Toball and Sports Need
We wish to commend the Iowa
coed who announced a new and
fitting football song. Taking ad-
nantage of the popularity of a roll-
tune he has produced a song that
all fans can sing. He realized that our
football songs were lacking in
name and spirit, and set about to
revive the old school song.

We want any student who has a
script, for writing songs and who
has a bit of football enthusiasm.
We want you to join today. This
is a big opportunity for the
special and popular variety songs
as well as yells. No one should
be afraid of anything. It is
planned.

Among the three were various sizes of elephant, and two of ostriches, both of these being common to the northern regions, especially in northern Asia and Siberia. Two storks were found, which were later identified as storks from different species. The find was made near the town of Drury, and the remains were transported to the university for further study.

Tennis Extras Today

In spite of our cold weather the first match of the doubles was pulled off yesterday afternoon resulting in a victory for Vexer’s Bar and Standard over Tollin and Carlisle, 4-3. The tennis was fast and well played, making fast tennis interesting.

The match was held at the old tennis court which the tennis committee is using.

The tennis court was a valuable find. Professor Samuel Clinton, writing in the interest of the Iowa Geological Survey, has made some valuable additions to the university collection during the past summer. Over two hundred specimens were gathered and they seem to be well assorted and valued for use.
