SLYFIELD SUCEEDS GUNN

State Board of Health Selects New Assistant for Dr. Henry Albert—His Record

That the State Board of Health appears good and faithful service on the part of its employees is plainly shown by its selection of Mr. Frederick A. Slyfield, of the College of Medicine, in the position of First Assistant State Bacteriologist, until recently held by Mr. John G. Gunn.

Mr. Slyfield has assisted in the State's laboratory for the last two years. Mr. Slyfield was born in London and received his education in England, and has been a student in the College of Liberal Arts. During the absence of Mr. Gunn from the laboratory last summer, Mr. Slyfield took charge of the work.

PAN Hellenic Games FINISHING BUSINESS

Committee Fails Dates For Postponed Contests

At a meeting of the Pan Hellenic committee dates were made for the playing of the postponed indoor baseball games and the completion of the schedule this month. Following are the dates for the postponed games: Kappa Sigma vs. Delta Tau Phi, March 7; Phi Kappa Phi vs. Kappa Sigma, March 8; Phi Kappa Phi vs. Delta Tau Phi, March 9; Delta Tau Phi vs. Phi Kappa Phi, March 11. "To insure the success of the league these games must be played promptly as the dates set," said President Kent yesterday.

Professor Smith Delivered Lecture

Gave Interesting Address On Nature of Matter

Professor Arthur G. Smith, of the college, delivered an address on "The Nature of Matter," last night in the Hall of Physics. He spoke in the first chapter with respect to the ultimate nature of matter and the evolution of the theory of atoms. "All matter," he said, "is only that which is hard to move and hard to stop after it has started." Mr. Smith said it would be a long time before an exact formula of electricity and radioactivity would be known. The meeting was well attended.

Library Notice

Library Notice: G. W. Wyer has resigned as Librarian. The students do not leave their books and note books on the library tables and shelves.

Outing Program is Completed

Everything in Readiness for Big Show

Vaudville Show Tonight Has Many Interesting Features—Program

FIVE BIG ACTS OF THE BIG BENEFIT TONIGHT AT THE BLUE THEATRE

"Mysterious Woman In White."—Eddy Taint in "Bluebird."—Annette Niss in "Japanese Jugglers."—"Marvelous Nan the Monologist."—"Wonderful Master of Card Tricks."—

The following program has been arranged in the Greater University Committee benefit at the Bijou Vaudville Theatre to-night and tomorrow. A big dinner celebration was held yesterday and the performance is guaranteed to bring tears to the eyes of unfortunate citizens. In spite of this assurance it is certain that the house will be packed to the doors by both performances. The program follows:

Mr. Taint, supported by Miss Niss, Mr. Taint vs. Miss Niss, No. 34th (March 14).—George Washington vs. John Quincy Adams Johnson, in their touching little ditty entitled "I'm a Poor Unhappy Man." (Donations promptly after its performance.)

President Kent yesterday.

Frankenstein Council

Says That The Rate Will Be One Dollar or Couples Will Walk to Big Party

"One dollar or walk" is the new slogan adopted by the Pan Hellenic Council for the benefit of the proprietors of the cab lines in Iowa City. In time to soap out and drive away their customers, so cabmen will be employed for the biggest formal party of the year in University social life.

The back line managers raised the prices for party backs to $5.50 per couple at the Prom and it is understood they threaten to repeat the performance at the Pan Hellenic party for the next month. Considering the insufficiency of number of cars in the city and the failure of the combined companies to furnish a cab at the Arroyo on the nights of the big parties the Pan Hellenic committee felt compelled to take action.

A committee of two of the representatives on the Pan Hellenic Council have been appointed to meet the back line managers this week and state the position of the fraternity men.

"With the few cars in Iowa City and the failure of the companies to provide an organized system for carrying couples to and from the big parties the committee feels that the rate is unreasonable," said Reed Lane, a member of the committee yesterday. "There is no objection to paying the price if there was anything like a reasonable return for the money invested. But there is not and the committee wants the prices cut down and provisions made for a cab at the Arroyo so that the confusion noticeable heretofore will be done away with."

It is known that the action of the committee will represent the feeling of the fraternity men in the University and a break with the cab companies will be made unless the cabmen accede to their demands.

Pan Hellenic Committee Issues Ultimatum

MAY BOYCOTT THE CITY HANK LINES

How? By convinceing the universities to take the number of miles made at the Prom and at the Arroyo and charge the rate of one dollar for a couple.

A fellow up in Chicago (where our good H. S. K. M. suits are made) who admires to the name of J. Ham Lewis, recently came out and said that a woman doesn't know the value of an oath. Now I see that he denies having entered to woman in the general sense; he says he meant some women, but not all women. That was a very sensible hedge on Mr. J. Ham Lewis' part, because he had made his remark so sweeping as he was first reported, he might have had more direct evidence to the contrary than he could use in his business. I understand that Mr. J. Ham is a lawyer and that he has no connection with the stack-yards in any way. Well, whatever his calling, he can get out and lay bet on one thing; viz., that a woman knows the value of style and she knows an all-wood garment when she sees it and she knows how to pick colors that harmonize with your complexion and the color of your hair and your pink socks. That is a 3 to 1 shot. You'd better come in and see the new shades in imported socks.

\textbf{Among the Hiding Wall.}

A splendid occasion will prevail.

The building will fill with a good foreign and domestic crowd at the Old City administration.

The House of the Diamond.
NEW LAW BUILDING

Another step in the rapid growth of the University will be the erection of a new building for the College of Law. Work on this building will begin in the spring. A splendid structure has been planned which will be in accord with the other buildings which have recently been erected. The location will probably be at the corner of Jefferson and Capital streets, where Taylor Hall now stands. The cost will be approximately $52,000.

The building will be practically four stories high. The ground floor will consist of a court room, a locker room, and a store room. The first floor will include a large lecture room, a study room, the dean's office, and other office rooms. Lecture rooms and offices will fill the entire second floor. In accordance with the recommendation of the Law Faculty, it is probable that the entire third floor below as was planned. Law Librarians, upon the recommendation of the Law Faculty, will use a consultation room which will be included on this floor. This consultation room is to be provided that the students may meet and freely discuss moot court questions and other topics without disturbing those in the reading room. Individual desks will be provided with mail locker attachment. Advertisements for both will soon be made.

The Old Capital Building, which is now occupied by the College of Law, will be made fireproof throughout and will be used as an administration building.

HARVARD MEDICAL SCHOOL, BOSTON, MASS.

COUPSE FOR THE DEGREE OF M. D.

TODAY: 

The Harvard Medical School is now building a new teaching hospital which will be ready for occupancy in the fall of 1912. The building will be designed to meet the needs of the medical profession in the city of Boston, and will be the largest and most modern teaching hospital in the world.

The building will be four stories high, with a basement and an attic. The first floor will contain the main entrance, with a large lecture room, a study room, and a dean's office. The second floor will be occupied by the medical library and the medical school offices. The third floor will be used for the lecture halls and laboratories. The fourth floor will be devoted to the dormitories and the living quarters for the students.

The building will be equipped with all the latest apparatus and instruments, and will be fitted up with the most modern methods of teaching and research. The library will be a large and well-stocked collection, and will be open to the public.

The teaching staff will consist of a large number of the best medical men in Boston, and will be selected from the most prominent medical schools in the United States.

The cost of the building will be approximately $1,000,000, and the work will be completed in the fall of 1912. The building will be a splendid example of modern architecture, and will be a credit to the city of Boston and to the medical profession.

MUSICAL RECITATION

"Madam Butterfly"

Wherever the English Grand Opera Company appears in  
the vicinity of the leading colleges of the country with its  
production of "Madam Butterfly," we are told the students  
have flocked to see it in large numbers  
admiring its excellence by the fact  
that it was presented by Henry W. Savage. The  
production by Mr. Savage with his  
"Tannhauser," "The Merry Widow," "Edw." Germain's "Con  
Jours" and "Madam Butterfly," assured  
that any opera braving its name will be presented on a  
magnificent scale. As an indication  
of this feeling we are told  
Prof. Ryan of Grinnell College  
will take a large body of students  
on a special train to Marshall  
town when "Madam Butterfly" is  
put on. The Lawrence University  
and Washburn College  
headed practically the entire  
theatre at the Topika matter.  
Emerald student from Stan-  
for University came to the  
performances at San Jose, Cal.,  
also that the affiliated colleges,  
McGill University and the  
Royal Victoria College asked for  
special mention when  
"Madam Butterfly" was sung at  
Montreal.  

Music loving students should be  
very interested in this event.
