The FRAT BALL GAMES BEGIN

FIRST GAME IS PLAYED IN THE RAIN

Par-Helioicnic Baseball Season Open Yesterday--A. E. Win From the Kappa Sig.

The first game of the Par-Helioincic schedule was played yesterday. The Kappa Sig. crossed bats with the Sigma Alpha and it was a battle regis tered at a score. A good sized crowd were out to see the game despite the cold rain. The benches were filled with enthusiastic fans, including some[]

THE HARBOR SCHOOL, Boston, Mass.

The requirements of the Harvard medical school are not the only difficulty in the way of a student. The Boston Medical and Surgical Journal, a well established medical journal, gives the following list of the requirements of the medical school for the degree of M. D.

A four years' course, three years' study in the laboratory of the medical school and one year of practice. The medical school is required to have a library of at least 10,000 volumes, a lecture room, a dissecting room, a laboratory, a dispensary, a hospital, and a residence. The student is required to be a member of the medical society and to pass the examination of the medical society at the end of the fourth year. The examination is given by the medical society, and the student is required to pass the examination in order to be admitted to the degree of M. D.

The requirements for the degree of M. D. are as follows:

1. A four years' course, including three years of study in the laboratory of the medical school and one year of practice.
2. A library of at least 10,000 volumes.
3. A lecture room.
4. A dissecting room.
5. A laboratory.
6. A dispensary.
7. A hospital.
8. A residence.

The student is required to be a member of the medical society and to pass the examination of the medical society at the end of the fourth year. The examination is given by the medical society, and the student is required to pass the examination in order to be admitted to the degree of M. D.

GETTING READY FOR THE BIG DEBATE.

Men Off for Wisconsin—Judges Already Secured and Three Will be Present.

The interest of the University is rapidly centering in the great debate to be held in the University Arena Friday evening. At this time Iowa will make her initial appearance in the new debate street, an organization which now promises to revive interest in that line of activity and to place debating upon the just basis among the large universities of the West. As was mentioned in Assembly this morning, Minnesota has never been strong on her own platform and this fact alone makes the existing contest one of especial interest. From present indications they may wait until longer for that pleasure. The question is the same as has already been discussed several times during the present year, the street railway problem, and, for those who have wanted the development of the question, this contest ought to prove of unusually interesting.

Romeo, Sheffer, Gouraud and Merier, who are in most Wisconsin on the same night, started for Madison this morning at six o'clock. The two teams working on the opposite sides of the question, have been meeting for some time amidst daily discussion. It is needless to say these present contents have proved exceedingly valuable so much so that neither team is likely to be surprised on any point, while ideas of rebuttal have also been worked out and perfected to an unusual degree.

Judges have already been secured and the debate will not be extricated to the decision of one man. Should Iowa win either of these contests, it now seems very probable, it will mean a proved victory for U. I.

The forensic work of the University was this year thrown open to the competition of the entire institution and the windows of this move will be to a certain extent certified by the interest and enthusiasm manifested in this contest.
