TOMORROW'S GAME
AN IOWA VICTORY

Hawkeye Team is Developing Rapidly

Drake Known to Have Good Team
But There is General Feeling of Confidence

Drake known to have a good team, but at the same time there is a general feeling of confidence among the players and the coaches that Drake will be licked before he knows it.

The Varsity is developing rapidly. The plays go off fast and smoothness while the men help each other along in a way that no Iowa team has ever surpassed and possibly will never equal. The Varsity showed, in its present game, a wonderful improvement over their game against the alumni.

And just the same amount of improvement over the form of the Missouri game will be shown from dormitory game against Drake.

Tommy O'Brien, he of the bucket and sponge, keeps very man in the pink of condition. There are plenty of good backs, not a quitter in the bunch, and consequently look shy to the question "What are you doing?"

Not very much is known of Drake. Comparative scores count absolutely nothing in football, Drake is always a quantity of athletes. They are alike to do anything under Doc Pat, and you can never count on their being beaten until the game is over. Look at the state he last spring was the game and how he has taken the ball that Drake always puts up against Ames. Accordingly it is legitimate to count on our beating Drake but it is also legitimate to count on a hard game. A team on their own grounds always has the advantage. Drake would likely kick in skin Iowa and so it is only common sense to figure on the Des Moines school to give us an entirely forest kind of game than which they played here two years ago, when they really played but just about five minutes.

The Varsity does all their scrimmage work against the other Iowa teams, and not the other Iowa teams, but a single Iowa team has ever surpassed and possibly will never equal. The Varsity showed, in its present game, a wonderful improvement over their game against the alumni.

And just the same amount of improvement over the form of the Missouri game will be shown from dormitory game against Drake.

Tommy O'Brien, he of the bucket and sponge, keeps very man in the pink of condition. There are plenty of good backs, not a quitter in the bunch, and consequently look shy to the question "What are you doing?"

HUNTER'S LIST

The Pledges of the Literary So- ciety Are Given

At the Hunterian business meeting Friday afternoon a number of new girls were elected to membership. The following are those who have pledged: Miss Portz, Miss Piersoo, Miss Hines, Miss Winkler, Miss Bock, Miss Flack, Miss Bening, Miss Moler, Miss Goodman, Miss Paynes, Miss Hayward.

Flowers for University Buildings

Those flowers which were planted on the campus last spring have been taken up and put out. As soon as they get in shape they will be planted on the different buildings for the winter.

Ivy Lane at Majestic

In yesterday's Daily Iowa it was stated unintentionally that the Ivy Lane dance was held at the Kesselton hall instead of the Majestic ball.

For Children Under Twelve

Children's tickets will be sold for all football games in the Des Moines school at half price except when occupying a reserved seat.

Remember New Rate

Remember the new Daily Iowa subscription rate of 12 cents for the remainder of the football season.

Dr. Albert Reports to Board of Health

Many Specimens Were Examined This Year

Work in Bacteriological Department in Various Parts of the State

Dr. Henry Albert, director of the Bacteriological Laboratory, returned yesterday from Des Moines, where he gave an extended report to the State Board of Health on the work which he has in charge. Examinations made in the laboratory during the months of July, August, and September show a marked increase over past quarters in the number of cases presented by physicians from all over the State. The advantage which the laboratory offers registered physicians in the way of skilled examination of disease symptoms is becoming more and more appreciated by those who avail themselves of it.

During the past quarter 1700 examinations were made in the Bacteriological Laboratory of the State Board of Health. Of these 290 were for diphtheria, 251 for typhoid fever, 607 for tuberculosis and 757 for miscellaneous diseases. Diphtheria—Of the 290 examinations for diphtheria, 261 were positive, 67 negative and 77 were negative and questionable. Of these 90 were for pharyngitis of which 57 were positive, 18 negative and 15 were negative and questionable. Typhoid Fever—Of the 251 examinations for typhoid fever, 56 were positive, 127 negative and 68 were negative and questionable. Miscellaneous—The miscellaneous examinations included 36 examinations of secretions, excretions and exudates; 47 examinations of water; 5 examinations of cheese, 30 of milk, 12 for gardens, and 3 for rabbits. Special examinations that have been required considerable time for investigation have been of a particularly serious nature. The most important of the laboratory is in connection with cases of hydrophobia. Early in September several people from Madrid, Iowa, acting on advice from the Hygienic Laboratory, took the Pasteur for the disease in Chicago. At the present time there are two other cases of a similar nature under examination.

The Laboratory has also been instrumental in clearing up a local epidemic of typhoid in one of the State institutions. The source was definitely determined and the local authorities are now at work on a new source of water supply. Dr. S. M. Gunn, First Assistant Bacteriologist, returned yesterday from Cedar Falls, where he went to investigate a case of typhoid fever in that city.

In the reports from the auxiliary laboratories the examinations are as follows:

Iowa State Police, Professor Boas in charge, 70 examinations, 83 for diphtheria, 11 for typhoid fever and 6 for tuberculosis.

Davenport, Dr. H. H. Docetti in charge, 57 examinations, 99 for diphtheria, 8 for typhoid fever and 10 for tuberculosis.

Sioux City, Dr. E. W. Men in charge, 35 examinations, 10 for diphtheria, 3 for typhoid fever and 10 for tuberculosis.

COMING EVENTS

Tody—Regular business meeting of Endropolis 6th this afternoon at Good Hall.

Oct. 26—University Art Club meets at 1:30 p.m. in room 109 L. A.

China : Lamps
Glassware

These are three lines of merchandise that largely draw from the selection of Wedding Gifts.

For the autumn wedding we have a personally selected array of the season's best productions, exclusive, fashionable, artistic, as you would expect us to find.

If there is any difference in price as compared with what is asked for ordinary, tactfully selected wares, your good sense will determine the value of a gift at a glance.

We preach economy because we benefit by it.
