### IOWA RANKS THIRD INCREASE OF STUDENTS

Kansas Leads, Columbia is Ranked Second

Boston Transcript Prepares Table of Statistics on College Attendance in the U. S.

The University of Iowa is ranked third in percentage of increase in number of students according to the Boston Evening Transcript for Saturday, November 9th, in which Frank B. Tracy publishes some interesting statistics and comments with reference to the attendance of the colleges and Universities throughout the United States. He says: "The total enrollment is not the main point with which we are concerned. The point is the rate of gain or loss and this percentage we are able to secure definitely and precisely." He follows up this statement with a table which states the percentage of gain or loss in attendance at the various institutions of higher learning throughout the country. There are two small schools which for special show the largest per cent of increase. They are Trinity College, with a total of 213 students, and Georgia University, with a total attendance of 473.

The three great universities with the largest per cent of increase are as follows:

	1906	1907	Per Cent Increase
Kansas	1689	1932	14
Columbia	4650	5195	12
Iowa	1968	2188	11

The table includes 41 of the educational institutions of the country and shows changes in attendance from last year varying all the way from the large per cent of increase shown above to a decrease of 8 per cent.

#### Y. M. C. A. Meets Daily

The student world is observing this week as a week of special prayer for the world wide association movement. The local Christian Association of this city meets every day noon from 12:40 to 12:55.

#### Geologists Receive Shipment

The department of geology has received a shipment of rocks and minerals from the Klamath Mts. of southwest Oregon. These materials were collected last summer by Prof. Kay while in the employment of the U. S. survey.

#### Prof. Ford to Address Baconian

At the meeting of the Baconian Society Friday evening of this week, Professor Ford will speak on the subject, "The Building of an Electric Power Station."

### BUCHTEL TO SPEAK TONIGHT

Noted Governor Will Talk on "Theodore Roosevelt"—Second Number of Course

Henry A. Buchtel, Governor Colorado, makes his first visit to the University of Iowa today. He will be greeted by a fine audience tonight if the advance sale of seats is any indication. That he will capture the hearts of U. of I. people seems assured also for according to the Denver Post he is "the readiest, wittiest, most eloquent and effective" of all Colorado's orators.

But this man is not only Governor of a great state but Chancellor of the greatest institution in her capital city. He is a tremendous favorite with his students and can be counted on to know how to talk to students.

So the audience is to meet a governor of a powerful state, a chancellor of a strong educational institution, and if this be not enough, they are to hear a lecture upon a topic which stirs the blood of every American, democrat or republican, "Theodore Roosevelt."

Best of all the proceeds of this delightful entertainment go directly to the Forensic League which cares for the the intercollegiate struggles in the realm of public speaking.

### PROMINENT LAW ALUMNUS DEAD

William H. Ridgeway of Winfield, Iowa, Died Last Week

A notice of the death of William H. Ridgeway, of Winfield, has come to the DAILY IOWAN. He will be remembered by many who were here in 1904 as a member of the graduating class of the college of law that year and as one of the most prominent in that class. As a member of the Hammond Law society, he represented them on one of their winning teams in debate with the Forum and was at one time secretary of that society. Since his graduation he has been a prominent lawyer in Henry county, practicing in Winfield.

[The debate referred to was between the juniors of the Law societies in May, 1903 on the resolution "That the merger of railroads should be prohibited." He was a member of the jury in the trial of Hamlet, in March, 1903.]

### VARSITY DEBATERS WILL BE REWARDED

Forensic Council To Provide Suitable Testimonials

Invitations For Debate Received From Several Universities Reports Read

The Forensic Council met Friday afternoon in the second regular meeting of the year. Professor Gordon, the chairman, reported that the University Lecture and Concert course had proved a financial success and would net a comfortable sum for the expenses of the League for the coming season. Fifty dollars was appropriated to meet the expense necessary to provide suitable testimonials for the intercollegiate debaters. On recommendation of the Finance Committee, Professor Gordon was authorized to purchase a bookcase, library tables and a rug for the room which is to serve as the headquarters of the League, room 311 Liberal Arts.

The Treasurer's report and the reports of the various committees indicated that the League is in a prosperous condition in every way.

Invitations for debate have been received from the Universities of South Dakota, Kansas and Missouri all of which were respectfully declined.

Saturday morning representatives from the four societies got together and laid the foundations for the inter-society debates which are to determine the University Championship.

### PROFESSOR NUTTING PREPARING REPORT

Illustrated Work on 'Alcyonaria' of California Coast

Professor C. C. Nutting is engaged in preparing a report for the U. S. government on the Alcyonaria of the California coast. This is the result of a summer spent on the west coast in 1905 when Mr. Nutting was there on a special commission for the Bureau of Fisheries.

Mr. Otto Kampmeier has made some exceptionally fine pen drawings to illustrate the minute anatomy of some of the forms treated in the work.

#### Ivy Lane Pledges

Misses Dorothy Musser, Kappa Gamma; Kathryn McCorkindale, Delta Gamma. Messrs Clifford Schulz, Phi Kappa Psi; Andrew Fedderson, Delta Tau Delta, and Ben Funk, Sigma Nu, are pledged to Ivy Lane. They will be initiated next Saturday night.

### COTILLION COMMITTEE ACTS

Patronesses Have Been Selected—No Invitations Will be Issued this Year—Other News

Most of the preliminary arrangements for the Sophomore Cotillion have been completed and everything points to one of the most successful parties ever given by the second year men.

No printed invitations will be issued by this year's committee. Always before some one has been unintentionally omitted and it is the wish of the class this year that the party be a representative social function and every one is publicly invited to attend.

The dancing programs have not yet been selected. The committee in charge is in correspondence with leading printers and engravers in New York, Chicago, Philadelphia, St. Paul and Minneapolis.

The following ladies have been invited to act as patronesses: Mesdames George E. MacLean, Mable M. Volland, Dean of Women; Max Mayer, Mark Catlin and Walter Davis.

Chairman Fowler announces the following sub-committees: Hall—W. Wernley, T. Worsley. Decorations—R. Davis, C. Coulter, C. Denio. Music—W. Collins, T. Worsley, E. Tilton. Refreshments—E. Hawkins, W. Collin. Patronesses—C. Denio, E. Hawkins. Cabs—E. Tilton, W. Wernley. Program—T. Worsley, C. Coulter.

### DEAN T. H. MACBRIDE SPOKE AT BACONIAN

Gave a Scientific Paper Before the Society

Dean Thomas H. Macbride, head of the department of Botany gave an address to the Baconian Friday night which was a very instructive and interesting discussion of the nature and purposes of a Science Studp. The speaker maintained the chief business of Natural Science was to introduce to men the world of nature in order that they might use it for certain definite purposes. The first and lower service is seen in the many practical applications of Science to man's advantage and wealth. But the higher service is in the development of intellectual life and the promotions of ideals.

#### C. F. U. to Initiate

The C. F. U. Society will initiate their new members Tuesday afternoon at 4:30 in the Knights of Columbus Halls. All members must be present.

### MAY PLAY AMES AT DES MOINES

Negotiations On to Transfer Game to Stadium

Tommy O'Brien Talks Regarding Condition of Varsity After Illinois Fray

There is a possibility that the Ames-Iowa game will be played this year at the Drake Stadium in Des Moines. Coach Catlin received a telegram yesterday from Stevenson, sporting editor of the Des Moines Daily News, asking if he would consent to the transfer, and Catlin telegraphed in the affirmative. Whether Stevenson is negotiating for the Ames authorities and whether Drake would consent to the use of the Stadium is not known, but Catlin considers that such a transfer would be advisable because of poor facilities at Ames for handling the immense crowd that is sure to attend the game.

"Wonderful! Wonderful!" was the opinion expressed last night by Tommy O'Brien regarding the condition of the Varsity eleven after the Illinois game. "That a team should play such so fierce and yet come out of the contest with not a single injury, even a bruise, surpasses anything I have ever witnessed before in my connection with big University elevens," continued O'Brien.

"When I was with Chicago I used to see Bobby Maxwell, a two hundred and sixty pounder, play what was considered fast football, but in his best days he was never in the condition that Seidel is in today, and never played such an open game as he does. Iowa's backfield came off the field Saturday tired out of course, but as good as when they went in as far as concerns injuries of any sort.

"Knowlton and Stewart are practically recovered from their ankle sprains, and Stewart's rib will cause him very little bother, if any. Both men will be in fine trim for the Ames game, which I think will be the stiffest one yet. Jack Watson, Ames' trainer, is an old man at the business and is apt to turn his eleven up in condition equal to our own."

In order to keep every man's muscles working smoothly and his wind in proper condition, the Varsity squad was sent on the field yesterday afternoon for an hour's work at "stunts." Tag and three deep were played, little sprinting matches held, and

The University authorities have decided to hold University VESPER Vesper Services this SERVICES year. These services have been inaugurated to meet a popular demand, and in order to augment the moral and religious influence of the University. While the State University of Iowa is not a sectarian school, it is, and essentially should be, a religious and moral institution. It is planned to hold these Sunday afternoon services monthly intervals.

The first of these services, was held a week ago last Sunday, but the attendance was not what was expected, or what it should have been. Perhaps this was due to the fact that some were not aware of the exact nature of the service. These Vesper Services are essentially University services and both faculty and students are cordially invited to attend. Last Sunday Chancellor Strong of the University of Kansas delivered a very powerful address. The music was also a feature of the service.

It is planned to have every service as interesting as the first. There will always be good music and men of ability and wide reputation will give the addresses. In fact the student who does not attend, misses something valuable and worth while. So, here after let us show our appreciation of these services by filling the Auditorium to overflowing.

The value of these services; is unquestionable. It brings everybody together in a way that no other meeting can. Besides, they enable us to hear exceptional talent along moral and religious topics and to receive some lasting inspirations.

**WEEKLY RECITALS ARE PLANNED**

Faculty And Students Will Take Part

Hereafter the University School of Music will give a recital in the concert room of the school every week. At first the numbers will be given mainly by the faculty but later the students also will take part. It is planned

**DO IT NOW**

to have the recitals open to the public and their relation to the School of Music will be similar to the lecture courses in the other colleges. This movement is the outgrowth of the enthusiasm of the students over the faculty recitals given last Wednesday and Thursday evenings. The music presented on these occasions will be of the highest order and will be of great educational value to the students of the School of Music, as well as to all University people.

**IOWA PHARMACY SCHOOL HONORED**

Put in First Class by New York Education Board

That the work of the Pharmacy College of the University of Iowa is upon a par with that of the best and standard American Pharmaceutical schools is soon and easily seen in the recent classification of such institutions by the New York State Department of Education.

This Department which is authoritative places all Pharmaceutical Colleges of the country into two groups and there again arranges the schools falling under each group into classes according to their standing. Under Group One in the first class is placed such Pharmaceutical schools as those of Columbia, Northwestern, and of the State Universities of Minnesota, Michigan, Maryland, Ohio, California and Iowa.

The University of Iowa College of Pharmacy is the only such institution in this state, in this class and group and also the only Iowa school holding membership in the Conference of College Faculties of the American Pharmaceutical Association.

Despite the fact that the requirements for admission have been materially increased since last year, the percentage of increase of first year students in the School of Pharmacy is thirty five per cent more this fall than that of last.

## WOULD HAVE MILK PASTEURIZED DAILY

### Dr. Albert Makes Recommendation To Cooks

Would Protect Students Against Tuberculosis—Says Animals Should Be Inoculated

That the officials of Iowa City and other municipalities throughout the state should be brought to see the need of the prevention of infectious diseases, chief of which is tuberculosis, transmitted through milk to human beings is the opinion of Dr. Henry Albert, Director of the State Board of Health Laboratory. In an article on Bacteria and Milk in the October number of the Iowa Health Bulletin he discusses at some length the danger of such disease transmission and the manner in which it should be fought. Incidentally, in an interview he advocated that the Iowa City boarding house proprietors pasteurize their milk for protection. To pasteurize the milk a five minute period of boiling the milk at a certain temperature is all that is needed and Dr. Albert strongly advises that the cooks in the many houses and restaurants where meals are served be required to pasteurize the milk regularly to protect the students from tuberculosis.

In part he says: "During the past year the Laboratory has been asked to make a number of examinations of milk to determine the probable presence of disease producing bacteria. In some cases we have resorted to animal inoculation and have been able to obtain positive results when the germs were not found on direct microscopical examination. According to conservative statistics it is estimated that about one-third of all cases of tuberculosis in the human being are transmitted in this way."

Some countries and many of the large cities, particularly in the Eastern states, make examination and application of the tuberculin test compulsory. Iowa has a law which provides for the test on imported cattle to be used for breeding purposes, but falls short when it comes to demanding a like test among cattle and in dairies within the state borders. The problem of purifying the milk supply of the public has been thus far left for each municipality to decide for itself. A year ago an attempt was made to establish the tuberculin test in Iowa City, but it was understood that either the administrative officials were not sufficiently informed on the question of the milk supply or did not take a sufficient interest in the cause of the prevention of the disease to take a positive stand. It would be well for the medical societies to bring the subject to the attention of the public and thus secure the enactment of laws which would strictly forbid the sale of milk coming from cattle not tested with tuberculin and found free from tuberculosis.

Secretary Wilson of the department of agriculture will order thousands of animals affected with bovine tuberculosis slaughtered in an effort to exterminate the plague that is rapidly assuming alarming proportions. The secretary has had authentic re-

ports and statistics relative to the spread of tuberculosis among infants, due entirely to milk consumption, and is determined to take a firm stand. Efforts to stamp out diseased milk will extend into butter and cheese. Milk that has not been inspected will not be permitted to be shipped from one state to another, through rulings of the interstate commerce commission.

The plan has been broached to President Roosevelt and has received his official endorsement.

### WORK ON ANNUAL BEGUN IN EARNEST

Many New and Novel Ideas For The Hawkeye This Year

Work has already begun in earnest on the Junior Annual and the book promises to be a decided credit to the University both in appearance and contents. New and novel ideas are being brought up for cover and arrangement. At the board meeting yesterday afternoon enthusiastic reports were given by the different department editors who have gone to work with a will and have already accomplished wonderful results.

Plans have been made for the editors to work in co operation and they will meet every two weeks to discuss their work. Material has come in from all directions but still more is wanted. All on the board are putting forth great efforts to make the Annual a great success.

Prizes for art contributions and short stories have already been announced and the art contributions should begin coming in to Mr. Howell or Miss Sandoe in three or four weeks at the latest.

## MARSHALL LAWS INITIATE

Thirteen New Members Taken in—Dean Gregory Delivers Address—The Initiates

At the regular meeting of the Marshall Law Society Friday night thirteen new members were taken in. Following is the list:

Wm. B. Hayes, Saleville, Ohio; N. M. Field, Lake City, Iowa; C. F. Harding, Odebolt, Iowa; Miss Mabel L. Eggert, Charles City, Iowa; Miss M. Imogen Benson, Ames, Iowa; Charles R. Rowe, Sac City, Iowa; P. P. Black, West Liberty, Iowa; E. L. Edmondson, Columbus Junction, Iowa; F. O. Keone, Dunkerton, Iowa; Frank G. Pugsley, Toledo, Iowa; J. H. Campbell, Battle Creek, Iowa; J. A. Nelson, Prosper, Minn.; Verner G. Gabrielson, Harcourt, Iowa.

Dean Charles Noble Gregory delivered an interesting address on Benjamin Disraeli; the English jurist and novelist.

In the business meeting the proposition of purchasing a piano for the society hall was considered.

Attorney Stevenson, a graduate member of Iowa City, consented to be present next Friday night to preside at the mock trial which will be given.

From now on there will be one mock trial given each week.

After initiation several others were elected to membership.

## GOVERNOR BUCHEL SPEAKS TONIGHT

Character and Patriotism of the Highest

Governor Henry A. Buchtel, D.D., LL.D., the second number on the lecture course, will speak at Science Hall this evening. A sign of Gov. Buchtel's intelligence, his virility, his character, and his patriotism is that he has been a foreign missionary, evangelist, church builder, literature, and pastor and is at present Chancellor of the University of Colorado and Governor of his state.

His lecture, "Theodore Roosevelt," which he gives here has been received by all audiences with enthusiastic demonstrations of applause. Rev. J. B. Trimble, D. D., of Sioux City, has the following to say: "Chancellor Buchtel's lecture is a worthy tribute to the individuality, conviction, courage and world admired manhood of President Roosevelt. It is a great lecture and one that I wish every student constituency in our land could hear."

## MAY PLAY AMES AT DES MOINES

(Continued from page one)

all the goal kickers tried out their toes. Following this O'Brien gave each man a careful and thorough rub-down. The Freshmen scrimmaged with the high school and swamped them by a large score.

Permission was given the Varsity men by Catlin and O'Brien to attend the theatre last night, but this will be their last evening out until the Ames game is recorded in history. From now on the men will be required to train even more consistently, if it is possible, than they have hitherto.
