Joint Meeting Yesterday Showed a Disposition to Let the Scrap Alone

Pursuant to notices sent out by Billy Currier a large number of sophomore and junior liberal arts students gathered in the auditorium of the Liberal Arts Building yesterday afternoon for the purpose of discussing the class scrap problem. The first part of the meeting was taken up in the rehearsal of songs learned as a part of the thing to be done after the meeting was brought to order by Mr. Cunningham President of the senior class. The resolution was offered by Howard Harwood representing the Upper Class Commission to whom the question had been referred for recommendation. The resolution was as follows:

Whereas there is at present no settled policy of supervising underclassmen, and no satisfactory form of contest.

Resolved that the senior and junior class control the annual freshman scrap by means of a body of six men from each class, who shall act as leaders in directing their respective classes, these men to be appointed by the class president of the previous year and be further resolved.

Resolved that the assembled present sophomore and junior class adopt the three following forms in the conduct of contest to take place on Iowa Field this afternoon. The final Komenian program.

The first dress rehearsal of the play will be held Saturday afternoon.

Our versatile engineers have turned their attention to classic opera and are making some of the scenery to be used in the Greek play next week. The piece is a model of a Greek temple, of the tetraphylon type. Professor Washburn designed it, and M. Bender and some of his students are now building the scene. The body will be white, in representation of marble, but parts of it will be brightly painted, in imitation of the Greek custom. When the scene is finished it will be historically correct in every detail, showing a Doric temple with three steps.

The first dress rehearsal of the play will be held Saturday afternoon. The costumes are nearly finished. Like the scenery, they will be correct in every detail.

Our resolve is that in the play will be held on Saturday afternoon.

Professor Washburn has also made a drawing of one of the scenes of the play, and this will be used in a poster to be issued in two colors. Five hundred of these will be sent over the state. The play will be thoroughly advertised, and will doubtless attract attention far and wide, being the first event of its kind in this part of the country.

Final Komenian Program.

The last session of the Komenian society for this year will be held Friday evening at eight o'clock in the C. S. P. H. The program to be rendered is as follows:

Professor Backer, of Ames, piano solo.
