BEATEN IN BASKET BALL

32 TO 26 IS THE SCORE AT DES MOINES.

Brilliant Game Played—Three Times Iowa Tie Score—The Y. M. C. A. Have Star Team.

Des Moines, Y. M. C. A. won the game played in the capital city Saturday night. Iowa's opponents were a strong team, and were playing on their home court. In the first half, Iowa had best point after point in trying to solve the peculiarities of the home side. When it seemed that one team had gained ground, the other would catch up in the first half, it ended with 5, and Des Moines 7 points in the lead. In the second half, our team went in for a style of play adopted in the lead, and played des perately to overcome the lead. The score was tied three times. Both teams played brilliantly, Iowa working 21 points, and Des Moines 26. The East score added up 32 to 26. Des Moines' captain formerly played for the University and has played with Des Moines for three years. Kerver- werty has played with Des Moines for two years. Historical will probably be in the University next year. Y. M. C. A. is a child, and has never played in a losing game. Yeller is one of East High's star athletes, and has played with Des Moines for three years.

MATERIAL COMES SLOWLY.

Fitting Up of New Power House Delayed by Stoppage of Supplies—Will Not Run Before March.

Some time ago it was predicted that the new power house would be in operation and siphonage will be started by February first. The construction has been hampered by delay in obtaining material, and it is not expected that wheels will be running before March.

Two furnaces are in commission and third has arrived. There still remains a great deal of work before the plant can be put into operation.

The river has been very high for the past few days, reaching a higher mark than at any time before in the last two years. The water was at almost even over the dam. If the plant had been in operation it would have been developed faster than there was not sufficient fall. To provide for such emergencies as this, the old plant will be kept at all times in readiness to take up the load.

JANITORS CHANGE PLACES.

Yeller Has Been Reassigned—Mr. Bush Now in Charge of This Work.

Mr. Bush, the new assistant agent appointed for Mr. Witherow, has been put in charge of janitor work. Mr. David Wells' duties are now limited to the construction and repair department. John Roessler has quick position in the Dental Building on account of ill health, and Jacob Stenflin has been transferred from the Army to his place. John Y. Roessler will go into the Army. Robert Breiner, who has been assistant janitor at the Army, has left, the work, and Norah Smith takes his place. Janet Morrow of the Engineering building has given place to U. T. Allinburg.

DAVATING LEAGUE FAVORED PROGRESS.

MET LAST EVENING AND CONSIDERS FURTHER STEPS TO MAKE NEW LEAGUE REALITY.

The Debating League held an important session last night and considered the action taken by the mass meeting Saturday night. Resolu- tions were drawn up by the League and signed by the presidents and secretaries of the Set and Irving. These resolutions were to the effect, in general, that the old debating league heartily endorses the action taken upon the resolutions. The resolutions were to be submitted to the University college, which will meet to day. The Philosophical Society has signed the provisional constitution, and the Marshall Law Society in ex pected to hold a meeting for the same purpose within a short time.

If there is any one who has no yet had an opportunity to inform, advi- ce, or to discuss the many questions, it is now time, to do it at once.

TOWN MEETING.

Yeller Has Been Reassigned—Mr. Bush Now in Charge of This Work.

The amount of harmony developed from this situation is be yond all prediction. Having assorted ourselves repeatedly, that we are going to be always preserving our between them, and getting to business.

Miss Zelma Black of Clinton was a guest of Mrs. Hartch over Sunday.

The Irving will entertain the Eng- lishmen this evening at Majesty's Hall, that is quite a large party, as there are fifty or more members in the Irving tonight.

The Delta Gammas gave a supper last evening.

DAVATING LEAGUE FAVORED PROGRESS.

TO COMBINE TWO COLLEGES.

HOMEOPEP AND REGULARS UNDER ONE ROOF.

This is Purpose of Bill Introduced into Legislature Yesterday.

Representative Clarke, of Jefferson county, introduced a bill into the house yesterday morning, the purpose of which, according to a telegram, is to combine the colleges of Medicine and Homoeopathic Medicine in the University.

No further advices have been re ceived as yet, but it is thought that the measure proposed would rather to cut out the courses in the Homeopathic college which, in name, at least, are duplicates of certain courses in the other college. This would materially reduce the Homoeo pathic faculty, and could not fail to have an injurious effect on the col lege.

Judging from the results of such agitation in other states, the scheme is likely to advance far. Similar propositions have come up in Minne sota and Minnesota, but have not been successful. Whether the legisla ture will take the idea seriously, re mains to be seen.

Harry B. Golden, of Romney, is in the hospital, recovering from an appendicitis operation. His father, who accompanied him here, is looking over the College of Applied Arts, with a view of sending his son to study Engineering next year.

Mr. Driscoll, freshmen houseman, has given up his work to go out to Mon tana and prove up on a claim he has filed there. He will return next year to continue his course.

SUBJECT ASSIGNMENTS FOR THE WEEK.

C. A. Lighty, Eng. 39, was here last week, the guest of Professor Mc Whan. He is now with the purchasing department of the C. W. R. C.

The sophomore included a group picture taken yesterday.

Grinnell defeated Coe 10 to 24 in the basketball game at Grinnell Sunday.

Puss will pour tea at the Triangle Club this afternoon.

To combine two colleges.

Homeopaths and Regulars under one roof.
