter-collegiate, as the financial agent for the council, and as supervisor of the work to secure adequate support for the League shall act as his assistant in this last capacity.

Article VI.—Admission to Contests.
Sec. 1. Season tickets admitting the bearer to all inter-collegiate and preliminary inter-collegiate contests, shall be provided to cost not to exceed one dollar.

Sec. 2. The admission fee to single contests shall not exceed twenty-five cents to preliminaries and fifty cents to final contests.

Sec. 3. Each society or other organization connected with this League shall be responsible to the Treasurer for as many season tickets as there are active members of said organization.

Article VII.—Expenses and Prizes.

Sec. 1. The winners in the preliminary contests shall receive the following: In the debate preliminary, to the one ranked first, twenty-five dollars; to the one ranked second, fifteen dollars; to the one ranked third, ten dollars. In the final debates, to each speaker a gold medal or watch fob. In the oratorical preliminaries, to the one ranked first, twenty-five dollars; to the one ranked second, fifteen dollars; to the one ranked third, ten dollars. In the final contests, the privilege of attending the final contest as alternate.

Sec. 2. In case a final contest is held away from home, the expenses of the three debaters and the trainer, and of the orator, alternate and the trainer, shall be paid.

Article VIII.—Annual Meeting.

Sec. 1. The annual meeting of the League shall be held on the first

Tuesday of December, at such hour and place as the Forensic Council shall set.

Sec. 2. Twenty-five members of the League shall constitute a quorum, provided there shall be at least three members of the Council present.

Sec. 3. The regular officers of the League shall preside at the annual meeting, and at all public meetings and contests or arrange for suitable presiding officers.

Article X.—Amendments.

Sec. 1. This constitution may be amended by a two-thirds vote of all the members present at any regular meeting of the Forensic Council such amendment to the action of the League at its annual meeting. Provided, however, a notice of said amendment shall have been given a week in advance to each society connected with the League.

Polygon will meet this evening at the Sigma Alpha Epsilon house. The new members will give the annual spread at this meeting.

Students, when you are in need of a fine livery, call up C. A. Murphy.

Great Overstock Sale No. 2

Men's Fine Suits and Overcoats

THURSDAY, Dec. 13

A most timely purchase of the entire stock of "Rochester" special clothing enables us to place on sale to the general public, the **Finest Selection**

of men's winter **Suits and Overcoats** that has been shown in this part of the country for years.

These garments are manufactured by the "Rosenthal Clothing" system, and the name alone stands for

Quality, Workmanship and Style

The entire stock will be sold at **\$11.99**

Suits made of the finest fabrics, imported worsteds, cassimeres and tweeds, in the new semi-flare cuts, some long and some medium, in single and double breasted, all colors and shades, will be marked at the selling price of **\$11.99**

Overcoats in all the latest cuts, some form fitting, others long and boxy, and qualities guaranteed by us. The colors are blue, black, Oxford gray, and a few of the wide wale gray Cheviots. The Overcoats are also marked at one selling price, **\$11.99**

The reason for placing all the Suits and Overcoats in one lot is to assure us quick disposal as we need all the room we have. **JUST THINK**, each and every Suit and overcoat is worth from \$15.00 to \$20.00 just when you need them most—at the exceedingly low price of

\$11.99

\$11.99
