Grinnell Takes Second Game

IOWA LOSES IN SCORE OF 24 TO 18.

The Late to Win When Hawkins Wipe Up—Freshmen Win From High School.

Yesterday afternoon Iowa lost her second game to Grinnell in a contest of which poor basket shooting and hand work were the prominent factors. A 15-minute lead the Grinnell players had by Grinnell made the first half a "Jawbreaker" for the Old Gold supporters. During the first of the game the Hawkeyes were taken completely by surprise, and the Grinnell team promptly got the upper hand and went on to a lead which was never relinquished. When the Grinnell players had the upper hand, the Grinnell team promptly got the upper hand and went on to a lead which was never relinquished.

The Anointer Company's production of "The Time, the Place and the Girl," will be presented at the Eldon, and delivered free by the stars of George Ade's "Fugly Farm." The place has run six months in Chicago and is still running, so that it may be stated for granted that it has the unquestioned function of the theatregoer of that city.

"The Time, the Place and the Girl" is to be designated as a "comedy with tears," not "sentimental comedy." This classification implies that it has a plot and characters in it, which has come to a degree of maturity not enough found even in straight plays. The story has to do with Tom Cumming, a wild young scamp, who gets into trouble with Boston east shysters, and is forced to flee to a resort in the mountains of Virginia to escape arrest. He is accompanied by his pal, singer John Hicks, a stage young man who is on-the-level, with everybody but himself, and who falls in love with a pretty trained nurse in the sanitarium. Many funny complications are foreseen, when the whole scene of the "care" are established.

The book is by Frank Adams and Will H. Hough, and the music is the work of George H. Howard. The chorus is under the direction of Neil Warborn.

Northwestern University Medical School.

Dr. N. S. Davis, Dean.

This medical school is centrally located, convenient to large hospitals, offering abundance of clinical material. The laboratories and history rooms are commodious, well-lighted and generously supplied with all modern appliances to aid in carrying on in the best possible manner the study of medicine.

The full course consists of four years, eight months, beginning October first. The classes are divided into small sections, thus affording to students better opportunities, or the advantages of individual instruction. This feature, as well as clinical curriculum constitute the work in all the departments.

The ability of the men who graduate from this school, as well as the character and thoroughness of the work given here, is evidenced by the high character of our graduates in the examinations given by the different State Boards. All of these examinations are administered by the various State Boards in the United States during the last year, only one failure was recorded.
