NATIONAL CONVENTION TO BE ENTERTAINED BY NEWMAN

Executive Council of Catholic Societies Association Makes Decision

The national convention of the Catholic Societies' Association of America will soon be held in Cincinnati with the local Newman society as host according to a letter received here from B. E. Mundie of Kansas City. The president of this organization was the local organization of the decisions of the executive council.

Twenty institutions believed to be in the organization including the leading educational institutions in the Middle West. Others are being asked to join their chapters as the title of the national convention is expected the membership will be largely increased.

The first such convention started last year at Lexington. E. K. Huyler, now a Catholic in the Catholic University of America, attended the association from the start and is expected that between 80 and 100 delegates will attend the convention here.

The Newman society has been in existence in the University of Iowa for nine years. At the present time the membership is 140 and on the Tuesday evening football time and football students will be included.

Meeting to be Held

The university is in receipt of a call for the meeting of the National Association of State Hunting federations to be held in Philadelphia, December 2 to be held in connection with another meeting of the American Institute for Research. The Catholic church is a member of a number of these associations and that is quite an honor for such a rather new institution.

Humanistic Movement

Professor E. C. Whitman will give the humanistic lecture between noon and 1:00 p.m. at 30 clock in the auditorium of the Liberal Arts building on "Literature and Culture." The lecture will be limited to students in the liberal arts department.

Catholics with a sense of humor are invited to the annual convention of the Catholic Societies Association which will be held in Cincinnati in February. The convention is expected to be well attended and will include a number of prominent speakers.

Read the pink sheet to see what IOWA did at Campaign yesterday. Our story is another kind but no less interesting to true fans.

Hux has been the object of our efforts this season to lay before our customers an assortment of overcoats that will make our name firm for future seasons. The offering is varied in styles and patterns and a size is here for everyone—lean or stout. The styles have been designed and tailored, the garments are superior, KP, and we should not need the labels of Stein-Bloch.
