Coach A. A. Stagg says Year Will be Notable One

"The sport football season will mark the highest point yet reached by the gridiron game. Everything points to a banner year in the popular interest in the game, was never so great. Football in the West will surpass anything that has ever been seen before." This was Coach A. A. Stagg’s football prediction.

The whole country is waiting for the football season and much interest than ever was shown before," he said in discussing the football outlook. "There will be a decided change from last year, when many people believed the game was going down and not as the result of the "reform" rules. Followers of the game may look for the best exhibitions they have ever seen.

"Football conditions generally have varied since last year and the changes in the playing rules have helped the actual game. The forward pass is responsible for the great revival this season. With its practically unending possibilities, there is every chance for brilliant plays when this is taken advantage of by the spectators as well as the players."

Boys Scarce at Normal Boys are scarce at the Iowa State Normal this term. Whether or not the number will increase during the winter and spring terms is yet to be seen but there is some doubt that the supply of male students will be greatly augmented during the present year. It is not likely that the change in the courses has caused this scarcity. The absence of football, or any other athletic attraction, probably has a great influence on the attendance.

The University Press Co.

Geo. T. Redick, Prop’t

INVITES the patronage of the students and their friends. We have facilities for the finest kind of printing. We employ only union workmen, and we have a reputation for fair dealing and a better grade of printing than you can get elsewhere in Iowa City. Come to us for your Stationery, Programs, etc. We will treat you right.

Piano and Harmony

Mrs. Anna Biber Starch will re- open her pupils to Piano and Harmony for the season. Lessons will be given October 1st. Hours may be arranged between 2 p.m. and 5 p.m. and lessons made at room 230 Liberal Arts Building, between 11 a.m. and 12 a.m. daily.

willner's New Fall Suits

Show New Developments in the Tailoring of Ready-to-Wear Clothing

If it were possible for men to follow the makings of our Clothing from the designers' planning to the final touches, they would readily see why we have chosen each of the lines we sell, we would have them see the designers at work--let them see the expert style knowledge which enters into every detail. They would see the many designs we discard--the many improvements suggested to bring every line to our required standard. Seeing so many of the patterns so critically eliminated they would then understand how we control in our lines the refined patterns we show.--SEVEN STORE BUYING LENDS POWER.

But in the actual making--the work of skilled tailors in modern plants--in this they would be especially interested. We would show them how many details--little details now hidden between cloth and lining--are necessary in order to attain the perfection shown in our coats. They would also see how critically each garment must pass inspection before it leaves the maker's hands.

AFTER SUCH AN INSPECTION--WERE IT POSSIBLE--THERE WOULD REMAIN NOT THE SLIGHTEST DOUBT BUT WHAT OUR LINES REPRESENT THE HIGHEST ATTAINMENTS IN THE TAILORING OF READY-TO-WEAR CLOTHING.

S-T-Y-L-I-S-H

Changes in the Football Rules

The New Guide Just Received Explains the Rules.

In the new football guides recently published, the rules are changed from those in use last year in several instances, notably in the length of the ball, which has been lengthened to thirty-five and five minutes, the penalties increased, and in the various officials.

Following is a brief summary of the principal changes:

1. Offenses to be penalized fifteen yards for forward passing touchdown instead of losing possession.

Defensive to be given the ball when out of bounds from a kick.

Forward pass from punter to penalized fifteen yards, but distance to be measured from the ball being fumbled.

Hurdling or tripping to be disqualified a foul and the ball no-foul.

Hurdles to be increased from thirty to thirty-five minutes each.

Linedman may carry the ball after being positioned on the line.

Carrying from the side line to be penalized fifteen yards from the point where the ball was fumbled.

If ball is kicked out of bounds by the opponent in succession same shall be returned to the opponent on the thirty-five yard line.

During kickoffs and touchdowns must run at least thirty-five feet from goal.

No player who has not signaled may attempt fair catch or signal on scrimmage play from goal.

No player may signal for a fair catch unless he has a chance to make the catch.

All players will be allowed to pass ball back at any time.

One umpire and one field judge will be compulsory.

The field umpire will share a part of the officials duties.

Hand-held maces will mark spots where the ball goes out of bounds.

Referee will report all holding to the umpire.

Referee will judge fumbling.

Majestic Hall is Now Ready

Repaired in first class shape, the Majestic Hall under the management of Albert C. Dunkel will open for its fall term use to student parties.

The reception rooms has been repainted and the woodwork repainted so that the popular dance hall is especially desirable for society, club and fraternity social functions.

The Saturday night assemblies will be continued this year with the usual trio of orchestras. Thoroughly overhauled, the dance floor is in the best shape of the start for the first year of the society season. Colorful lights have been put in this summe and "color dances" will be a special feature this year.

New School of Education

Will Train High School and College Teachers—Dr. Bul- 
ton is the Director

During the summer the regents established a new school for the 
education of high school and col-
lege teachers. Dr. Frederic E. Bolton, who has been head of the 
department of education for the past six years was chosen di-
rector.

Dr. Bolton was sought by two other state universities for their 
schools of education but the re-
gents expressed their confidence by making it sufficiently attrac-
tive for him to remain in Iowa. The 
new school is to be within the 
frame of the Library Arts al-
though it will involve many de-
partments in other colleges of the uni-
versity. The new one of the school shows that all of 
the departments in Liberal Arts and 
the colleges have done creative 
work is offering mutual training, mutual 
cooperation, and the fundamental 
of Domestic Sciences. Observa-
tion and in collaboration with the 
Iowa City high school and gram-
mar school, which has proved so 
 Gimbal will be larger in scope. The 
school will now require much 
more work in all of the sub-
jects which a student expects to 
teach and also require courses in 
practical training in Psychology and Education. Hereafter 
students who expect to 
teach a particular subject will be 
required to take at least two full 
years of advanced work in that 
subject, a year of psychology and 
a year of education. The univer-
sity has taken a definite and 
reference with the higher 
as a professional 
training. It will be of 
high water mark in this respect. The 
curriculum will vary in its 
energies mainly in the direction of 
training teachers for the high 
mostly in normal schools, colleges, 
and universities. During the 
past year about 100 students of 70 
professors have been in the 
college of Liberal Arts have 
turned to teaching.

The graduate college has al-
ways been a special school for 
the training of teachers for the 
largest high schools, normal 
schools, colleges, universities 
and city superintendencies. a large number of those with 
advanced degrees from the 
university are already holding positions of large responsibility in 
higher institutions. The demand 
needs the supply. During the 
last six years the number of students in the department of 
education has increased from 
about 60 to over 100. About 115 
students and teachers are now 
work in the depart-
ment during the last summer 
months. The Iowa City school is a 
state-certiﬁed law it is expect-
ed that there will be a large in-
creased enrollment during the 
coming year.

New Instructor

Dr. J. Constantine, Ph. B., Columbia, 1906, is to the new 
instructor in education in place of 
Dr. J. C. A. Stag, who has re-
Stag party for the

Made to Measure--Satisfaction Guaranteed With Every Suit

Your new Fall clothes are ready for you now in our store and we are going to hold a special opening reception to introduce you to them. You’re invited; and when you come you’ll meet a lot of the finest clothes you ever saw. We feel that our good friends and our good clothes ought to know each other better.

These are Hart Schaffner & Marx clothes; and you can put it down as a fact that better clothes, more stylish, more perfectly tailored, never came from the hand of a tailor.

The new suits are in a number of very smart models, and the patterns are varied enough to suit every taste--grays, browns, tans, in stripes, plaids and checks.

Other departments are full also of fine seasonable goods; hats on the latest blocks; shirts and neckwear like a regular flower-garden of color and rich design.

Our Tailoring Department contains the Largest Assortment of American and Imported Woolens Ever Displayed in the Vicinity.
in popular favor among good dressers. Why? Because both quality of goods and workmanship are the best. Our Fall and Winter Suitings and Overcoats are new for your inspection. An early choice advised.

NOTE.—Prices as low as consistent with well tailored garments.
