LETTERS TO FORMER STUDENTS AND ALUMNI

Effect To Form County Clubs By Mail

Students to Send Letters to Alumni and Former Students in Own Counties

Letters will be sent out in a few days by students in the University to alumni and former students of S. U. L., resident in their respective counties. This will be done in accordance with the plans of the Greater University committee to continue the successful county club movement in every part of Iowa.

Following is a copy of the letter:

IOWA CITY, Ia., April—1906

Dear [Name]:

Students and Alumni of the State University, resident in our county, failed to form a county club as one of their resolutions. I think you will agree with me that our county should be progressive as the influential counties which effected their organization. The great success of these clubs where organizations are of the University and mutual advantage is a clear acquaintance among the University people of our county should lead us to form a club.

Since it does not seem convenient to hold a meeting at this time, I enclose a constitution such as the Greater University committee has drafted. If it meets with your approval, you will please sign and return the enclosed card indicating on it your choice for officers for the ensuing year. In this simple and easy way we can effect our organization and elect some officers to represent us. Our meeting may be postponed until a more convenient season. Let us hope that next holiday vacation we can hold a reunion of students and alumni of our county such as were held and found so delightful in fifty-two counties during the past holiday season.

There are—alumni of the University in our county, and—students from the University this year.

For President of our club the following is nominated:

For Secretary—nominated the following:

Pencils

Let it be known that the school is open.

IOWA PROFESSORS ADDRESS TEACHERS

University Men to Appear at Davenport

Professor Burton in Tell of New Bt. 10:01 Connection. Star- buck Also Will Speak

Several University professors will take part in the meeting of the Southeastern Teachers' Association which is now in session at Davenport. Many noted educators in other states have also been urged to address the meeting and an elaborate pro- gram has been arranged.

This evening Professor Fredric E. Bolton will deliver an address on "The Work of the School Corporation." To- morrow morning Professor Ed- win D. Starbuck will address the meeting on the subject, "The Sustained Nineteenth of Life." The same session will have the pleasure of listening to Dr. Frank G. Gassaway of Chicago, who will speak on "The Next Step in Ed- ucation." Mr. Leroy P. Effret, 1. A. 1909, will address the conference on Industrial Training, and Professor Charles B. Wilson will speak to the conference on Latin and German. Professor F. C. En- ghis will give a discussion of the section devoted to high schools and colleges.

PROGRAM ANNOUNCED

FOR MUSIC RECITAL

Entertainment by Mr. Ralph LeConte

March 29, 1908

Mr. Ralph Lawton announces the program for his recital to be given March 29, as follows:

Brahms—Allegro misterioso, Schnittke when 8 minor Soate.

Grieg—Nocturne.

Polish—Marche Mignonne.

Schubert—Francesca da Rimini, for the left

Lachnerzy—Arabesque. Oboe Intermezzo.

Schubert—Manon Musing, Hark! Hark! the Lark! So- meone.

Spohr—Sonata in C major.

Satie—Nocturne.

Tarlow—Twinkle, Twinkle, Little Star.

Economics Class to Amana

Professor L. J. Gillin will take the class in Economics to visit the Amana colony tomorrow morning. The chief object of the expedition will be to study the woolen mills at that place. The class must meet at the station of the papers on the 12:30 train and return in the evening.

SHAKESPEARE'S FATE TO BE DECIDED TODAY

Verdict May Be Reached This Afternoon

Strong Pieses Made on Both Sides

Large Crowd Witnesses

Annual Event

The case of Caimby v. Shakes- per will come to a close this afternoon. The rebuttal testi- mony for the defense and the ar- guments by the attorneys were blasted yesterday and all that re- mains before the case goes to the jury are the instructions by the court. There will be given at 1:30 this afternoon and a verdict will undoubtedly be reached later this day.

The closing hours of the trial were the most interesting of the whole week. Frequent clashes between counsel over what had been brought out in the testimony during the last three or four days and amusing dissensions by them on such subjects as grave dig- ging, breathing, strangling and the firearms of the fifteenth cen- tury served to make the session a merry and enjoyable one for the spectators.

Attorneys Kantliah and Hicken- toper's request for reviews of the testimony for their respective clients, each acount- ing very clearly and forcibly the strong points for and against the defendant.

The closing arguments by Dr. Dunkleberg for the plaintiff and Otten for the defendant were both highly commendable efforts. Both counsel seemed in the minds of the jury the several weaknesses in the testimony of the opposing side and epitomized, each of which was well fortified for his or her part.

There is a strong possibility that the jury may decide for the defendant.

Judge T. W. Seides, who is presiding in the case, will deliberate at various witnesses in the excitement of the moment. Ottens closed with a stinging appeal for justice to the glorious name of "The Imperial Ball of Avarn."

FORENSIC COUNCIL

TO HOLD MEETING

Much Business of Importance to be Considered

The Forensic Council will meet this afternoon in Room 311. An abundance of important business will be considered. Such matters as the date of the annual meeting, amendments to the constitution, and reaching a decision on a ques- tion for the inter-collegiate debate- nates will be discussed. Illinois will be defeated by Michigan and we propose to revolve that American cities should adopt "commission form of government.

Democratic to Organize Club

This afternoon at 3:30, the democratic of the University will meet in the Liberal Art Audiori- um to elect a permanent organization.
Wise Talks by the Office Boy

I see by the papers that Mr. Sam Gompers says the laboring classes will go into politics. I often wondered why they didn't go in for that before and send a few more earnest workers to Congress. Most of our presidents have been farmer jobs or hard-working people in the true sense of the term. I guess if all the people who work at manual labor of some kind would combine to form a great political party they could have pretty much everything they asked for and the other fellows wouldn't all have to go to work to get into the labor band wagon.

Our farmers are surely nature's noblemen. Their courage and endurance are all products of the highest art attained in style, ready-to-wear and they learned their trade before they went in to work. Working people everywhere are learning how to live in granger and wear good clothes. Every year we are producing in the store better clothes for the working people, crowding more value into every thing we sell so as to bring the price down again and again. One swallow doesn't make a summer, but your spring togs are here just the same. Come in, fellows.

MUGGY, with

Eldert William Rockwood

Eldert William Rockwood, head of the Department of Chemistry in the State University of Iowa, was born at Franklin, Mass., July 4, 1865. In 1884, he graduated from Amherst, receiving the degree of M. A. and afterwards continued in study of Science in the University of Chicago, Gottingen, Strasbourg, Leipzig, and Yale. He received a degree of M. D. from the University of Iowa and, in June, from Yale.

Dr. Rockwood began his work as an instructor in 1884, when he accepted a position as assistant in Chemistry at Wesleyan. In 1886 he became an Instructor in Chemistry at Cornell, and later on was chemist at the Hatch Experiment Station, Connecticut. Since 1889 he has been Professor of Chemistry and Toxicology in the University of Iowa, and in 1904 he held the Chair of Head of the Chemistry Department.

Dr. Rockwood is a member of the honorary fraternity, Sigma Xi and Phi Beta Kappa, and of the American Medical Society, American Chemical Society, German Chemical Society, and of the American Association for the Advancement of Science.

He has gained eminence among American Scientists and is considered to be an authority in the science to which he has devoted his life. As an author, his best works are, "A Laboratory Manual of Physiological Chemistry," and "An Introduction to Chemical Analysis for Medical Students."

DRINKS INK "LIKE A CAMEL"

To hold a Camel Fountain Pen, just dip it in any liquid, pour the Camel-Pen-Filler and see it fill to its own level like a camel drawing its throat. That's all there is to it. No dropper—no case—no head. It's anywhere—any time.

CONKLIN'S SELF-FILLING PEN

"The Pen with the Crescendo-Filler" can be filled instantly without the least inconvenience. You could fill it with your left hand while sans Hever pen case. Its convenience is the splendid writing qualities of the Conklin—the perfect pen.

Leading makers handle the Conklin. If you do not, ask your stock dealer, Pens, Pencils and type. He must be handling cons.
