Y. M. OUTLOOK GOOD: PLAN SOCIAL EVENTS

At all University Policy
Adopted for Year 1908-9

Sing Social Will be Given Tonight

The year 1908-9 opens with especially bright prospects for the T. M. A. The new cabinet, composed of men representative of the whole University, have furnished an entertainment and outlined a definite policy of work. The men have been working their plans out during the summer and this year, from present indications, will be a banner year for the association.

The association this year broaden out and becomes a more perfect university body. Its cabinet is composed of men from all branches of University life. The advisory board has been enlarged for the present year. The association will work hand in hand with the Greater University committee and other university organizations.

The first features of the year will be the annual sing social tomorrow night. This is also the first event of importance in the social activities of the year. It will afford an opportunity for all the men of the universi- ty to get together for a good time. The plan is to have a social committee made up of Clark Burtker, Arthur Dimnahan, Earl Howells, Miss Dow and J. McComb, Jr.

The new men will be taught in Iowa football songs and yells and other music has been provided. Dean G. S. Russell of the college of applied sciences will speak in an informal way. An informal "feed" eligible to the occasion will take place Friday evening at 6 o'clock in the Armour.

Friday evening at 8 o'clock in the Armour will reopen the annual joint concert. Music and a general good time will be the feature of the evening.

President G. E. McLean, Prof. W. C. Wilson and Prof. T. H. Ho- ward will be on the musical program.

Not only will the music be excellent, but the company will be ideal. This year there will be more probability that the music will have a great disadvantage to overcome. That disadvantage is the absence of Mr. McKelvey. That was a great asset last year, but some pleasant things the men over are still back so that now they doubt whether he ever got up Mt. McKinley.

The S. U. I. CLOTHING CENTER

A BROAD claim it is to make in our heading, perhaps you say. Yes, but listen a moment. The history of this store is coincident with the history of the state's greatest educational institution to a most unusual extent. Both were founded over fifty years ago. The generations of students who acquired their special knowledge for life in the university halls perfected their ideas of dress, essential for a successful life by a study of the styles presented to them by this store. Then, is it not truly the "S. U. I. Clothing Center"?

Custom tailoring is a matter about which we would like to speak to the students, new and old. Our de- partment for the making of suits is to be maintained in increased efficiency and open the same lines of guaranteed satisfaction which has made it popular in the past.

Superior Showing of Haberdashery

The well dressed man today is giving more attention to his haberdashery than ever before. It is not content to put on a tie and wear it continuously until it is worn out. He has a collection which he will keep and add a touch of finish to his appearance. We also always to show a line of haberdashery which will give customers choices and varied selections.

Manhattan Shirts a Specialty

Fall and winter writings are here in a wide and varied selection. If you are thinking of ordering a suit, do not fail to inspect this line. Your style ser- vice turns a patron that his garment will be made up on the latest and approved lines of the approaching season. Come in, certainly.

Fall Hat Styles Will Meet Your Taste

In a store claiming to give attention to every point of the personal comfort of a man, you would expect to see Stetson hats. And you do find them here, always in both soft and stiff shapes of the latest designs. But more than that, we carry exclusively the Knapp-Felt hats so popular with the younger class of dressers. Trust us to look after your head dress.

the best small steamboat, the “Clearmont,” which took two days and nights to go from New York to Albany and back, was the forerunner of our great fleets which cover the distance from Liverpool to Sandy Hook in about four days.

The thunders of the fleet which will salute these two historic craft will be a tribute to courage and to progress. And if you'd like to see evidences of progress in other lines, compare Hart Schaffner & Marx clothes with the fashions and fabrics as shown in illustrations of clothes twenty years ago. They're the best developments in clothes, the finest modern product of the tailoring art; the latest achievements in styles and in all wool fabrics.

The latest ocean steamship doesn't compare more favorably with Fulton's attempt than our clothes compare with clothes made a few years ago even by the best tailors. They're the highest type today.

We have made just as much progress in our furnishing goods as we have in clothing.

Our Merchant Tailoring Department is the best equipped in the state. We employ the best tailors that money can hire, and our stock of woolens comprises the latest patterns selected from the most reputable woolen houses in the land.

Globally impressed by the impor-
tance of the ceremonies the first
hundred anniversary celebrate-
tion of the founding of the Univer-
sity of Leipsic in Germany, President
George E. MacLean spent the past
summer representing the institution
among the educational circles of
the old world.

President MacLean left Iowa City
on July 15, sailing on the American
line on July 17. He arrived in Fran-
ce on the morning of July 19.

in Paris and London to
Leipsic, where he attended the uni-
versity celebration July 28 to 31.
Following this event he visited at
Cambridge and London, returning to
America on Sept. 1.

While in France President Mac-
Lean observed the enthusiasm of
the French people in leading the
achievement of Leipsic in flying across
the English channel. French people
consider Leipsic a hero, a man who has
restored honor and prestige to the French
nation. The English took it very
personally and were the Germans for
all practical purposes for a short time.

"The people of this country do not
realize the great strides which have
been taken in serial maritania," said
President MacLean. "Primarily I was
skeptical, but I now believe that
the time for serial navigation has ar-
ried. It is a reality, although we
have not yet awakened to the
fact."

President MacLean attended the
annual exposition at Frankfurt on
the Main, and was greatly impressed
with the magnitude of the affair.

The celebration at Leipsic was the
most magnificent and greatest event of its kind ever held.

"One of its most impressive events,"
was the student pageant in German,
which MacLean attended.

"He stood that the uni-
sity of Leipsic. The splendid
spirit shown was a lesson to
the graduates of any foreign
university. It was wonderful

This choice of events

The castle was a fitting homage to the

President MacLean. "I will be happy
for us to keep up with them. We are
behind them in many particulars and our
foundations are good, but the
advancement of American universi-
tes will continue. I come back ren-

do better still with the financial sup-

The annual student's hand-book
has just been published, by the
Christian association of the uni-
versity. The book is complete in all
respects, several new pictures adding
quality to its value.

The binding of this year's hand-
book is unusually good. The corner
is full color, linsey coat with a
canberra picture of the Old Capitol on
the front. The edges are
trimmed with something that has not been done heretofore.

One of the most interesting
innovations is a blank for the list of costs,
in both first and second semester,
in a larger map has also been added.

A calendar of special events
has been added which will prove
valuable. Another feature is a list of
places of interest about the uni-
versity and the city.

The first of the ten
episodes is entitled:
"How to Order," and
states that this book will be given
out at the university and the city.
