EASTMAN HONORED: ELECTED PRESIDENT

CLASSICAL ASSOCIATION ELECTS IOWA MAN

Mr. William H. Guthrie, professor of History at the University of New York, delivered his lecture on "The Man with the Hoe" at the Iowa City. Guthrie is widely known for his work in political science and philosophy. The lecture was well received, and the audience was enthusiastic.

If You Want to Save $20.00

And find out how to double your salary call at Fenton and Thomas shoe store, 109 So. Clinton street the week beginning March 8th. Special demonstration of the Largest Educational Institution in the world.

Last December about 200,000 men were out of work in New York City. At the present time there are thousands unemployed not only in greater New York, but in Boston, Chicago, Philadelphia, and in all parts of the country. The last census showed that there were 2,281,471 persons unemployed for a period of four months or longer in one year. Why?

Periods of hard times force firms and factories to dispense with men who can get along without—men who can do the important positions where skill and training are not required.

Now about the trained man? Not a company who can work with his hands alone but who can read blueprints, draw plans, and make estimates; not the mechanic who can work only at one machine but who has the knowledge of modern shop practice that qualifies him for the foremost of a large shop. Not the clerk who can work day in and day out at a single ledger but whose knowledge of such advanced subjects as cost accounting and corporation organization makes him an important employe. Those men hold their positions and men in demand by employers at any time and place because the services they render are absolutely necessary to the Company.

Now YOU can become a trained man. The International Correspondence Schools is an institution whose sole business for seventeen years has been to turn unskilled men into TRAINED men. Thousands upon thousands of ambitious men have bettered their positions and salaried through the I. C. S. Last year over twenty million dollars in increased salaries was brought to I. C. S. TRAINED men. We can train YOU for a better position and better salary if you are willing to do your part. The statements below will prove it. Read them and mark and mail the corded card.

Cedar Falls, Iowa. H. R. Garrett (1911 Batch 91)—Corporate engineer in Underwriting department of American Insurance Company. Has been employed in the construction of buildings with an income of $10 per cent greater than what he was getting when he enrolled.

Eskerville, Iowa. James A. Cox, machinist with $4600 a year income thanks to Complete Apprentice Course. The knowledge contained in the course proved of such vast value to him that he has since built up an income of $4800 a year hereafter.

Dale Epsilon, Iowa. Frank B. Murphy enrolled for the Air Brake course while working in the farm hand. After completing his course he secured a position as inspector for the State of Iowa. Since that time Underwriters with a salary of $1500 per month.

East Des Moines, Iowa. Frank B. Murphy enrolled for the Air Brake course while working on the farm. After completing his course he secured a position as inspector and assisted in the development and later become inspector and increased his salary 100 per cent.

Marshalltown, Iowa. John R. Bueke, office clerk and superintendent becomes advertising manager of the Marshall Oil Co., and receives an increase in salary.

Monticello, Iowa. A. K. Minton (1912 Class 9th Ave.) Enrolled for Complete Steam Engineering while working as clerk in a grocery store. Our Representative located him a position that increased his income 100 per cent and stands him on the sure road to success.

Iowa City. H. F. Carlson, Encorp Coal Mining Co.—Bookkeeper enrolled with the Scholoe and after studying a short time becomes competent bookkeeper. Later becomes secretay and treasure of the Encorp Coal Mining Co., at large earnings.

Panora, Iowa. M. E. Shadie—Farmer, takes up Agriculture and Farming retourning course and within a short time becomes engineer of the H. E. Football. Later he goes into the plumbing business and increases his income considerably. Also takes up and become a source of great interest to him.

Mankato, Minn. W. Pay Ellsworth (41st Class 8th) Enrolled for the Bookkeeping and Business Forms course while working as a clerk in a general store. Know nothing of bookkeeping at the start but today is a capable bookkeeper and clerk for the Mankato Savings Bank and has increased his income consider.

Shakopee, Minn. J. K. Adams, machine shop employe, earning a small salary, enrolled for the Mechanical Engineering course, discusses a position in an elevator house and has become Superintendent of the Electric Light and Waterworks Department of the City of New Prague and increases his salary over $10 per cent.

Des Moines, Iowa. Frank McNally, Helper in the city engineer's office formerly and in a short time secures the position of county engineer at a salary $115 per month that he was earning when he enrolled. He considers our course essential for the formation of correct thoughts and our books, without equal.

The International Schools of Commerce, Pennsylvania, are taught by ex-officio men as Ewen W. G. Raymond, Iowa City, Hon. Carroll B. Wright, Former U. S. Commissioner of Labor; Dr. H. M. Rowe, Prof. School of Mines, Columbia University; Wm. Kerr Shepard, Inspector in Mechanics, of Yale; J. R. Davison of the Iowa State College, Ames, Iowa. In fact, we have letters of endorsement from nearly every representative of the business world.
