Owing to the illness of one member of the committee the sub-committee of the Board of Athletic Control did not meet yesterday afternoon to arrange the details of the coming high school meeting at the University to give this spring in May and which takes the place of the small high school meet at the University. The regular state event will be held at Des Moines under the auspices of the Des Moines high schools but because of the superior facilities here and the attractions offered to the high school students it is expected that the invitation meet will be the larger affair.

The sub-committee which is composed of Charles A. C. Gilbert, of the Board of Trustees, Josephine Powers, of the Board of Education, B. Byers, and Manager Mark Cutts will meet Wednesday afternoon and outline a definite policy in regard to the invitation meet when it now seems an absolute certainty.

Already the committee has been active and has written to the universities of Wisconsin and Minneapols for information concerning the conducting of the meets in those college towns and with the suggestions of the committee plans will be formulated including the best features of the scholastic meets held in other states.

The meet that is planned to give will eclipse the state meets held here in the past three years at the University will have the direct management and not the high school Athletic Association. More money will be spent, better prizes offered, and several other inducements presented to the high school track teams. It is anticipated that within a short time printed pamphlets will be distributed to the high schools being the details of proposed invitation meet here.

TAKE UP CORPORATION PLAN

Greater University Committee to Consider Iowa Union Corporation

With the view of putting the Iowa Union on a firm basis, the Greater University Committee at its meeting tonight will consider the Union corporation scheme recently suggested. Sub-committees will be appointed to investigate the advisability of starting the men's club house by this method. It is expected that a good business like plan will be formulated for interesting the alumni and student body in the central club house proposition.

Many other live questions will be taken up by the committee including the University Hospital fund, the college song book, the financing of the Greater University Committee, the practicability of getting the Commercial Club of Iowa City to join in the booting movements, etc.

The Union plan will consider most of the meeting probably and the actual starting of the plan will receive serious consideration. So far the Union idea has been agitated and it felt by the committee that someone should now move to start the campaign for funds to erect the club house.

What do you think about a corporation plan for the Iowa Union? Is it the best way to obtain a Union? If it is feasible and if it is the best plan for an Iowa Union, have you anything in the way of a specific corporation plan? These are just a few of the questions that every one of us is responsible for solving and solving right.

We must get a definite start in the work of materializing our Iowa Union. And if you take a few minutes off from dodging in gripes and preening for exams and think this Iowa Union deal over you will find that we know that the corporation question is one of the very first things to be tackled.

It's a big problem, this going after a Union. It's not exactly on the same scale as the organization of a Johnson college fair or the train work back of a horse race. To get an Iowa Union of the size and quality you must get a big house and so much money must be raised. Now here is the name of the poverty-stricken average moral can a sum of money that will go up to thousand be raised? So the corporation plan comes up. Think it over, talk it over, send in your suggestions to the Greater University Council. They will put the issue up to the student body to decide.

Corporation group seems to be in favor of the "Corporation Plan." However, such a plan is a bit out of scale. All we mean is that Chicago University and others have Unions on this basis. If they can do it, we can.
