A SHARP GAME EXPECTED

NORMAL CLAIMS A CHAMPIONSHIP TEAMSHIP.

Heath out an Account of Injury—Barton Has a Great Jump.

With a half, clever team on the floor the University begins the last important contest tonight against the Normal team. There is little doubt that Gill Gold will begin with a victory, yet it will hardly be a surprise to find the University going to victory, as the school has been in the three primary games, painting the track in Brown, Iowa this winter, in the special season of Joe's on eleven or under for the purposes of the Pennsylvania College.

The dual developed in the article is that to be economical of manpower makes for efficiency, to be productive makes for more power. To be efficient is the highest ethics. To be inefficient because of prodigality is to be immoral.

Several of the common sources of waste of mental energy, and possibly of physical energy also, are treated in the text. So is the physical and the mental health of the man of science. The attitude of the man of science towards his personal health is studied. The demonstration of the importance of power to carry on independent thought, engaging to too many students the activity shown in the text is quite low. Several of the man-made mental confusion are discussed and detailed. The importance of the physical and mental health of the man of science is shown.

The topic is under the heading of the question, does not of course mean the text, but is an attempt to show what they mean.

Junior Annual Pictures.

As there is not much attention being paid to the Junior Annual Pictures, the editor in chief wished to state that the board that the junior pictures are to include all the Junior pictures. This is a very important event in the life of the junior pictures, and should be prepared to be held.

Iowa is unfortunate in the loss of Heath, who will be out of the game on account of injury.

Massasoit Club will stage pictures for the Normal Fraternity. The theme will be played under the A. U. A. rules. The game will be called at a roll. Between halves there will be an exhibition of the flying rings.

NOTICE.

Tickets at seven o'clock the Grand Club will meet in room 110 in the Hall of Liberal Arts. Every member is urged to be present, as important business is up for coming election.

Dr. Henry Albert went to Washingle, Iowa, this past week, to address a Professor's Institute "Tuberculosis in Animals." He took with him some very valuable illustrative material.

Mr. McVicker, Dean '90, is pleased with his new faculty.

HIGH SCHOOL DEBATE COMING

GRINNELL—IOWA CITY TOMORROW NIGHT.

All of the High Schools to Debate the Street Railway Problem.

Tomorrow night in the High School auditorium the giving out will be fixed in the big high school debating center which is being conducted over the state this year. The question to be debated is: "Is the City of the United States about to see the solution of the street railway problem through private ownership?"

Iowa City will uphold the affirmative, and will be represented by Measures Carl Eastman, Raymond, and Harold Thomas. The Grinnell team that will oppose the proposition are Professors Samuel Hayne, Lloyd Breed, and Samuel O'Brien. "The question which will hear the arguments are Professors Jesse Macey of Iowa City, Professors Jesse Macey of Iowa College, and Judge R. G. Davis, of Grundy, Iowa.

The contest is conducted under the debate league composed of all the accredited high schools of the state. Tomorrow night will see the same question debated over the entire state among these high schools. This will be the last contest for the finals, as the number is reduced to two, who will meet some time near Commencement to fight out the state championship.

The question to be debated is a simple one, and of particular interest to University people as our team will debate the same proposition last year in the city. Mr. Frank Randall, L. A. 90, has had the Iowa City team in charges, and although they are all experienced in debate, it is expected that they will do well. Miss Bosua Maines has returned in her home in Rutland.

LINGUISTS TO MEET IN CHICAGO.

Professors Wilson and Bush Will Read Papers During Holiday Season.

The Twelfth Annual Meeting of the Modern Language Association of America will be held in Chicago, Dec. 27, 28, and 29. Ten of the members of the language faculty here will attend. Professor Wilson and Professor Bush will appear on the program. The latter will give a paper and conduct a discussion. Professor Wilson will speak on Sacramento Falls, in which field he is an acknowledged authority.

Whitney Society Elects Officers. At the last meeting of the Whitney society the following officers were elected for the ensuing year: President—J. L. Bush; Secretary—G. H. Wellser; Executive Secretary—T. F. Thies. The officers chosen were seven by the professor himself and distributed.

What Content.

This evening promptly at 7:30 the first inter-fraternity what content will take place at the Beta Theta Psi House. At this first meeting of the Pan Helietic White League Beta Theta Psi Phil Kajoy Psi Delta Tus playing Sigma Chi. Sigma Alpha Kappa plays Psi Delta Theta and Kappa Sigma plays Sigma Nu. Psi Delta Theta has won two of the last three games, and as they have been held in the past three years ago.

Miss Bosua Maines has returned in her home in Rutland.

Valuable Medical Papers Read.

MEDICAL FACULTY SOCIETY HAVE PROFITABLE SESSSION.

Papers Read Shown Results of Much Investigation Bulletin May Be Published.

Dr. Guthrie and Dr. Reikof were the readers at the meeting of the Medical Faculty Society Tuesday evening. Both the papers were particularly strong and the medical professors speak of the meeting with some enthusiasm as a very profitable one. Dr. Guthrie's subject was "Post-operative paralysis of the bowels." Very little is said in medical books on this subject, and there is no treatise published in regard to it which is as thorough and comprehensive as the Dean's paper. The treatment was considered to be a field of which little is known.

Dr. Reikof discussed the sympthoms of inflammation of the pancreas. This disease is comparatively rare. The reader reviewed 200 cases of it, which number represents all the cases that he has been able to find in the past three years. The paper is of medical interest, and the case history of the patient is very well written. The lessons learned from the case history of the patient will be of interest to all medical students.

The presentation of these two excellent papers has revived the idea of publishing the proceedings of the Medical Faculty Society. The work of compiling the papers is now being undertaken by Dr. Guthrie for several years.

Professor Wilcox Will Lecture. Professor W. C. Wilcox will give one of his popular lectures, entitled "Social Dyspepsia," at Forest City, this evening. The lecture will be given at the installation of a local alumni organization in that city. He will be welcomed cordially by the local and the community in the large gymnasium of the college of Medicine, which project has been advocated by Dean Guthrie for several years.

Archeology is becoming a vast among the women of Minnesota. Plans are being laid for a University tournament.

Fifteen of Drake's students this year are foreigners. Fourteen of them are taking Latin and one taking medicine.

A new literary costing $500,000 has recently been completed at the University of Illinois.

Chicago and Minnesota will meet in football at Minneapolis next year. This is the only game so far scheduled for the big time next year.

The University of Nebraska has recently come into possession of the skeleton of what is pronounced the oldest man in America. The skeleton was discovered in a mound near Omaha, and is thought to be the skeleton of a man who existed before the pyramids were built. This find is attracting the attention of scientists far and wide.

Chicago athletes want the training time. They say that good fellowship, not physical condition, makes a tab the good thing.

The bulletin boards at Purdue University have been abolished. All official announcements will be published exclusively in the student daily.

Candidates for next year's baseball team at Wisconsin have begun work already. There was no baseball last year.

In response to a request from the School of Engineering at Pennsylvania State College, the Pennsylvania R. R. has sent to the school one of its first D locomotives to be used by the students for testing. The board of directors of the railroad have voted to donate this locomotive "when the old school has provided a locomotive testing plant." The college authorities have advised the company that the state legislature at its next session will vote sufficient funds to completely equip a locomotive testing plant. When that is done, the engine, which for the present is merely housed, will become the property of the college.

Northwestern University Medical School

CHICAGO MEDICAL COLLEGE
Dr. N. S. Davis, Dean.

This medical school is centrally located, convenient to large hospi-
tals, offering abundance of clinical material. The laboratories and
lecture rooms are commodious, well-lighted and generously supplied
with all modern appliances to aid in carrying on the most effective manner,
the study of medicine.

The full course consists of four years, eight months, beginning
October 1.

The classes are divided into small sections, thus affording
better opportunities, or the advantages of individual instruction.

Enrollment for the fall term in 1906 is now open. All
persons desiring to enter the medical school should make
immediate application.

For further particulars address the Secretary,

CHARLES LOUIS MIX.

2451 Dearborn St., Chicago, Ill.
