Kern Lighting Effects Designed For Formal Party.

By noon today everything will be
in readiness for the second formal party of the term. The program has been hard at work the whole

and it will be at last noticed with great
glee. The party will begin promptly at eight o'clock
and be led by Lieutenant and Mrs. Wetha. The

Dean J. R. Gutbrle of Dubuque, pre-
maturely, All orations must be all,
says:

"I am preparing to present
the annual oration on the
subject of 'The Future of
Education.' I believe it will
be a beautiful and
impressive
event, and I
anticipate a
memorable
occasion."
The advertising and carrying is being organized systematically. Wholly every part of the state will be worked by 'Our Colors, our Stories.' The captions of fresh material are making a different search for prospective buyers in the state. Already fine athletic material in basketball and track have been utilized. Two team-athletes, the stars, Frankfurter of Moline, and基金经理 of Marion with jumping records of 3 feet 7 inches in the broad jump have been sighted. Eligibility will be given for the varsity media, and thereby absolutely to the faculty. Third. The freshness expect to help enroll the high school athletes which will come to the Iowa Intercollegiate meet. Fourth. The indoor training is to be continuous. Regular practice hours and probably a training table will be provided. Fifth. Arrangements are being made to hold indoor meets to prepare the for the spring meets. Sixth. Prominent coaches will be held in order to provide for the table.

BARRET BELL.
Basket bell is full swing. This popular game is engaging the interest of college men. It should be a field both at Iowa. Conditions seem well for a fast, skillful squad. Interdepartment teams, struggling for leadership, have increased a wealth of hidden materials which has enabled in several ways to enter the field. Last year's freshmen are playing games of similar quality. A few men have older than more ordinary calories can be picked from this large number of men.

Basket ball is coming to the over Iowa. Although a comparatively new game, athletes have taken to it with enthusiasm. So much the better, because it requires the endurance of the griffins and the skill of the diamond. The play is fast and booming the spectators at the scene.

Those who enjoy athletics cannot be disappointed in attending to games to be played at the intervarsity season. A good schedule has been arranged. Some of the finest colleges and university teams of the middle west will be here during the coming season. Their play will bring out the merits of the game far fairness and uprightness and amuse all true sportmen.

Communications
Free Press-Athletic Rooms S. B. F.
The deep enthusiasm and unswerving attendance shown in the first meeting of the Freshman Athletic association leaves no shadow of doubt that interest in the movement that anything but success is out of the question. Indeed, some intimates that this movement is in the right, what promises to be the most effective and beneficial organization is right for a greater future.

The meeting was a success in almost every respect. After the election of officers and appointment of committees the whole of the association considered and planned. First when a boy must have his suit with instant traction, that is every boy up to 15 years who wants to be a new join.
