A bill has been introduced in the California legislature providing for the removal of a large portion of the books from the state library to the California U. L. library. There are three-eights Johnsons in the University of Minnesota, the remaining of the class has been together. The Smith family second and the Anderson third. The Olsen seem to have been overlooked.

The University of Cornell has been forced to a number of changes in plans to raise $450,000 by subscription to equip it for athletics.

Last week, the noted Italian restaurants, will return Miss Dora Larson, who occasionally present a few points on long distance running.

The idea of a great national university at Washington, D. C., has received a decided impetus through the establishment which serves recently the National Association of State Teachers at Washington, D. C., and the teachers are working on it since. Four men work on it each day.

About 306 students of the University of Texas have inserted that they are working on it alone.

The great government libraries, collections, charitable, foreign envoys and their bureaus used to be in charge of administrative students facilities which could be dispensed with in any other place in the white literature.

The New Spring Suits Are pretty. That's the first impression they make on one.

They are distinctive—by distinctive we mean you couldn't possibly mistake one of them for a foreign suit. As every social function in the city you will see groups from this store—at the opening, theater, at church, or social events—everywhere. And then you will find dressed up, for they have style distinction and stay- ing quality.

The University of South Dakota recently declared a new low by big. Misses Emily McClain of the student Court of Iowa made the principal address.

The colleges in the vicinity have had a very interesting and incidentally present a few points on long distance running.

We make all the Athletic Pictures for the last ten years. We cater especially to the student trade.
