SHARRARD WINS OUT IN THE TENNIS SINGLES

H. LARSON HAD BEEN SLATED MA STON AS TO WIN. AT TO MERIN

Weather Seriously Interferes-Drawing for Undergraduate Tournament Today.

The finals in the singles in the open fall tournament were played yesterday, Sharrard winning in the straight sets. The score was 6-4; 6-4; 8-6. Sharrard won contrary to the expectation of the dopsters. By fast consistent playing, coupled with timely head work he drove H. Larson into the back court repeatedly. This match brings to a close the singles of the tournament, which on the whole has been quite successful. The weather caused many delays, but the most of the matches were close and well played.

In the doubles the semi-finals were played yesterday and the nuals will be played Saturday. Twen and Van de Steeg won from Topping and Fife by default. Van der Zee and Sharrard defeated H. Larson and A. Larson 6-4; 7-5. The first set was won in quick time, the second being more closely contested. This match brings the tournament almost to a close, but one match remaining which will be played Saturday. The time of this match will be announced later. It as both of the teams have held honors previous to this tournament.

Attention will now center on the undergraduate tournament, the pairing for which will be made this afternoon. It is requested that every man who intends to enter be on the grounds tomorrow afternoon.

good, and it is believed that the tournament can be played off this week if the men appear promptly. It is open to any undergraduate in the university. It is particularly hoped that all new men will try out. Those who have not signed up can enter by being at the courts tomorrow afternoon. The singles will be played as soon as the pairings are made. If less than four teams enter for doubles, there will be no doubles played. All three courts will be turned over to those wishing to play their matches so that no delay will be oc-

Assembly this morning in the auditorium promises to be of especial interest to the students of the State University of Iowa because of the eminence of the speakers who will address them. Pres. W. E. Parsons of Parsons college, Fairfield; Pres. James Harlan of Cornell college, Mt. Vernon, and Prof. C. M. Smiley, acting head of Iowa College at Grinnell, are the speakers. They are here fulfilling their duties as members of the committee in charge of the qualifying examination for the Rhodes Scholarship. Miss Melva Carr will render Lack's "Valse Arabesque," as a special feature of the musical program.

Much conjecture has been aroused as to the nature of the surprise that will be sprung at this morning's assembly. A considerable number of the students are to take part, but beyond this information the mystery

NEBRASKA EXPECTS AN EASY GAME WITH IOWA

GRIFFITH WORKS SQUAD HARD FOR THIS CONTEST.

Varsity Defeats Freshmen Again-Fee Runs Eighty Yards for First Touchdown.

Nebraska is looking forward to an easy game with the Hawkeyes according to a report given out by assistant coach Eby upon his return from Omaha after witnessing the Minnesota-Nebraska contest last Saturday. The fact that the Gophers piled up an overwhelming score against the locals while the Cornhuskers held them to a much smaller count is largely responsible for this optimistic feeling which prevails in the Lincoln camp.

However, the Hawkeyes do not feel at all downhearted as to the outcome of the approaching battle, but on the other hand are sure of giving their opponents a hard game. The decidedly uphill fight which Iowa made against Nebraska on the home field a year ago will never be forgotten and Coach Griffith's proteges are determined to put up even a better fight next Saturday.

Consequently the local warriors are going through a hard practice every day in preparation for the coming struggle. Last evening they lined up against the freshmen for a half hour's scrimmage and were ery member of the Freshman Athlet- furnished with some extremely stiff opposition by the first year men. WHY IS IT?

We are often led to wonder why it is that so many students flash into the limelight in their freshman year and then spend the remaining three years in comparative obscurity. That such is the case can easily be verified by looking up the records of past letic teams must be met by the memfreshman class leaders.

Is it because of an underlying feeling on the part of the general student body that the yearling must remain in the background? Perhaps student human nature contains an unwritten law to that effect. At any rate the facts would seem to indicate that some such law is in active force. To fly in the face of it seems to incur three years of oblivion for the freshman foolish enough to attempt it. If anything is to be learned from the student history of the past, it is that the student honors worth while generally comes to those who lay low and "saw wood" during their fresh-
