TRACK PROSPECTS BETTER THIS YEAR.

IN DEATH TRAINING WILL OFFICIA-

LY START SOON.

Many Athletes Have Been Going Into Practice Already.

With the approach of the second semester, February 8, the official indoor track season will start and the conditions will be made as pleasant for the meet as in the spring.

Already many of the track men have been working on equipment and otherwise getting into condition for the meets in May and June. Others are playing basketball, thus keeping in good physical condition for the opening of the winter training season.

Basket rules for the spectators have been ordered and will be held in the gymnasium. Other indoor equipment is in the way to the opening meet, and we have a large squad practicing indoors this year.

Dr. Mary O'Byrne is enthusiastic over the prospects of indoor work and is anxious for the men to appear regularly even before the season opens with a fair number of followers.

The Boat Men of Hawkeye fame, every year a point weight in the winter, former Captain Wil B. Robin, silently in the status afloat in the last fall and winter, and with a band of provision eligible material to pick men from the sprinkling is the brightest.

Bystanders are certain of points in the Osseo and Ottumwa, indispensable last year, will pull him back. Bystanders are expected to do well in the short and long. Grubb will be run on to win points in the hammer throw.

Knot is a new event in the spring, and if Banton, a speedy middled, student, remains in school next semester Catts will have two men capable of running clear of everything else on the snow.

Crenna, a former Iowa field walker, is again in school and eligible. Hyland, an old West Des Moines man, is a working good high jumper, a department of field work that Iowa has been weak in for years.

In the hurdles the Hawkeyes will have Slateove and Hoek, and in the high jump there will be considerable distance to cover.
