PREPARE FOR ANNUAL PROM

Committee Actively Engaged In Making Preliminary Arrangements for Big Formal

Plans were discussed by the Prom Committee at its meeting Sunday concerning the dances and music. Dunkel's Orchestra has been engaged and new music will be used, some of the latest "hits" in the east having been sent for.

A general color scheme has been devised which will be followed in the decorations and programs.

The patronesses have been selected but will not be announced until their acceptances have been received.

The dark dances will be especially chosen this year and the committee intends to enlarge this pleasing feature.

Another meeting will be held in the latter part of the week at which some definite action will be taken to complete the plans.

NEGOTIATIONS OFF WITH CORNHUSKERS

Nebraska Writes It Cannot Schedule Football Game

Nebraska cannot play Iowa next fall. Yesterday Manager Mark Catlin received word from Manager Eager of the Cornhuskers that the Nebraska schedule was so arranged for next year that it would be impossible to hold open the two year contract recently offered to Iowa. The news was a distinct disappointment to the local study body for the game with Nebraska had aroused high hopes for future athletic relations between the two schools.

STUDENTS' CLUB AT CHICAGO IS POPULAR

Its Social Advantages Many And Valuable

Maroon Editorial Exploits Benefits of Club—A Counterpart to Agitated Iowa Union

In view of the present agitation in regard to an Iowa Union here an editorial appearing in the Daily Maroon commending the advantages of the Reynolds Club, a sort of Students Social Organization at University of Chicago which is reproduced below, will serve to exploit the benefits of such a club at Iowa. The clipping is as follows: "The Reynolds Club is a social necessity. 'You can't be anybody if you don't belong to the Reynolds club' a senior was heard advising a freshmen the other day. The social privileges of the club have always outranked any others in the University. Four of the club's appointments include informal dances, while two are for informal stag smokers. The 'hard time party,' the informal, the president's reception, and the 'leap year' dance are opportunities which the undergraduate in particular cannot afford to lose. No time during the quarter will the opportunities be given to 'mix' with several hundred congenial varsity men as in the two Reynolds Club smokers. Ample example of this might be cited in the fact that the entire undergraduate membership of several fraternities is included in the roll of Reynolds Club members.

"Extensive improvements have marked the opening of the quarter. Billiard and pool tables and bowling alleys have been thoroughly overhauled and made as fit as any club tables or alleys in the city. The club's plan of installing a permanent check room in the basement will prove of great convenience to every member. The purchase of new furniture will add to the comfort and appearance of the club. The start of the bowling and billiard and pool tournaments, with many other features new even to the busy winter season, will make the club especially attractive."

PREPARATIONS FOR PLAY

Dramatic Club to Give Play February Thirteenth—Dr. S. Gunn Assists

The date for the Dramatic Club play has been definitely set for Thursday, the 13th of February. With two weeks and a half before them the cast is working systematically and regularly and are rapidly getting the play into excellent shape.

Dr. Selskar Gunn, who has charge of the rehearsals now, is very well pleased with the progress which is being made.

Miss Ethel Elliott will take charge of the rehearsals next week.

POSTPONE BUSINESS UNTIL AFTER EXAMS

Greater University Committee Makes Decision

At the meeting of the Greater University Committee last night the important matters of business were postponed until after examinations. Sub-committees were appointed to investigate and collect as much information as possible concerning the questions before the committee before the next meeting on February 11. Unanimous sentiment was expressed in favor of pushing the Iowa Union idea and devoting the energies of the committee principally to this proposition. Successors for Dr. Henry J. Prentiss and Will Riley will be appointed by President G. E. MacLean before the next meeting of the committee. The former resigned because of press of work and the latter will probably be compelled to leave the University on account of ill health.

BASKETBALL SQUAD FINISHES PRACTICE

Team is Ready for Missouri Tomorrow Night

With a long strenuous practice last evening, Coach Griffith wound up the work for the basketball squad in preparation for the Missouri game. The team has shown wonderlul improvement since the Grinuell game and the spectators will witness a contest worth seeing tomorrow night.

Tomorrow the members of the squad will be given a complete rest from all practice, thus putting them in the best of condition for Thursday evening's game.

The line-up of the team is still in doubt and nothing definite will be known as to what positions the men will play until the game starts.

MOVEMENT FOR A NATIONAL UNIVERSITY

President MacLean Returns From Notable Meeting

Government to Be Asked for Half a Million—Plan As Formulated

President George E. MacLean of the State University of Iowa, has just returned from Chicago where he has been attending two notable meetings. One was a meeting of the National Association of State Universities; the other was a meeting of the National Society for the Advancement of Industrial Education. At a preceding meeting of the National Association of State Universities, a committee was appointed to promote the establishment of a National University. This committee consisted of President James of Illinois, President Thompson of Ohio, and President Baker of Colorado University. This committee reported to the meeting of the Association which has just closed, a bill which will be presented to Congress for an act to create a National University at the seat of Federal Government. With the sentiment which seems to exist in favor of such action, it seems probable that this bill will become a law. By this bill it is proposed:

(1). That no student shall be admitted to the National University unless he shall have obtained a degree of Master of Science or Master of Arts, or have pursued studies equivalent to those required for such degrees.

(2). The University shall confer no academic degrees.

(3). The University shall be governed by a Board of Trustees, consisting of the Commissioner of Education of the United States, and twelve members appointed by the President, and by an Advisory Council composed of one representative from each state in the Union which representative shall be the President of the State University if there is one, otherwise someone appointed by the Governor.

(4). That the sum of $500,000 be appropriated by the U. S. for the use of said University during the fiscal year 1908-9.

The sum of one-half million dollars seems a modest request to make of the Federal Government for such a University. It is not contemplated that much new in the way of buildings will be need-

TROUBLE AT OTHER SCHOOLS

We have been having some mild trouble in the way of athletics ourselves. The "Ames-Willett broken-relation-apoology" affair did cause quite a ripple on the smooth surface of Iowa athetics.

But talk about trouble, look at the Universities of Michigan and Illinois. They are having a frenzied debauch on it. Michigan has withdrawn from the Conference and is divided on it itself on that account. Part of the student body supports the withdrawal as means of more open athletics, as a means of getting more big eastern games, to give certain prominent athletes another year of competition and finally as a matter of pride in sticking to Michigan's stand of last year.

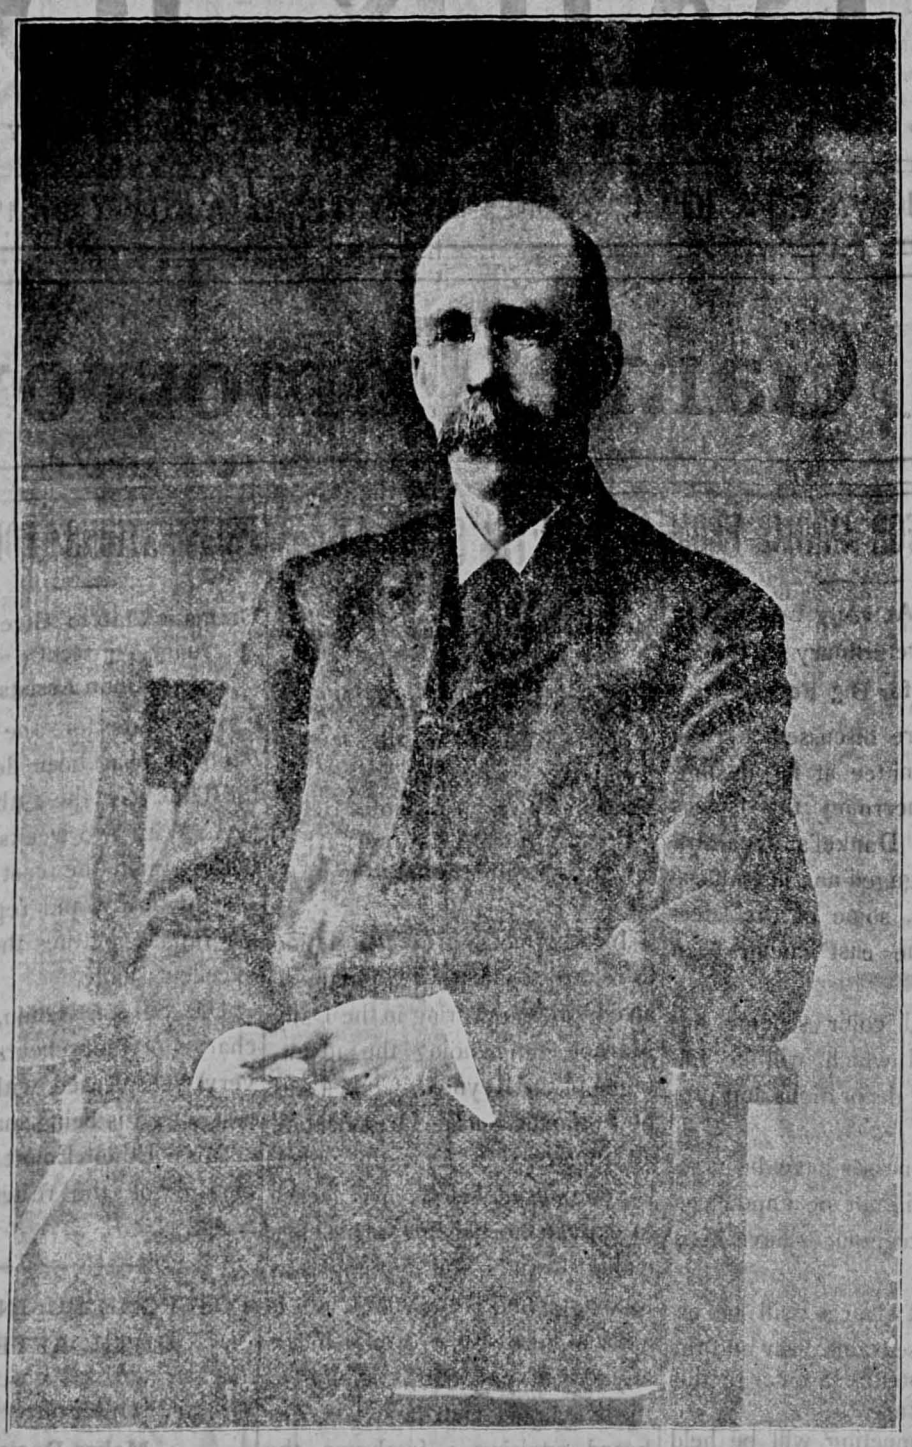
The other part of the student body are equally as hot under the collar in their demand to reenter the Western Conference. This part holds that eastern games are unsatisfactory in that eastern critics will not give Micnigan her due credit, the last two years have been most unsatisfactory for Michigan, that the west is the only place for Michigan to find rivals and last that Michigan's athletics should not be sacrificed for the personal glory of a few athletes. And so the scrap goes merrily on.

Next Monday night the Michigan Board in Control of Athletics meets to definitely decide their status in the athletic world or to turn the whole affair over to the students for settlement.

The Illinois University Senate started a maelstrom of trouble when it decided in favor of the five game rule. The student body said things. Consequently the senate is reconsidering its action.

How peaceful it is here at Iowa anyway.

MEMBERS OF THE FACULTY--NO. 2



PROFESSOR H. E. GORDON

Professor Henry Evarts Gordon, head of the public speaking department, received part of his early education in the Newton High School just outside of Boston. He attended Amherst and graduated in the class of '79. He has both an A. B. and and A. M. degrees from that college. Following his graduation he was elected principal of the Academy at Trinidad, Col., which he organized. He filled this position until the institution was consolidated with the Cutler Academy at Colorado Springs.

Professor Gordon was then elected to the chair of Rhetoric and Oratory at Colorado College at where he taught for four years. While in Boston studying at Harvard in the winter of 1899-1900 he met President George E. MacLean and shortly afterward was selected to fill the position at head of the department of public speaking in the University of Iowa.

Professor Gordon is a member of the American Association of Speech Arts, a member of Phi Beta Kappa honorary society and also of the Alpha Delta Phi fraternity.

As the organizer of the High School Debating League and the promoter of the new plan for selecting debaters in the University which has met with such success, Professor Gordon has distinguished himself, besides having an excellent reputation for efficient handling of his department.

Kappa to Entertain

Kappa Kappa Gamma will entertain Pi Beta Phi at a spread Saturday evening at the chapter house.

Midweek Y. M. C. A. Meeting

"Remember the fellowship meeting at Close Hall for men. It is 6:45 to 7:30 this evening," said a Y. M. C. A. leader yesterday.

Alumni of the University of Chicago have an organization in the Philippines. Chicago leads in the number of alumni in the islands, and Cornell, with her engineering school, is a close second.

The University of Virginia has instituted what is called a "College Hour;" a time set apart each month for the faculty and student body to meet together, to become acquainted and discuss questions of varsity interest.

The Harvard Medical School .. BOSTON, MASS.
With the completion of the new buildings which we dedicated September 25th, 1906, this school now has facilities and equipment for teaching and research in the various branches of medicine probably unequaled in this country. Of the five buildings four are devoted entirely to laboratory teaching and research. Numerous hospitals afford abundant opportunities for clinical instruction in medicine and surgery.
COURSE FOR THE DEGREE OF M. D.
A four years' course open to bachelors of arts, literature, philosophy or science, and to persons of equivalent standing, leads to the degree of M. D. The studies of the fourth year are wholly elective; they include laboratory subjects, general medicine, general surgery and the special clinical branches. The next school year extends from October 1, 1908 to June 1, 1909.
The diploma of Iowa University is accepted for admission.

MUSCATINE FAVORS INVITATION MEET

Will Not Send Team To Des Moines Meet

The Muscatine High School has come out flat footed in favor of the University of Iowa invitation track and field meet and has decided because of the advantages of nearer location, stronger competition etc., to send a track team to Iowa City and not to the state meet at Des Moines.

The Muscatine Journal says of the Iowa City meet in part as follows:

"This meet will be a marked innovation in athletic circles in Iowa. Under the plan proposed by the authorities the high school teams will practically have all of their expenses paid for participating in the meet. Last year the receipts of the meet amounted to about $1,000. After paying all of the expenses this would leave $700 to be divided among the competing athletes for their expenses. The sum would be enough to more than pay the car fare, at least."

HUMAN SKELETONS SENT TO SCHOOLS

Medical Department Prepares Bones for Use of Schools

This week the State University of Iowa will send out twelve more boxes of bones which will be used by high schools in the teaching of physiology. Each year the Medical Department at the University gets together about twelve sets of bones from the human skeleton. They are packed in neat boxes and are loaned for an indefinite period to high schools in the order in which they make application. These bones are helpful in teaching anatomy, and about forty high schools are on the waiting list as applicants for sets.

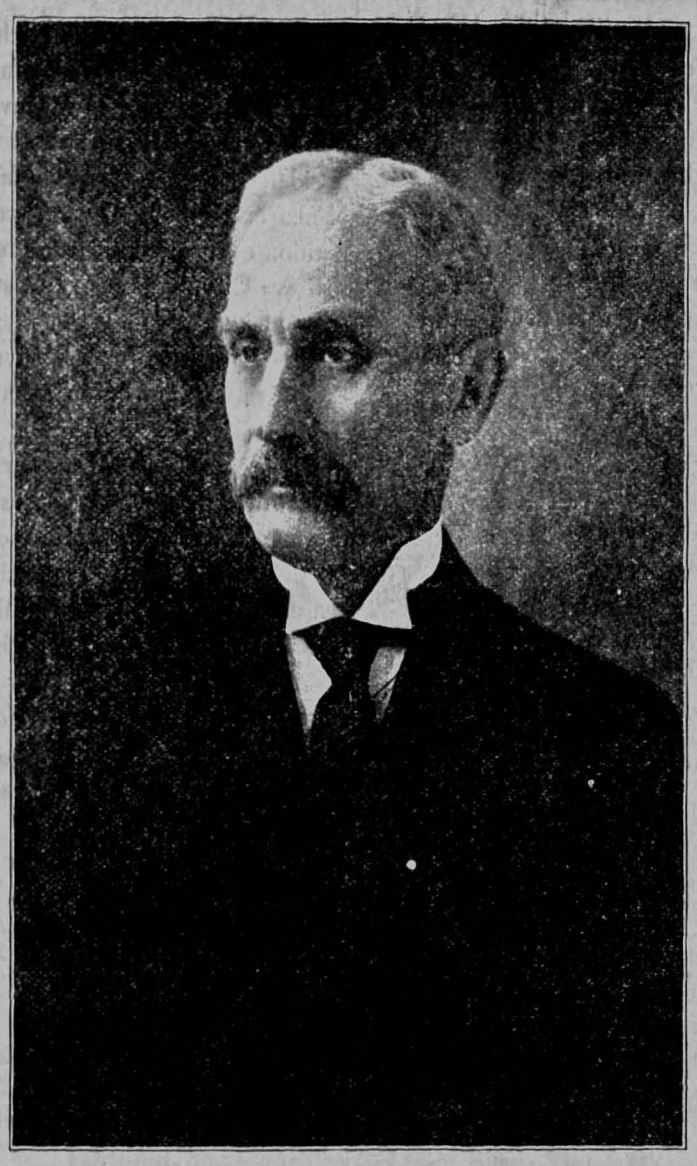
PROMINENT ALUMNI--NO. 2



SENATOR CLARENCE D. CLARK, OF WYOMING

One of Iowa's most prominent alumni is Clarence D. Clark, L. '74, United States Senator from Wyoming. He is on the committee on railroads in that body. Senator Clark was born in Sandy Creek, New York, but received his education in this state. After graduation he taught school several years, then went to Evanston, Wyoming, to practice law. He later declined a proffered judgeship. When Wyoming entered the union he was elected to congress and shortly afterward was sent to the senate. He visited Iowa and delivered the Commencement address in 1906. Mr. Clark still retains his student loyalty and affection for the University and for the Zetagathian Literary Society of which he was a member.
