A NEEDED REMINDER

Norman Hackett, the editor, spoke, the other Cornell University students the other day: "I implored a better use of pure English. Don't think it's a matter of education or being more talkative. It is an outrage to hear students using pure, beautiful English mutilated as it is in day. The English is capable of saying it, and teachers and actors should strive to speak pure, direct English. There is no reason why hand-me-down should not spell "dance" in Maine as well as in California.

He could have spoken better. The English is capable of saying it, and teachers and actors should strive to speak pure, direct English. There is no reason why speech should not spell "dance" in Maine as well as in California.
