## THEODORE ROOSEVELT IS BUCHTEL'S TOPIC

### Second Number of Lecture Course is a Success

Roosevelt is Most Influential Man Living on the Earth is Leading Thought

Governor Henry A. Buchel, D. D. LL. D., spoke before a large and appreciative audience in the Hall of Natural Science last evening on "Theodore Roosevelt." This was the second number of the Forensic lecture course which promises to be one of the best courses ever given in years. The Governor said in part as follows:

"Theodore Roosevelt is the most fascinating and the most influential public man living on the earth in our time. In his own person we see an embodiment of the most conspicuous character in the life of the nation; that is to say, he is a fine composite in blood and training. He is one part Dutch, and one part Scotch, and one part Huguenot and one part Irish. That means stability of character and intellectual vigor and enlightened conscience and fire. Then his father was a northern man and his mother a southern woman. So he is the beautiful composite in blood that we have ever had in the presidential chair. And it is this which is the most conspicuous characteristic in the life of this nation. We have the best blood and the best brain from everywhere, commingled together here. That then gives us a certain hospitality to new ideas—unmatched in the history of nations.

"Roosevelt adopted two fundamental principles of his life when he was a young man. First, to be straight and honest and square, and never to be a party to any program that involved a color of dishonor. Second, to study to find points of contact with other men rather than points of divergence from them. His whole career has came out of the adoption of those two principles of action.

"The four maxims of which Roosevelt has adopted for the guidance of his life are:

1. It is better to be faithful than famous.
2. When in doubt, go ahead.
3. Have all the fun you can decently and honestly, it is your right.
4. Be ready. Do not get ready, be ready.

### Cabinet Met

The Y. W. C. A. cabinet held its regular weekly business meeting at Close Hall yesterday at 4:30.

## PLAN FOR FRESHMAN SOCIAL

Games and Dancing for Entertainment—Pres. MacLean and Dean Weld to Talk

All arrangements have practically been made for the Freshman Social to be held in the Armory next Friday evening. A large attendance is expected and the event promises to be one of the most enjoyable affairs that Freshmen have had an opportunity to attend.

It was primarily the purpose of the committee in charge to make the gathering one at which all members of the class would have an enjoyable time; a function at which they would meet their classmates and form new acquaintances. With this object in view, the committee has arranged for a series of games which will include cards, "Pit" and "Flinch," for those who do not dance. The rest of the floor will be given over to an informal dance.

During the evening both President MacLean and Professor L. G. Weld, Dean of the College of Liberal Arts, will address the class. A short musical program by Miss Marie G. Rogers, L. A. '11, and Mr. Walter E. Stover, L. A. '11, will follow.

Mesdames George E. MacLean, L. G. Weld, Mable M. Volland, Dean of Women, and Thomas H. MacBride have consented to act as patronesses of the evening.

## ENGINEERING SOCIETY HOLDS MEETING

### Interesting Discussion on Electric Traction by Mr. Biegler

The Electrical and Mechanical Engineering Society held their regular meeting Monday evening and elected officers in addition to the regular program. Mr. Biegler gave a very interesting discussion on the "Development of Electric Traction." He spoke of the progress made in this industry, tracing its development from the earliest street car to the modern interurban system. After the program, the election of officers for the next two quarters was held. The following men were chosen. President, Ogg; Vice President, Puckett; Secretary, Wagner. The next meeting will be held two weeks from Monday night at which time the members of the Transit Board from the society will be elected.

### Polygon Meets Tonight

Tonight Polygon will be entertained by Miss Ina Knerr. It is a very important meeting and all members are urged to be present.

### Weather Forecast

For Iowa City and vicinity—Generally fair and warmer today.

## JUNIOR PROMENADE COMMITTEE CHOSEN

### President Buckner Made Selection Yesterday

Prom will Probably be Held in February—Committee to Meet Friday—Dates

Preparations for the annual Junior Prom began yesterday when President Chester A. Buckner of the Junior class appointed the men who will superintend the giving of the annual social function. The committee will hold its first meeting Friday when a chairman will be selected.

The committee will be composed of the following men: Burr A. Brown, Delta Tau Delta; Marc S. Oliver, Sigma Chi; R. E. Smith, Phi Delta Theta; E M. Cassady, Sigma Nu; R. A. Flickinger, Kappa Sigma; William Carberry, Sigma Alpha Epsilon; J. C. Hollman and C. D. Kiger.

Following the Friday meeting at which a chairman will be elected there will be a conference of the representatives of the different party committee chairmans, and representatives of other organizations giving entertainments etc., this school year and a schedule definitely arranged to be followed until next June.

Already the day for the Cotillion has been definitely set for Dec. 6th and it is probable that the Military Ball date will be set for the week following the Christmas holiday as it is understood the Military committee will ask for either January 10 or 17.

The Junior Prom will probably be scheduled either the Friday preceding or the Friday following February 21st. The Pan Hellenic will likely come April 24 and the Senior Hop on June 17.

## HAWKEYE BOARD TO HAVE SPECIAL ROOM

### Manager Oakes Succeeds in Geting Facilities for Work

J. F. Oakes, the business manager of the Hawkeye has secured room 1 A in the basement of the Hall of L. A., for the use of the board members. All contributions may be handed in there and any one wishing for information may go there for it. At present the room will be open all day but later definite hours will be set.

### New Lamps for Laboratory

Six new electric lamps of a fine style have just been installed in the zoological laboratory of the new Science hall. The lamps are adjustable and will be especially adapted to microscopic work.

## DR. BOLTON WRITES ARTICLE

### Alumnus' Prints Article on School of Education, Its History and Professors

The first number of the Iowa Alumnus this year contains an article on the new School of Education of the State University of Iowa, written by Professor Frederick E. Bolton, director of the school. The first section deals with the history of this department and the second with the establishment of the present school. The University of Iowa has the distinction of having established the first department of education in a university in the United States. This department was established in 1862 and Professor D. Franklin Wells was placed in charge. Michigan established the next department.

The article gives the names of the various persons who have been connected with the department from its beginning up to the present time. It also indicates the place which the department has occupied in its relation to the University and to the public school system. Among the names mentioned as having been connected with the department are the following: Professor Wells, 1862 6; Professor Fellows, 1866-88; President Pickard, Professor Patrick and Professor Loos, 1888-90; Professor Frank B. Cooper, 1890-1; Professor McConnell, 1891-1900; Professor Bolton 1900-1907. During recent years the following names also appear: Professor Brown, Professor Ensign, Professor Dorcas, Dr. Buffum and Dr. Williams.

At the close of the article are set forth the pressing needs of the new School of Education. These include a building set apart exclusively for the School of Education, a model school in charge of the several of the most superior high school teachers that could be found, better apparatus and equipment. The present quarters were provided for the department when it was small. In 1900 there were about 60 students, at the present time there are about 240 different persons enrolled, thus making the present quarters inadequate.

### Freshmen Basketball

All Freshmen Liberal Arts interested in basketball are urged to meet in the assembly room this afternoon at 4 o'clock.

The meeting is called for the purpose of getting the class members interested in the new Basketball League which is being organized by Mr. Schroeder.

A great many of the "Freshies" have had experience in the high schools and it is thought that they will be able to organize a strong team.

### Political Science Club to Meet

The Political Science Club met at Mr. Rich's Monday night. Professor L. M. Byers read a paper on "Oaths."

## SPECIAL TO AMES; GHOST BALL TONIGHT

### Board Will Make Arrangements for Reduced Rate

Varsity and Freshmen Scrimmaged—Players Discovered it was Catlin's Birthday

On provision that the athletic board guarantees 150 students going to Ames to see the Iowa-Ames game, a special train will probably be chartered and a round trip fare of $5 obtained by the board. The train will leave Cedar Rapids at 9 o'clock on the morning of Nov. 23rd. Persons who make the trip may leave Iowa City any time Friday evening or early Saturday morning and catch this special train. It is up to the students to take advantage of this excursion rate and make good the guarantee which will likely be promised by the athletic board.

The athletic board meets tonight to discuss matters of interest at this time. The question of taking the Freshmen team to Ames will probably be decided. The first year men have had an excellent team this season and have worked faithfully.

Practice last night on Iowa Field resembled the days before Illinois. The Varsity was full of ginger and scored several touchdowns on the Freshmen. Hazard and Hammer worked at full back and Knowlton and Murphy at left half. Stewart occupied quarter. Several new plays have been developed and were tried with excellent success. The Freshmen succeeded in scoring twice, Dean catching a forward pass and running thirty yards for the touch-down, and Weeks crossed the line after two long plunges through tackle. Scrimmage lasted until 5:30 o'clock, after which the Varsity again rehearsed signals until darkness rendered further play impossible.

The ghost ball is at last to come into use on Iowa Field. O'Brien has had two balls coated with white lead and beginning tonight they will be used each evening as soon as dusk renders the ordinary football hard to distinguish. With a new moon and a white ball the system ought to work well the next week. Evening signal practice will be held every night this week in the gymnasium.

A little side comedy was enacted on the field last night when the players discovered it was Coach Catlin's birthday. It was free-pile-on and a series of resounding whacks followed. After finally extracting himself from the melee Catlin vowed he would

**IOWA COMES INTO IT'S OWN**

With but one man on the 'Varsity of two years experience, Iowa has once more taken the prominent position which it formerly occupied in western football. The conditions of the new game have successfully been met by the 'Varsity and the coaches. We have suffered one defeat but it was certainly wiped out Saturday beyond question. One game remains on the schedule, undoubtedly the hardest, but without taking it into consideration, Iowa's claim to a high rank among the conference elevens cannot be disputed.

Looking back over the seven years since the renowed team of 1900 we see many players of sterling worth and never a quitter. The upheaval in the conference rulings were perhaps as disastrous to Iowa, if not far more so, than to any other schools. But notwithstanding this Iowa has retained the state championship with the exception of last year when it was lost by the margin of but two points. During this time not a single man has represented "Old Gold" who was not a bonafide student in good standing, and there is not a single student now but will praise the University authorities for the advanced stand which they took, now that Iowa has "come into her own" again.

**INTERCLASS BASKETBALL**

Interclass basketball should attract great attention at this time of the year These contests embody the essential principle which is the basis of college sports and for that reason, if no other, should be encouraged. Participation in these contests entails lots of healthful exercise; the contests give the advantage of training for competitive contests; they create a friendly rivalry between classes and colleges and augment the enthusiasm for varsity basketball.

## UNIVERSITY SENATE CONFIRMS RULES

### Social Regulations Are Formally Adopted

At the second monthly session of the University Senate consisting of thirty-eight members representing the administration of all colleges except the schools of Dentistry and Homeopathic medicine, the recommendation by the Board of Deans in regard to social regulations was confirmed They are as follows:

1. The president or chief officer will be held responsible for the execution of the rules in his own organization. This does not exempt others of the organization from responsibility.

2. Notices shall be sent to the several student organizations, which notices shall include (1) a copy of the rules and (2) that the chaperon's name must be reported before the date of the party, and that the president or chief officer of each organization will be held responsible for the execution of these rules.

3. That there be appointed a social committee of the Senate to consist of the President of the University, the Dean of Women, and one representative from each college, and to such committee be confided the enforcement of the Social Regulations of the University with power to administer discipline in cases of violation of the same.

On motion it was voted that the nomination of members of the social committee be left to the several faculties.

The Board of Deans reported that the holding of Monthly Vesper Services was advisable. This was approved.

An invitation to be represented at the inauguration of President Thirkfield of Howard University, and the celebration of the fortieth anniversary of that institution on November 14 and 15, 1907, was received and on motion was referred to President MocLean with power to act.

# SHAMBAUGH MAKES HISTORICAL FIND

## Discovers Autobiography of Governor John Chambers

### Papers Throw Much Light on Early Iowa History—May Write Biography

Professor Benjamin F. Shambaugh has discovered some valuable papers and letters which have an important bearing on the early history of Iowa. Mr. Shambaugh has just returned from Kentucky where he went for the purpose of looking up materials for a biography of Governor John Chambers. The papers he found there in his search are of great historical value and promise to parallel the great discovery of the Robert Lucas papers two years ago. These Lucas papers, it will be remembered, were discovered by Mr. John Parrish, and were regarded as the most important papers bearing on Iowa history in existence at that time.

Among the most important items brought to light by Mr. Shambaugh is an autobiography which has been preserved in the handwriting of Governor Chambers. This autobiography contains a complete outline of the private life and public services of the former Governor. The manuscript was brought back to Iowa City by Mr. Shambaugh and is now under lock and key. It will probably be published by the State Historical Society of Iowa in the near future.

An oil portrait of Governor Chambers was also discovered in the possession of a grandson at Louisville, Kentucky. Two miniatures on ivory framed in silver were also found, one being a portrait of Governor Chambers, the other, a portrait of Mrs. Chambers, his wife.

It is probable that the result of this discovery of letters and papers will lead the Historical Society to plan a biography of Iowa's second Governor.

Mr. Chambers spent four years as Governor of Iowa here in Iowa City. His office was in the Old Capitol Building, probably in the very rooms now occupied by President MacLean. Below are extracts from a biographical sketch taken from Shambaugh's "Messages and Proclamations of the Governors of Iowa," Volume I:

"John Chambers, the second Governor of the Territory of Iowa, was born at Bromley, Bridge, Somerset county, New Jersey, on October 6, 1780. His father, who was of Scotch-Irish descent, served in the war of the American Revolution. When John Chambers was fourteen years of age the chambers family removed to Mason county, Kentucky.

"In 1800 John Chambers was licensed to practice law. His career as a lawyer was quite successful. At one time he embarked in the business of manufacturing, but incurred heavy losses. In 1803 he married Margaret Taylor, who died three years later. In 1807 he married a sister of his first wife. During the war of 1812 he served on the staff of General William Henry Harrison, with whom he campaigned later in the famous presidential campaign of 1840."

Chambers held many civil offices, serving in the State legislature of Kentucky, and in the House of Representatives at Washington, D. C.

He was commissioned Governor of the Territory of Iowa on March 25, 1841. He died on September 21, 1852, at the age of seventy-two.

## IOWA IS ENTITLED TO SECOND PLACE

### If Wisconsin Only Wins From Minnesota

Under date of November the eleventh the Madison correspondent of the Chicago Record-Herald writes: "Expert mathematicians have figured out that the Badgers will be entitled to second place in the Conference if both Purdue and Minnesota are beaten." We pride not ourselves in our mathematical ability nor do we need the assistance of one to show the relative merits of our claim to rank above Wisconsin. Illinois demonstrated her superiority over Wisconsin by a score of 15 to 4; Iowa out-played Wisconsin and it was only by a lucky chance that the Badgers were able to turn defeat into victory, and it was not one of which to boast superiority; Iowa then came back at the conquerors of Wisconsin and gave them a good, sound beating by the decisive score of 25 to 12. Does not this entitle Iowa to to the claim of superiority over both Wisconsin and Illinois? Surely it does not require the services of an "expert mathematician" to decide that Iowa has demonstrated herself to be entitled to a ranking above both Wisconsin and Illinois. To an observer of the Iowa-Illinois and Wisconsin-Iowa games the team from Illinois seemed much stronger on offense than Wisconsin with the teams about a standoff on defense. Every loyal rooter of the Old Gold hopes that Minnesota bows to the Cardinal when they meet and that Iowa will then be ranked in the Big Eight. Incidentally it might be mentioned that Iowa has two men who are candidates for the All-Western and are entitled to recognition. These men are Kirk, the right half and Seidel, the giant left guard. Seidel played circles around the much touted and overrated Van Hook. S.

## PRESIDENT MAC LEAN TO ADDRESS D. A. R.

### Will Speak in Des Moines Before Local Chapter

The Abigail Adams chapter of the D. A. R. at Des Moines has issued its program for 1907-08. Among other prominent speakers who will address the order during the year is Pres. Mac Lean, who speaks May 11, 1908. On that date the chapter will be entertained by Mrs. Oliver J. Fay, Mrs. E. C. Mills, Miss Martha Stone and Mrs. L. J. Slye.

GET THE HABIT
of going to Dancing Assembly at Majestic Hall every Saturday night.

## MAKER OF TOUCHDOWNS

GROSS

Iowa's heavy right tackle is one of the fastest men on the squad. He was the maker of touchdowns in both the Wisconsin and Illinois games. On the offense he carries the ball for good gains. This is his first year on the varsity squad, his previous experience being on last year's fresman team.

## SPECIAL TO AMES; GHOST BALL TONIGHT

(Continued from page one)

work the men until midnight as a revenge.

Catlin will go to Cornell Saturday to referee the Cornell-Grinnell game. Nyle Jones, ex-captain of the Hawkeye eleven will officiate as umpire. Several of the Varsity are planning to attend if the coaches will give them permission to go.

## DRAMATIC CLUB HAS MORE TRY-OUTS

### Were Held Last Evening—Professor Hunt Gets Plays

Last evening the Dramatic club held their regular weekly meeting in Room 315. Several people "tried out" before the club, and afterwards names of new members were discussed. Several plays are to be considered, among these "Rosemary" and "Mice and Men." They will be procnred from England.

## BAND CLEARED OVER SIXTY DOLLARS

### Receipts from Hop to be Divided Among Members

The net receipts of the band hop Saturday night were $63.00. This will be divided among the members of the band. The placing of the band on a military basis has proved highly satisfactory. Private Irish has been appointed a sergeant to fill a vacancy.

## PROFESSOR WILCOX GOES TO KNOXVILLE

### Will Speak to Marion County Teachers Next Friday

On Friday, November 15, Prof. W. C. Wilcox will leave for Knoxville, where he will address the teachers of Marion county. The subject of his address will be "TheEducated American Girl."

Last Friday evening Prof. Wilcox delivered the second of his series of "Unelected Presidents of the United States," at Boone, Iowa.

--BOYS--

How about that new snuff colored Telescope?

—Are you in the market for one?

—We have 'em in the Stetson at $3.50.

—If you want to spend $3 just try a Beacon; beats anything on earth at the price.

—We're easy to get along with, as we sell them all.

KNOX, $5.
STETSON, $3.50;
BEACON, $3.
CHAMOIS, $3.
VOLK, $3.
GANSBURY, $2.50.
WILLNER SPECIAL, $1.90.

—A strong IOWA line-up, isn't it?

Directors—Peter A. Dey C. S. Welch, Mrs. E. E. Parsons, J. L. Turner, E. Bradway, A. N. Currier.

Olympian Restaurant

$100 REWARD!

The Olympian Restaurant is undergoing important alterations, and Landlord Constantine rejoices at the approach of their completion.

He will inaugurate then a system of full meals at 20, 25 and 30 cents. These will include soup, meats, vegetables, bread, butter and coffee, and dessert. These meals will be first-class. He will also feature in his fine new restaurant, feasts for banquets, wedding and dance parties, etc., and he will give ONE HUNDRED DOLLARS REWARD to anybody finding better service in that line than he gives—anywhere in Iowa.

This Restaurant has recently added a marvelous piece of mechanism—a Dish Washer which cleanses 4000 dishes per hour, placing the Olympian in the lead of competitors.
