**TELL THE CLASS TO BE READY FOR THE PRELIMINARIES**

First Section Starts at 2:30 P.M.

The Contestants are in Three Divisions.

**Girls Are to Play Hockey**

In order to promote an outdoor sport suitable for girls and one in which many may compete. A game of hockey to be inaugurated by Miss Kissinger in her gymnasium classes. Actual practice was started Tuesday afternoon.

The adoption of this game at the University of Iowa marks one of the first real encouragements of this sport in Western colleges as it has been confined to Eastern establishments. It is an English game, but that has recently been introduced in this country.

A hockey field is 100 by 150 yards, and the theory is much the same as in football. Eleven players are on a side, known as the forward, center, inside right and left, right and left halfbacks, two full backs and a goal. The game is played in 20 minutes.

It is advantageous as a sport that in the execution it is outdoor and not as strenuous for the girls to indulge in. It is quite possible that games will be arranged with the colleges and the co-eds will uphold the colors of their institutions.

Such contests have become a regular feature of the end of October, and the Mass Meeting is at.

While the girls are learning the game it is still further perfect their rooting.

**Junior Dentals**

Got Ducking

Six Dentals Failing to Cut Class Meet Watery Fate.

Because they failed to enter into the 'class fight yesterday,' six dentals, Grower, Gitmes, Cass, Willman, Ermann, Haye, and Ogden were voted to the rear for good conduct.

The contestants are in Three Divisions.

**Debaters Start**

**The Preliminaries**

First Number Under the Editorship of Merwin L. Perrow.

Interesting Features.

The first number of the Iowa Alumnus will be out next Monday. They will be under the editorship of Merwin L. Perrow, M. A., L. L. B. Mr. Perrow is also librarian of the Law library.

Among the special features will be a page of the and a page of the by Prof. F. R. Bolton of the School of Education. There will be a page of the Profs. Bolton, Raye, Kaye and Esteen.

There will also be an interesting number because of the absence of alumni news.

ITALIAN STUDENT MARRIED WEDNESDAY

Miss Ignacia Corta, L. A. '97, Wedded at St. Mary's

Wednesday morning at St. Mary's, occurred the wedding of Ignacia Corta, of this city, to the Rev. Michael Driscoll, St. Mary's. The bride was attended by her sister, Miss Michelle Corta, of this city. The Rev. Mr. Driscoll and the bride attended the ceremony at the home of the bride. The bride and groom left yesterday afternoon for Morrison. Miss Ladia was graduated from the Liberal Arts Department of the University last year. She came to Iowa City from City from Iowa twelve years ago.

**KOMENIAN SOCIETY TO STUDY BOHEMIAN LANGUAGE**

Will Hold Seminar Teaching Bohemian Language.

At the regular business meeting Thursday night the Komorian society held its annual banquet for the purpose of giving a short 'séance' in the Bohemian tongue. There are a large body of O'Connell students interested in the University and the demand for the teaching in this language is supposed to be great.

President Pearsall predicts a promising year, as some strong material has been found among the new members initiated Wednesday evening.

**JUNIOR DENTALS GET DUCKING**

Today and tomorrow thirty-four men will try for places on the university debating team. The debaters are trained hard, they have made a thorough study of the question and they now await the decision of the judges.

The Iowa shall not attempt to discern the value of the opposition's arguments. They are too well known to be even mentioned. Such men as Judge Doemer, Emerson Hough, JudgeMoon and Geo. W. Eggn are men who re ceived their first training in this way. But the value does not fall to the team which makes the team. Every man who does consistent work receives an in estimate of good.

This Iowa is adopting a new system. Now debates is open ed to any student in the University. Formerly set and Irv ing set were in Forensics but now all is changed. A coach, paid by the University, gives instruction in all. Now the best men win and every content ant is a given square deal.

There is just one thing lacking and that is student support. The department of Public Speaking and the Forensic League is getting a lecture course by which they intend to raise the necessary amount of money for these contests.

The debaters have done their part, Coach Randall has done his part and it is now up to the students to do their part.

Iowa must win.

We will have a chance tomorrow to show there will be some good debating tomorrow. This time will be the Yellmaster's yours besides a cracking good football team. A yelling match has been arranged which will be at every game coming tomorrow and is the yells. Don't be afraid to interrupt yourself or your fair companion when you have a good yell.

Valuable Donation to Geology Museum

Dr. P. J. Farnsworth Gives Possi bility to Department

Dr. P. J. Farnsworth, for many years a professor at the Medical department of the Un iversity, has generously donated his entire collection of fossils to the Geological Museum. Dr. Farnsworth become interested in geology and palentology while still a young man beginning the study of mammals in Ver mont. He has worked in the field with such noted men as Thompson and Billings, in the region about Lake Champlain. Around Clinton he has acted as host and guide to men of no less eminence than Hall and Marshall and Walcott. During all these years of practice at Clinton he has been a close observer and an eager collector, and now the results of his life work in the field are given to enrich the geological collections of the University.

Last Saturday Prof. George and Mr. Wilson of the Department of Geology went to Clinton at Dr. Farnsworth’s request, picked the material and shipped it to Iowa City. These huge boxes of fossils, illustrating the fauna of the Niagara limestone and the Maquetaformes, as those forms are developed in the vicinity of Clinton and Lyons, have arrived, and the geological world will make a more than worthy addition to the fine collections, illustrative of the ancient life of Iowa, which the Uni versity has previously secured.

Olympian Restaurant

$100 REWARD!

The Olympian Restaurant, undergoing important alterations and Labor Day Constantine rejoices at the approach of their completion.

We will inaugurate then a system of full meals at 30, 25 and 30 cents. These will include soup, main course, bread, butter and coffee, and dessert. These meals will be first-class. He will also feature a fine line of restaurant, treats for banquets, wedding and dance parties, etc., and he will give ONE HUNDRED DOLLARS REWARD to any body finding better service in that line than he gives—anywhere in the town.

This Restaurant has recently added a marvelous piece of mechanism—a Hob Wash which cleans up 40 dishes per hour, placing the Olympian in the lead of competitors.

A New Standard of Excellence in SUITS and OVERCOATS AT $15 & $20

There are so many men who do not care to pay more than 15 or 20 for a SUIT or OVERCOAT that we have made extraordinary efforts to introduce, at our expense 15 and 20 display, a class of garments which are rarely available to the public at these popular prices. The features which these clothes excels the customary $15 and 20 grades are not confused merely to the outward appearance, the drapery and finishing style touches—but extend also to the inside work—the padding, stitching, linings, seams work—the very heart of a good wearing Suit or Overcoat.

The Variety of Fabrics, Styles and Colorings is representative of all that is New and High Class. And there is no taste that cannot be readily satisfied. We sincerely urge an examination of these garments at $15.00 & $20.00
