REGULAR WORK IN DENTAL CLINIC.

BIG CLINIC IS OVER

W. M. BARR TO ST. LOUIS.

Hawkeye graduates in Chemistry
High in Commercial World—S. U. I. Men at St. Louis.

W. M. Barr, chief of U. S. Hydro- graphic bureau in the Chemical building of U. S. I., has resigned his resignation to take place March 1st. Mr. Barr will join the staff of the noted Mulfriedtini house, entering the manufacturing department.

Mr. Marx is a graduate of both Carne-
well and U. S. I.,

The University of Iowa probably has the most graduates in that great manufacturing house than any other university in the country. In these industrial works, we may find Dr. L. O.

Adams, formerly dean of one of the colleges of pharmacy here, who is chief (and also) Misses Mary Gardner, CNS. This board, men. We

know not, but an expert in the eastern branch of the Mulfriedtini house, this is without due tribute to the general and to the efficiency of our dental students.

Mr. R. G. Rahn, bacteriologist, has taken up another dental position.

Dr. Place will visit the most educational institutions of Bel-
gium and Germany, and will make the continental tour most valuable to himself and the University for schol-
ar and research.

Dr. Place will return in September to resume his duties as Assistant Professor in the Department of His-
ran. His European tour will not

deem him great opportunity of augmenting his power and value as a scholar and interpreter of history.
