NOTRE DAME DEBATES NAMED
TWO ZETS AND AN IRVING.

Will Meet the Gentlemen from Indiana About the First Week in March.

Immediately after the Minnesota preliminary Wednesday night the faculty committees impressed with the choice of the Notre Dame debaters held a meeting and selected three from out of the four that had debated this week. Roy P. Hammond will be leader, and his associates W. N. Jones and Fred C. Cunningham. The Notre Dame debate will be held here, early in March. The question in the same as that debated several times here already, the topical problem, Iowa will uphold the neg. Mr. Hammond and his men will work hard on this. They know they must indubitably put up a strong fight, to retain the reputation of that institution. The Catholic school has resulted in many thorough debaters to date. They have a system of training therein which makes upward progress possible; one person gives five hours daily to the team, and all other work is held and preparation for the debates borne. All expenses are met by the school, and the forensic ants are doing the biggest events of the season.

The final tests for the Minnesota, Wisconsin, Notre Dame, and Kansas debate will meet in room 211 of the Liberal Arts Hall Saturday evening. It is earlier with the committee who have been appointed, Theodore Moos has promised to be here at that time. As interest will be made to continue the forensics.

MORE ABOUT THE ANNUAL

Book Will Be Out May Say.---Art Work a Particularly Strong Point.

Over three hundred handsome pictures have been handed to the Annual Staff. This is at least a hundred over any previous year. And this is only one of the numerous respects in which the Annual of this year is a record-breaker. Professor Washburn does the art work so far admirably: very highly, saying "by his choice the designs are effective, showing both his style and great originality." Morel Colt, NI., also designed some drawings, and efforts are being made to secure contributions from Frank Saxton, W. D. and Fred Cooper, W. H. Collins is working on the mechanics of the cover. The cover design is strikingly original in conception, and has direct relation to the celebration of the 10th anniversary of the university.

F. 0. Lowden has given $250 to the Huntington Hospital.

Miss Margaret Marshall is enjoying a visit from her father.

STORY OF REFORMATION WELL ATTENDED.

Life and Times of Martin Luther as Presented at the Catholic Library Night is Great Success.

The story of the Reformation as presented at the Cudahy last night under the chairs of the Friday night at the Catholic Literary Church, was very successfully carried out before a well filled house. The music was under the direction of Mr. C. M. of the University School of the city, consisting of more than one hundred voices. The production was very effective and perfectly executed; the first reciting Theodore entering the union in such the procession bearing coats of colors of a different state. The extant class, including the Imperial Guard, composed of the M. W. A., Varsity Rifles and detail of Co. L, consisting the set in Lutgard's Triad or the set scene in proper context. A number of vocal solos was prominent feature. A lecture on the life of Martin Luther was given by the same, by Mrs. Masur, assisted by musical notes. The production will be repeated to morrow night.

NOTES.

All students in the University should be registered not later than February 2, some who register after that date will be required to pay a registration fee of $10 for each day's delay beyond February 2.

Students of the professional colleges who have registration for the coming semester's work to enter the lecture room at 9:00 a.m. and pay their tuition fees and register. Thirty students with their registration completed before Secretary McCracken's office. It will not be necessary for them to present their tuition cards at the registrar's office.

Several students in the Colleges of Liberal Arts and Applied Sciences have registered for the second semester's courses but have not yet paid their tuition fees. These fees must be paid before next Saturday.

REGISTRAR.

Renaissance Men Attention.

All men interested in baseball should report to Marc Cadin at the Armory at 5:30 o'clock, Monday afternoon.

The Phi Kappa will hold initiation this evening at the chapter house and will initiate Elizabeth Michaelson, Beta Beta and Madge Langstaff.

The Phi Psi gave a delightful social party last evening at Mt. Scleming Hall.

The river is rising, and high water has stopped work on the turnpike wheels.

SIGMA XI HONORS ARE AWARDED.

SCIENTIFIC SOCIETY ELECTS TO MEMBERSHIP.

Thirteen Persons are Selected—Begin From Senior Class—Noted Lecturer Coming.

The honorary scientific letter society, Sigma Xi, has elected the following persons to its membership: Professor H. H. Reed, Professor E. B. Hurlbut, Mr. C. W. Johnson. The graduate student who joins the honor society are: Miss Hernott Preston, A. L. C. Tuthill, and F. D. Smith. The underclassmen elected are: Mrs. Grant Harrison, Miss Alice Tuthill, E. H. Edwards, R. H. Kranzer, E. P. True, E. H. M. Smith, R. Pruss and Frank Basham.

To summarize from Baden's Manual, the scientific society on the national level, Sigma Xi, The American Journal of Science received its first number of letters "Sigma XI" in 1877. Sigma Xi was held Nov. 18, 1908, by Professor Henry Hay Edwards, attended by ten others. The purpose in this foundation was to establish, in the good scientific and technical side of the country a society, the lodge by which should have the same significance of subsidiary merit as that of Phi Delta Kappa among the classical students. This is not secret and its aims are as follows:

To grant membership privileges to graduate and engineering, to under graduates as members. The members are: New members are admitted as follows:

1. By election of the Editorial Board of Sigma Xi.
2. By invitation from Sigma Xi chapter of the same state or university.
3. By the local society of port to the national Sigma Xi headquarters.
4. By the Student's Council in the same city. They have been installed in the engineering shops and are very valuable additions to the equipment of the shops. The shops have been on the way for some time now, but their arrival Wednesday stimulates all the anxious students who are to use them.

Mr. John MacVicar of Los Molinos arrives in Iowa City today to visit his daughter Marjorie.

FORGES HAVE ARRIVED.

Engineering Department Receives Valuable Equipment for Shop.

The Engineering Department has received four forges from the Buffalo Forge Company. These have been installed in the engineering shops and are very valuable additions to the equipment of the shops. The forges have been on the way for some time now, but their arrival Wednesday stimulates all the anxious students who are to use them.

Mr. John MacVicar of Los Molinos arrives in Iowa City today to visit his daughter Marjorie.

PRAYER FROM THE LEGISLATORS

Joint Committee Made Report Yesterday.

Does Not Recommend Appropriation For Woman's Building—Gives General Provision for Support Fund.

The joint committee of the senate and the house, which visited the University is short time since, made its report to the Legislature yesterday. The House of Representatives $441,350, and the committee endorses an appropriation $121,000. This $441,350 is for the support fund, $41,000 for land, $41,000 for equipment, of the women's building, and $41,000 for general equipment and supplies. The report acknowledges the need of a Woman's Building, but, recommends that no appropriation be made for this purpose, on account of the many demands on the budget of the state.

We feel that the University has come one of the foremost universities in the country in all the foreign academies of science, of all the American scientific organizations, and he is one of the editors of the American Journal of Science. It took the solicitations of four women universities, Minnesota, Kansas, Nebraska, and Iowa, to bring a victory in state, and Professor Minot is looking as each of these universities, in the order named.

ABOUT THAT REPORT.
On the whole, the report of the legislative
committee sent here to inspect the
graffitizing in town and sub-
urbs. The legislatures were very
much pleased when here with what
they saw, and the recommendation
that results from their visit was
evidently made in a spirit of sympathy
and censure. While the report is
expressed in some respects, it
would nevertheless afford fairly ade-
quate support if followed. It
should be understood, however,
that the recommendation in this
matter is far from being the final
word on the subject. The report goes
back into the hands of the Appropriations
Committee, where it is subject to
very thorough consideration, and the
figures and provisions suggested by
the committee may perhaps be added to or re-
vised materially before they go be-
fore the Senate and House. As the report is so favorable in its general
tone, it is quite possible that the Ap-
propriation Committee may feel so
far influenced as to give at least all
that the report suggests. And
though the visiting committee reported
favorably against the proposed Woman-
Building, the Appropriations Com-
mittee may take a more favorable
view of the matter. It is hard to pro-
dict just how closely such a report
may be followed. Meanwhile, the
jury may continue to hope.

-the Time, the Place and the Girl—
will be presented for the first time in this city on Wednesday, Feb. 6, at the Colburn Theatre. The new offering is by Will M. Hogh and Fred Adams and Joe E. Howard. The two productions will be different from these previously offered by the well-known Ankle-Biter Company. Hereafter the atmosphere has been frozen, but in the forthcoming production it will be strictly American. This scene is in the mountains of Virginia. The Weather is short and cold so the chorus Ros will be on sale Monday eve. Limit of 10 to each purchaser.

For Rent—Good furnished room, 407 South Linn at Moderate price. 2-17

The diet scene is one of the most gorgeous of the evening. The military display will be exceptionally fine and the drama well prepared, and the characters have all been given
en. For pump and grandeur this number is unsurpassed.

\[\text{Marlin 16-Gauge Shot-guns}\]

This is the smallest and lightest weight (about 6 l-2 pounds) repealing gun ever manufactured, and opens up many new possibilities to the up-to-date sportsman. It is not a 16 barrel on a 12 action, but a new, well-balanced, properly-proportioned gun that with modern smokeless powders, enables a shooter to use a powerful load in a small shell and reduce, materially, the weight of shells and gun to be carried. The small, light gun handles fast, results in close holding and increased accuracy. Manufactured by the Marlin Firearms Co., New Haven, Conn.

\[\text{The Conlon Pen}\]
For busy people.
No bother.
Fills itself.
No dropper.
Nothing to break apart.
Nothing to spill.

Action Guided by Knowledge Wins Success.

Your life, to be one of achievement, must be a life of action; and this action must be directed by knowledge. To gain knowledge, you must study and investigate. You must set your mind upon some subject, and study it diligently.

Our streets, offices, and factories are crowded with unskilled people struggling to get or to hold jobs. Why is the lot of these people so hard? Not because Fate is cruel, but because they lack knowledge. Space-time learners never lack faith in themselves; the habit of solving problems out of the presence of a teacher makes them self-reliant; responsibility loses its terrors. Opportunity's challenge is accepted; there's no flinching, and no defeat.

Take courage; acquire the study habit; get to believe in yourself; be determined not to lose, and you'll win.

We have 18 students in Iowa City. It is like "Carrying Coals to Newcastle." But a fact nevertheless.
