**STUDENT SOLDIERS MARCH HOME TODAY**

University Regiment Breaks Camp This Morning

Four Days March to Mid River Proved a Great Success—Battle Yesterday

Camp MacLean, May 25th—Special.

L. A.—The University regiment will march back to Iowa City tomorrow after its four days’ encampment. The affair has been a great success and though the caddies are tired and sunburnt not one word of complaint has been heard.

Sunday was visitor’s day and large crowds of people visited the camp. Religious services were conducted by Rev. Wylie, after which the regimental review was held. One of the visitors, Fred Wray, later in the evening attempted to pass the sentry who stood at the cook shack and as a result received a boycott threat which required the services of the University police to protect the individual.

This morning a decisive battle took place two miles north of camp. Early in the morning the second battalion, designated the “Red” and commanded by Maj. Rock, advanced towards Council by way of the interurban and took up a position at the Iowa river crossing. Outposts were established and the “Red” prepared to defend the bridge. An hour later the “White” Army,* commanded by Maj. Hastings, left Camp MacLean to defend the bridge. About 5 o’clock the two armies turned towards the river crossing. The upshot of the matter was that the Company A and B would meet the enemy in the valley, ready to fire. All morning the surrounding wood was thick with the sounds of the combat. In spite of the skillful manouvres of the “Whites” the “Reds” defended their position well. At noon the attackers had the enemy almost surrounded and had captured several prisoners. Then the bugle sounded the call to dinner and both parties forgot their enmity.

This afternoon was spent in camp with the caddies playing ball alright and generally enjoying themselves.

**NOTES OF THE CAMP**

Mid River is an ideal camping ground.

Private Foley was twice placed in the guard tent.

Basketball is very popular with the caddies and each company has its team.

The caddies enjoy the march and the week’s hard work, but is the ideal dog in camp.

More than one freesty was sent to the high jump and in the running, etc.

The Valentine ball team has three hard games this week. Wednesday the team plays Coe at Missouri; Thursday Drake is played by here and Saturday Grinnell is to be played.

The Valentine is finally playing in its proper form and if it keeps up the gait displayed in the last two games it will win all the remaining ones. The Coe game was a hard game, but the Van. Grinnell and Drake also have two extremely good pitchers in Smithson and Meade, those left hands.

Sutherland will probably pitch for the Coe and Grinnell game with Durrell doing the houses against Drake, but the facts of the case are these but has been doing so much work track lately so that it is slightly out of form. Anyway Hanlon could hardly be used the week of the University game.

The Valentine has profited by its long, hard fighting practice and has something riding besides the effect of a matched finger nail.

**Sophomore Champions**

The Sophomore girls defeated the Freshmen in the last game of the season yesterday afternoon. The two ten-minute halves were won by E. G. Schroeder’s girls. The lineup and scores follow:

Prewitt & Corbett Go to High School

Harlem—May 28. (Special)

**Senior Class Meeting**

There will be a meeting of the Senior Class on Wednesday afternoon at 5 p.m. in room 205, Perth and Middlebourn lecture room.

Will Have New Laboratory Massachusetts Institute of Technology is to have a new laboratory devoted to research work in the field of the applied chemistry.

After the “must rage” or the “rag” as the case may be, the class will adjourn and the faculty will give the students a farewell dinner at the New English Club.

When the “rag” is over the special dormitory will be used by the members of the class.

A captured spy was sentenced to death after a trial by Major Hastings. The sentence was commuted later.

**THREE GAMES THIS WEEK**

I heard a fellow saying, "There is some good in every heart and some rubbish in everyone." I guess that's a true saying. Have you rubbed your big windows yet? We have so many nice suits to sell and never sold so many stylish hats. Never had such a bunch of nearlyneckeer and never had so much nearlyneckeer. Never had so many nice spring shirts to sell and never sold so many airy shirts. This season the patterns are more beautiful than ever.

And the new four-in-hands, called the "shadow plaid." These come in twelve shades and they are certainly "cosines." All of these are modestly priced. I told you, it keeps me hiking. I wish the base could have my job for one day—then maybe I'd get another raise.
