Three Kinds Of Air

Hot, cold, air and "That air of refinement." You want the former in your furnace and the other two all around you.

There is no hot air in anything I tell you. My house is a little bit overproduced but I am allowed to be. I use a warm water system at the front door and so are the Prairie maid costs and commodities which are usually four in one.

This is the best of the many "Comfortable Cellar" costs on the market. It is a perfect combination of the very down beat and the military one—big big beat with plenty of sparkle and Samson. Keep out. The cold and rain must go.
