PHYSICAL PROWESS

ENTERTAINMENT

NOVEL ENTERTAINMENT PROPOSED FOR UNIVERSITY PUBLIC.

As an entertainment that promises to be very interesting has been projected, and may take place in the near future. It is to be in the form of an exhibition of physical processes, and has many novel features. The Variety Boys, young men's physical training class, and the college boys physical training class will be in this enterprise. The date will probably be some time during the latter part of April and will take place in the Armory. If satisfactory arrangements can be made, it will be remembered that the Variety Boys entertainment last year was one of the largest audiences ever seen in the Ieavour. Many pretty girls and difficult men will necessarily be exercised, making the act of the Variety Boys a very lively one.

The young men's physical training class will go through a number of exercises and exhibition of physical powers; boxing, wrestling, etc., will be attractive features of the day.

The young ladies' physical training classes can be counted upon for numerous drills and perhaps a basketball game.

The promotion of this entertainment is now in the hands of Colonel Works and Mr. Rule. If all arrangements can be made, the novel entertainments described will take place within the next month or so. The program given by these thriving departments of the university will be one worth the seeing.

The college of Pharmacy.

ONE OF THE YOUNGER DEPARTMENTS.

Was Organized in 1855, and Has Progressed from Its Beginning—A Record of steady Growth.

In accordance with our plan of starting briefly the history of the various colleges, we gave yesterday a narrative of the progress of the youngest, the college of Engineering. The college next to that in the gradation of the old college, which will have to be taken up in connection, with what we have to say about the college of Libera Arts. The Department of the University presented hereafter was the college of Pharmacy, which, next to the college of Engineering and the graduate college, is in our youth.

There was a law passed in the early legislation by the state legislature, requiring that poisons and medicines should be sold only by properly qualified persons. The new restrictions caused a demand for technical education along this line, and the state Pharmaceutical Association, reported by George H. Schade and Emil L. Boerner, petitioned the Regents of the University to establish a department of Pharmacy. The petition was met with approval, and a faculty was organized consisting of Emil L. Boerner, Dean, Professor Gustave Hinsch, and Dr. C. M. Haberly. This was in 1888.

The first quarters of the new department were in the old medicine building, and the early appointments of the school during its first year were in divided contract in the present condition and well equipped the faculties. Mr. Carl Dieder, formerly a student at the College of Liberal Arts, whose college is in Pittsburg, Kansas, will have over his bed before yesterday to a train at Kansas City, and seriously ill and not fully recovered.

Former Coach Chalmers in New Venture

Attorney John Q. Chalmers of Dubuque, Iowa's former coach, has gone into a new venture. His many friends will be interested to know that he has formed a partnership with an experienced business man, with whom he will conduct a confectionery factory. Always a "confectioner's" heart, he should do exceedingly well in this new enterprise and his friends will wish him much success.

You will make no mistakes if you do business with Iowa City State Bank.

ATHLETICS IN THE ANNUAL.

Special Attention Will be Paid to
Fine Illustrations of College Sport.

Athletic Editor Bernard Murphy
appears to have set the achievement
standard of this year's Hawkeye one of
the most interesting departments in
the Annual.

Individual signed sets of all var-
sity football and baseball men will
be run in connection with a review
of last year's football and baseball
season. Individual sets of athletes,
to any large extent, have never been
used in previous annuals, and this
feature will be an innovation at Iowa
in the treatment of Athletics in the
Senior annual. In addition to the in-
dividual sets of the players them-
seives, full page half-titles of all the
athletic teams will be run. An effort
is being made to secure a large num-
ber of pictures of athletic scenes, and
if these can be secured, cuts from them
will be run throughout the depart-
ment. Every branch of athletics at
the University will be represented in
the Annual, and unusual space is
being taken in the preparation of past athletic records, which always
form an important feature of every
college annual.

Assistant Art Editor Knapp has de-
signed a four-color cartoons for the
Athletic Department, and the drawings
has been adjudged by Professor Wash-
burne as having unusual and remark-
ably well done for "amateur." Other
football drawings, baseball, track,
track and field events are promised to make the Ath-
letic Department in keeping with the high artistic standard of the whole
Annual.
