T

The Board in Council of Athletics

was last evening in the office of

Professor Knowl. Practically no motion was

transmitted at the meeting as it devolved into a discussion of the

intercollegiate athletic issues. The dates for the opening of spring

work on track and diamond were decided upon and the for candidates will

be named. Reports of several

committees were heard but no def

the action of any act was taken upon

these reports.

None of the schedules were an-

nounced. It was stated that the

schedules were still in the course of

formation and that they would

be completed for at least two

weeks. Likewise no decision was

reached in to the selection of a base-

ball coach. The matter has been

held up in hands of a committee and they are still looking over the

ground. The baseball coach would con-

venient for a conference to

arrange the playing schedule.

The baseball squad will begin work on

Monday. The principal effort will be to get the candidates in

condition for the regular spring

work and to get a line on the differ-

ent men. The new coach will prob-

ably be selected within two weeks at

the latest. The date for the begin-

ning of track work has been decided upon, and will be made known

Monday. Captain Riley should have a big squad out and it will not be

many weeks until the track men have put Iowa's state meet prospects for this year.

Mr. E. R. Bennington, Instruc-

tor in Chemistry, has been unable to

attend in his classes on account of an

attack of gripes. The illness is not

serious, however, and he will be able to
