IOWA MAY PLAY FIVE STATE UNIVERSITIES

KANSAS, NEBRASKA, ILLINOIS, MISSOURI AND MINNESOTA

Though Five Game Role Revers Iowa Will Have First List of Games Next Fall

Although the first genie role reversal games will have one of the best schedules in years, with five State Universities on it according to present indications. It is possible that the 1906 Hawkeye elevens will meet the University teams from Kansas, Nebraska, Illinois, Missouri and Nebraska.

The results of the Southeastern district of the Iowa League, held last week, show the splitting of the teams won with points by the University, for the winning teams were coached by Hawkeye coaches.

In the Burlington-Muncie contest the former team was successful in obtaining the unanimous decision of the judges. H. W. Barnes, A. M., has been taking the teams all season. With a student in the University he was an active participant in all of the big school games and is a member of the Zetelengius Literary Society.

The Iowa City High School also received the decision of the judges over the Grinnell team. Mr. E. H. Stagg, a senior in the College of Liberal Arts, has had charge of the local trio. Mr. Stagg is a member of the Zetelengius Literary Society and has been a very successful under his direction.

SECOND NUMBER OF MIDDLEIOWA OUT

Publications of Medical Students Appears

The second number of volume eight of the Middle Iowa, the medical publication of the Colleges of Medicine, came off the press last week.

The frontispiece is a splendid lithograph of the new tuberculosis sanitarium which the state has just opened near Des Moines.

The treatment of the "white plague," and one of the interesting articles is its statement on air treatment of the disease, by the superintendent of the hospital, E. R. Krueger.

An illustrated article on the "History of the University Hospital" which this year celebrated its first decennial birthday by opening a new fireproof wing from the pens of the Drs. Fope and L. W. Dana.

Dr. Aiden R. Hoover, '05, tells of medical work in Affrican Tur.

Prof. W. F. Testers has an article on "Chinchina and its Alka.

Dr. H. J. Prossin, who really appreciates what the Iowa Spirit does when rightly applied, pre

scribed a large dose cure of the disease. It is a matter of encouragement.

Two Games With Missouri

The University of Iowa base ball team will play two games with the University of Missouri next week, the games being April 14 and the return contest April 25.

BASKETBALL SQUAD SHOWS MUCH GINGER

Hard Practice Necessary for Missouri Game Thursday

Coach Griffith Drove Men at Top Speed Yesterday—Five Shows Much Improvement

During the drivings at top speed yesterday afternoon Coach John G. Griffith worked the Iowa basketball squad into a feverish condition, the hour and a half hour's scrimmage with excellent results. The men have reorganized their form, which was rough and lumberous Grimmon contest on top of the hard Chicago game and are rounding into good condition.

Tomorrow the team will be given a light work-out, Tuesday evening they will play with more pieces in earnest, but on Wednesday the men will be given almost a complete game by Captain Buckner who was visibly state after the Chicago game is improving and Missouri, who will not be in the best of form. The rest of the team, a fine guard yesterday afternoon, evening it will forward closely in the scrimmage.

The men are getting the proper prep- pany and last night with a satisfied smile.

They are improving rapidly and should be in pretty good shape by Thursday. They are still weak in baskets but I hope to remedy this before long.

The other game in which Mark will be next at the mark will be played the forenoon at the best of Missouri by the men and I will figure it right there by Thursday to trim the Missouri team al.

The first game was given a great performance of the men and I will figure it right there by Thursday to trim the Missouri team all.

The second game was given a great performance of the men and I will figure it right there by Thursday to trim the Missouri team all.

The second game was given a great performance of the men and I will figure it right there by Thursday to trim the Missouri team all.

Wolf; Reading: History, Horace C. Young; reading, Anna Casey; declamation, Mr. Hopkins; piano solos: Lillian Martin, Margaret Dees; Miss McGee; optional, E. W. McMammam; address, Hon. W. J. McDonald; duet, Minnie Lewis.

THE JANUARY ALUMNI OUT

Contains Biographical Sketches and Large Amount of Greater University Material

The January number of the Iowa Alumni was issued last week. This month's number has many novel and interesting features. A fine, large cut of the Prof. Charles S. Magowan occupies the frontispiece and is followed by an appreciation and biography of him by O. H. Harmsworth, L. A. '96. The article contains praises of Prof. Magowan by President George E. MacLean, Dean Raymond, and many other friends and colleagues. Professor Judge M. J. Wade has an article on John Burke, Governor of North Dakota. Governor Burke and Judge Wade both are alumni of the College of Law. An excellent cut of Governor Burke accompanies the article.

Mrs. Volland, Dean of Women, has received a commission in regard to a Woman's Building and President MacLean's song, "The Greater University" appears in this issue.

Under the editorial heading is an account of the county club organization and their reunions. The editorial which appeared in the Daily Iowan on "Success of County Clubs" also appears in this issue of the Alumni.

WOMEN HAVE GREATER ENDURANCE," STARBUCK Philosophy Professor Addressed.

Bellevue Friday evening.-"Men excel at first in skill and accuracy but women have greater endurance," said Professor E. D. Starbuck Friday before the Baconian on the "Comparison of the Mental Capacity of the Sexes." Men excel in all that which requires a localization of interest and attention upon a specific object while the mental life of women is more unified and self consistent. Women are superior in all memory experiments, are more sagacious and are more highly developed in the feelings and sentiments.

"A more fundamental law is that women conform more closely to the racial type than do men. The woman is the race" (Warren).

The variations in men from the type are greater in almost all respects. Among them there are more geniuses, criminals, freaks, intellectual incapacities and deformities. The differences are chiefly due to specialized and conditioned function and function to answer the needs of different environments and variations rather than a matter of superiority."

Betta's Dead-Phi Psi

The Betas defeated the Phi Psi 37 to 3 at indoor baseball last night in a remarkable 1½ inning game.

HIGH SCHOOL PLANS

Sub-Committee

Tomorrow.

Extensive

Made for the

in May.

Owing to the small number of members of the sub-committee with Athletic Club last year, the desire this year to have the school meet is to give the students the usual high school type. The regular class of 17, the upper seniors of the three high schools, the Lotus girls, will meet as usual. The organization is regarded by some of the seniors as somewhat of a disappointment already being active in the United States. For conducting college use generally, it has been found to be the most successful method.

The meet will be held by the Old Boys' Club, the direct member of the high school and the meet will be held as such.

Plays, poems, songs, and other reading will be the principal features of the evening.

These are the only things held by the Old Boys' Club at present. President is L. 0. Montgomery; Vice President, L. 0. Montgomery; Secretary, L. 0. Montgomery; Treasurer, L. 0. Montgomery; Custodian, L. 0. Montgomery.
