BASE BALL MEN TO MEET HERE

BASKET BALL MEN RETURN FROM LONG TRIP.

Three Losses and One Victory is the Final Count—Great Team Work Shown by Iowa.

The Board of Control met last night and had quite an extended session, at which it was decided to call a meeting of the base ball managers of the Iowa colleges to meet in Iowa City on February 9th. A dinner will be given to the members of this council that night, after the basket ball game with Grinnell.

The Board considered the proposition to hold a dual track meet with Ames on Iowa field in the spring, and also a dual meet with the University of Minnesota in Minneapolis. It is probable that both of these meets will be held as planned.

Iowa's Men at Home.

Yesterday afternoon, Coach Rule, with his basket ball team, returned from their long trip in the west. The men showed the effect of the weather, as found in hotels and sleeping cars, but in spirit they were jovial. The trip was not as successful from outward appearances as it will show from inward signs. The scores were quite even, and the loss of some of the games was easily due to the unfavorable condition of the floors on which the team played. One fact is noticeable, and that is that the Iowa men outplayed their opponents in the last half of each game. Just as soon as they secured the range of the baskets they had their opponents on the defensive. The light and the backgrounds hindered in many cases.

At Des Moines.

Many S. U. I. rooters saw this game, and although Iowa lost by a score of 32 to 27, it was a close game, and the fourth in succession which the Capital City Y. M. C. A. has taken from S. U. I. The men played a fierce game in this contest, and in the last half the score of 22 to 20 was made in Iowa's favor.

At Highland Park.

Here the varsity allowed their competitors to make only two baskets in the whole game. They were unable to solve Iowa's system, and had it not been for the many chances which the officials gave Highland Park at the basket, they would have narrowly escaped a shutout.

Buckner was roughed in this game, putting him badly out of condition for the rest of the trip.

At Nebraska.

The Iowa men met a most courteous house of rooters at the University of Nebraska. The game was fierce and fast from the beginning, resulting in a score of 27 to 17 in favor of the Corn Huskers. Coach Rule says that the Nebraska team is

the only one of the four that we would need to fear on our own floor. A return game will be played February 22nd.

At Kansas City.

Here the University met defeat by the score of 28 to 35. Spectators and the local press said that Iowa made the best showing against the champion team of the Athletic Club which has been seen this year, and in considering this we must remember that the Kansas City team has defeated Yale as well as the Crescents in recent games. Had Buckner been able to stay in the game throughout the entire period, so as to prevent the shifting of the players, it is quite possible that we would have won this game. The last half of the game was pronounced the fastest that was ever played on a local floor. In view of the condition of our men at this time, we must give them full credit for their game fight and the Iowa spirit shown in this contest.

Coach Rule expresses himself as well pleased with the work each man did, and is much more hopeful of making a good team out of his bunch of men than he was when they left Iowa City.

Alumni Clinic Approaching.

Nearly seventy-five alumni dentists have undertaken to hold clinics here next month, during the big alumni gathering. Probably there will be 300 or more visiting dentists. Many alumni will be attracted here through a desire to see the improvements in the Dental building, and the general expansion of the university. The time of holding clinics is somewhat unfortunate, as there is a large meeting at Minneapolis just before, and another at Chicago just after the Iowa meeting. But the attendance here is expected to be at least as large as usual.

Wm. Miller, Dent. '98, who has been practicing in California, is recovering from a very serious illness which leaves one side of his face paralyzed.

Mr. Hogue of West Liberty is visiting his son Bert.

Junior pictures are coming in slowly. Friday is the last day of grace, and some Juniors are going to be disappointed.

Professor Gordon will act as judge at the high school debate at Washington Friday evening. With Professor McDermot, of the department of public speaking at Minnesota, he will judge a debate at Rock Island, Feb. 1, between Augustana and Luther college of Decorah.

Professor Loos is feeling much better and expects to resume his class work today.

FRED C. DRAKE HAS RESIGNED

WILL LEAVE IOWA CITY IN FEBRUARY.

Expects to Go into Business in South Dakota—Successor Not Appointed.

The Board of Regents accepted yesterday the resignation of Fred C. Drake, from his position as secretary to the President and University Editor. No successor was chosen, but temporary arrangements will be made to take care of the work. The resignation goes into effect the fifteenth of February.

Mr. Drake will remove to South Dakota, where he will become a partner in a well-established abstract loan and trust business. He has been connected with the University in one way or another for about nine years. After finishing Liberal Arts in 1901, he took the Law course, and received his L. L. B. in 1903. In September of the same year he entered upon his present duties. A large and important part of his work has been in the nature of building up attendance, and causing young people of the state to appreciate the advantages of the University. While many causes contribute to our present prosperity, Mr. Drake's tireless and efficient work in securing new students is entitled to full recognition. He may well be gratified, in leaving, to feel that the school has prospered greatly along the lines most related to his own activities.

Dean Raymond spoke at assembly yesterday. His subject was the block system on railroads. Dr. Wylie conducted devotions.

Mr. E. C. Barrett went to Marengo Tuesday evening, and is now in Des Moines.

Walter Myers is suffering from the grippe.

GOOD STORIES AND PICTURES.

Hawkeye Board are Supplied With Wealth of Material—More Interesting Than Usual.

The Hawkeye editors are pleased to state that things are coming their way—good things, too, in the way of drawings and short stories. About ten or a dozen of the latter are already submitted. The showing in the art department is especially gratifying. There is no doubt that the Annual will be well illustrated. Mrs. Marc Catlin, who is an experienced magazine illustrator, will be asked to draw the frontpiece.

Mrs. J. G. Berryhill, of Des Moines, will write the appreciation of Dean Currier, to whom the book will be dedicated.

One plate has already been received from the engravers, that of the Psi Omega fraternity. There is to be a cut made from a flash-light picture of the Junior Prom. The School of Music will be well represented among the illustrations.

General interest is shown this year, even more so among the professional colleges than in Liberal Arts. This will undoubtedly help to make a good Annual.

The print contract is not let as yet, but the work is to be done here in town.

Jokes will be frequent and juicy.

A. B. Clark will re-enter the University next semester.

M. C. Haldeman of Detroit was a guest of the Phi Deltas yesterday.

Mr. Harry Ivins will go to West Liberty today to supervise the rehearsals of "She Stoops to Conquer," which the W. L. high school will put on Saturday evening.

Dr. Cray assisted Dr. Dean in inspecting the School for the Blind at Vinton yesterday.

The Irvings had a group picture taken for the Annual yesterday.

NEW REGENTS ARE CHOSEN

TO FILL VACANCIES BY RESIGNATION.

Old Matter of Single Board for State Schools Likely to be Revived—Hygienic Laboratory.

The senate confirmed two nominations for the Board of Regents yesterday. J. J. Seerley of Burlington, takes Judge Babb's place in the first district, and E. H. Winne, of Humboldt, is to succeed Jas. H. Allen in the Tenth. Mr. Wynne has been a state senator.

It is thought that the old project of vesting control of the state institutions in one board will be revived during this session of the legislature. It is said that its promoters in the last session are ready to push it again. Governor Cummins is unfriendly to the measure. The bill is sure to stir up strong opposition if considered. The alumni of the three institutions affected form a large element of Iowa population, and it is hardly to be supposed that they will look upon the scheme with favor.

A bill was introduced yesterday which on its face appears to be hostile to the State Board of Health Hygienic Laboratory here. It is not so, however. Although it seeks to repeal the provisions for support, this is done only because of faulty wording in the old act, and the ultimate design is to afford the laboratory better support than it has so far received.

A New Course in Ibsen.

A one-hour lecture course on Ibsen Thursdays at 2:30, will be given during the second semester. The following topics will be considered.

1st. Early Influences in Ibsen's life.

2nd. Peer Gynt will be read and interpreted.

3rd. One of the social dramas will be studied from the standpoint of dramatic technique. The course is given in English, and does not presuppose and knowledge of Norwegian. It is intended as an introduction to Ibsen.

Those who intend registering for this course should see me soon.

Geo. T. Flom,
Office, Room 9, L. A.

J. D. Lonergan, of the Reddick printing force, has resigned and is about to enter the college of Dentistry.

Clyde Williams has been elected head coach of baseball, football, and basketball. He will give up professional baseball.

Miss Mary West of Marengo will spend Sunday at the Kappa house.

To-day's Bulletin

2:30 p. m.—Iowa Woman's Club will meet with Mrs. Foster Carney, 530 Iowa Avenue.

7:00 p. m.—Choral Society rehearsal in L. A. Assembly Hall.

7:00-9:00 p. m.—Dramatic Club rehearsal.

7:00 p. m.—Important business meeting of Scimitar and Fez, in Close Hall.

7:30 p. m.—Regular meeting of the Middletonian Society.

8:00 p. m.—Writers Club will meet with Miss London, 26 E. Jefferson street.

HAVE YOU SEEN THEM?

"The finest in the west." That is what competent critics say of the stone carvings on the new Hall of Natural Science. The artist who executed the work, Mr. Shearer, is a citizen of the world who has gained his skill in various quarters of the globe, as in Australia and in England, where he has carved upon cathedrals. But he is not entitled to all the credit for the beautiful results produced upon the new building. Professor Nutting originated the plan of decoration, and directed its execution.

The scheme in general is the representation of typical American animals, and the three sides are related in the plan, the south, the east and the north. The south side is given to the Carnivor group. Three main divisions of the group are shown in the panels over the central windows. On one are the carved heads of bear, raccoon and mink; on another mountain lion, ocelot and fox; and on the third the aquatic carnivores: seals and sea lions.

On the north side the three panels represent the lower vertebrates. There is a fish group, a reptile group showing turtle, iguana and rattlesnake, and another with an alligator head in the center, with frogs and a rattlesnake at the sides.

The east side has three portions, made by the east faces of the wings and the center. The south wing has the ungulate group. The arrangement of these is geographical. The north panel shows musk ox, mountain sheep and mountain goat; the central one buffalo, antelope and deer; and the southern one llama, peccary, and tapir. On the north wing there are three bird groups, arranged according to habitat. The land group comprises wild turkey, prairie chicken and quail, the air group, eagle, owl and falcon, the water group night heron, sea gulls and ducks.

The crowning piece of the whole

work is in the tympanum over the pillars of the front entrance. Here are splendid figures of buffalo, moose and elk, standing out in strong relief and appearing almost life-size.

Above the principal carvings, there are twenty window-heads, each having a different treatment of marine invertebrates.

As the building has been almost inaccessible this fall, there are few students who have had opportunity to admire the work. It will surely repay any one who has interest in art to walk around the new structure and see the carvings at a range short enough to appreciate them.

Marlin 16-Gauge Shotgun

This is the smallest and lightest weight (about 6 1-2 pounds) repeating gun ever manufactured, and opens up many new possibilities to the up-to-date sportsman. It is not a 16 barrel on a 12 action, but a new, well-balanced, properly-proportioned gun that, with modern smokeless powders, enables a shooter to use a powerful load in a small shell and reduce, materially, the weight of shells and gun to be carried. The small, light gun handles fast, results in close holding and increased accuracy. Full description in new Marlin Catalog No. A542, just out. Send three stamps for postage to THE MARLIN FIREARMS CO., NEW HAVEN, CONN.

Ralph Rose, the famous westerner who created such a sensation at Michigan some time since because of his wonderful feats with the weights, has recently broken the world's record for the 12 pound shot put of 55 ft., 6 1/2 inches. This is an a inch and a half better than the previous record, which was held by G. R. Gray, of the N. Y. Athletic Club.

At Purdue an agitation has been started to confer a suitable insignia upon the men who devote time and labor to non-athletic activities. The insignia suggested is a "P." Those who would benefit by the proposed change would be varsity debaters and the editors and managers of papers.
