LITERARY SOCIETIES PROGRAM TONIGHT

Comin Program in L. A. Assembly Hall

Program of Those Who Will Appear

Program—Dean A. N. Curtier will preside.

The annual program of the literary societies will be held this evening in the Assembly Hall of the Liberal Arts building under the direction of Dean A. N. Curtier presiding. The program will set at eight o'clock and will be followed by an informal reception in the ladies drawing room to which everyone is invited.

FOLLOWING is the combined

PROGRAM

President-Officer of the literary society of the Liberal Arts building.

FLORISTS

Iowa City, Iowa, September 15. 1908

The Americanrion of Catholic Societies in the various colleges has heretofore provided a student with an opportunity to make a successful career in the literary societies.

This year's edition is bound in four volumes, with: "The Transits" Arms in the cover. It contains a number of articles by Dean Raymond and other members of the faculty which have been contributed by alumni who have become prominent in the engineering profession.

The first article is an appreciation of the life of the late Prof. Charles Scott Magnuson, by O. H. McLeod. There are also biographical details of the new members of the faculty, and the 'students' trip, civil engineers' trip, the laboratory equipment, a revised directory of faults, and a song, "The Sentimental Song."

The edition contains illustrations of a variety of articles included in this year's new edition. This will include new faculty members and the Transits book. This year's work is a continuation of former publication and is one of the most successful ever put out by the engineering society. The merit of the articles, the ability and industry of the editors, and especially the interest taken in the "Transits" by the engineering students and faculty, have combined to make of this year's output of work which cannot fail to be of great interest to anyone interested in any form of engineering.

BARRINGTON REPORTS ON NEW REGISTRATION

"Barrington has nothing new to say."

"The plan of having the students register for new fall before leaving for their homes this spring is working well," said Registrar C. E. Barritt last night. "I have had many responses and the students are beginning to understand the benefits of the new system of registering and are regarding it as a relief to the vast in fall. I have many calls for catalogues, blank forms, etc., and all in all the new plan is working fairly well."

We Arrives Tuesday

Prof. T. H. Macbride Writings

In the "Summer Reading," June number of the Chicago Daily South, Professor Thomas H. Macbride Writings have a grade in the "Tubetown, Trew," an article full of interest to the reading public.
A pretty young lady dropped in at a music store the other day and stepping up to the counter where a clerk was sorting music, said, "Have you a 'Kissed Me by Moonlight'?” And the lobster turned half round and said: "Is it must be the young man at the next counter; I’ve only here been here a week!” A man came into our store one day, and going up to Mr. [unreadable], "I’m going to have a fit.” Mr. got him a comfortable chair and a glass of water, and asked if he should be a physician. Then the man began to laugh and said: "I’ve been buying musi- to clean all my life,’ and I found; and that’s really what I want.” And I didn’t take long him to get it, either. Gre- it’s wonderful the way our new summer models fit. You, they’re made in about six models, from the very extreme for the college man, to the very conserv- in his race, he called it. And our salesmen, either by imitation or just good judgment, or both, seem to be able to fit a man every- time. Summer suits, 2 or 3 piece, $15.00-$40.00.

AMONG THE BOOKS

A book which is not only an immediate interest to people in Iowa City and the state of Iowa, but also of great importance in the history of the commercial organizations, is soon to be issued by the State Historical Society of Iowa. It is a volume of about 450 pages on "Amana: The Community of True Inspiration," by Bertha M. Stammberg. The work has been written during the last five years, and has been thoroughly revised and corrected. It is an account of the history of the Inspiration, which the author characterizes as the essence of the community. The book gives a very adequate account of a people who have conducted the most successful commercial enterprise in the world. It is issued in excellent form and is well illustrated by fac-similes of the ancient manuscripts and books of this historic relic of Old World people.

BUSINESS LOCALS

For Rent—Rooms and board for summer school students and clerks at 572 E. Clinton street. Promptly located.

WANTED—For the summer. A man to do odd jobs in exchange for room, 8 Bloomington St., Clinton.

WANTED—For fall work a man teacher. Call at 219 Clinton Street for further information.

Fans, belts, summer hose, underwear. Can make no mistake by looking at our display. Your appearance, as you know, is the first of the volume 1855 they again followed the ocean and founded a village in the valley of the Rhine, but in the early part of the 19th century "hidden prophecy" pointed to America as their future abode. Following accordingly, the direction of Providence, they crossed the ocean and founded a new home. Amana, in Iowa County, New York. This was in 1857. In 1853 they again followed the western trail and planted on Iowa the first village of Amana. Here they have been quiet, secluded and prospered. The second part of the volume is given up to the history of the Community. As a distinct religious sect the Community dates from the year 1741, with the writings and teachings of Henry Bolliger and Johann Friedrich Rock, who are regarded as its chief founders. For over a century the fortunes of the little band have waxed and waned in the valley of the Rhine, but in the early part of the 19th century "hidden prophecy" pointed to America as their future abode. Following accordingly, the direction of Providence, they crossed the ocean and founded a new home, Amana, in Iowa County, New York. This was in 1857. In 1853 they again followed the western trail and planted on Iowa the first village of Amana. Here they have been quiet, secluded and prospered for over a century.
Miss Myrtle Ware is visiting in Wash-
ington this week.

Miss Myrtle Ware is a guest of the Pi Phi house.

Mrs. Walter of Des Moines is visit-
ing her son, Arthur.

Miss Irene Gilchrist, secretary of Y. W. C. A., has come home to spend her summer vacation.

Miss Irene Gilchrist, formerly of the public speaking department of the University, has been competing to give her work at Adams and has gone to Denver.

Miss Belle Jenkins, a student in the Col-
lege of Law last year and a student in the University of Chicago (the past year), was a visitor in the city the past few days.

Mr. H. E. Aver of Hartman, Mo., is here to take the Dental State Board examinations.

Miss Irene Gilchrist, secretary of Y. W. C. A., has come home to spend her summer vacation.

Fraternity Ball, and Miss Edna Pearl Stone, of Kansas.

The marriage of Terry McClintock, a graduate student, is

expected.

Our two-year-old cartoon, Ideal Jewelers, is

appearing in The Famous "Little Beach Town"

next week. The dental

examinations will

finish their the beginning of next week.

The dental ex-

amination will require about four days. In all there are about seventy-

seven to take the examinations, fifty-five in the senior dental class and students from other schools.

The examining boards are as follows:

Medical- J. H. Sams, Clarion, president; L. A. Thomas, Des Moines, secretary, and the mem-

Law- H. W. Byers, attorney general, president; Louis Block, Davenport, secretary; E. C. Eberl, Cedar Rapids, A. H. Wiel, Con-
lug; F. W. Bart, Charles City, and C. D. Leggett, Fairfield.

Students from Old World Wisconsin.

Walter T. Gutz, L. A.; and William and St. John, L. A., will sail from Boston about July 1, for the Old World. They intend visiting the principal cities in Ireland and Switzerland and will study economic con-

ditions in Scotland, Italy, and Greece. Much of the trip will be

made on bicycles.
