GREAT PLAY TO BE PLAYED
ATTEND THE JOHNSON COUNTY FAIR.

The preparations for the Greek play are progressing rapidly, and now that the play has practically been finished, the acting will be completed, and it is to be made up of some of the best talent in the University.

In order to make the preparation as complete as possible, great care is being taken in selecting the players. The names will be given out in a few days. The costume and stage of the play is also receiving much attention. The members, as well as the scenery itself, are being specially contrived for this performance. The色调 of preparation is necessarily great.

The "HELP" of Grinnell was first produced in the great theater of the East and will be played before the Great Hall at the University.

9th. Mr. X. X. X. and Mrs. X. X. will be entertained at a dinner party Friday evening at 4 A. M. G. C.

There are more than two hundred young people who should have their support at the play. The play has been given a little time to give itself time to grow.

Social for Catholic Students.

An invitation social and informals will be given at St. John's, under the direction of the Catholic women of Iowa City and the University. The dinner has been arranged by the St. John's Catholic Society, and those interested in the event should get in touch with the committee.

Next Saturday, Grinnell plays host and will expect to see the city filled with the students from the University. The opera season in the city has ended, and now the opera is to be revived on the stage of the Great Hall.

Next Thursday afternoon will be the last formal of the year. At the State Department of Education, the school is to be opened, and the State Department is to be presented to the public.

NOTELED LECTURER COMING.

Sioux City Address Will Be Given by Distinctive Eastern Scientist.

The annual address before the society of the Sioux City will be delivered this year by Charles M. Stutz, M. D., professor in the Harvard Medical School. The event will occur on Monday evening, February 13, and friends of the society are to be admitted by members only.

Dr. Stutz has achieved an international reputation as an investigator and writer of authority on the nature of scientific papers as well as on the method of writing the most proper account to the government of the higher standards of excellence. The lecture is to be highly competent to the subject and is to be delivered by the "Biological Interpretation of Life."
