A College and a College President—All Students Happy

Through superior team work and better all around playing on the part of the Iowans yesterday afternoon, the Iowans once more beat down in defeat to the coast of 55 to 9. The first half ended 19 to 5 in favor of the winners. The passing of the law for was very good. Howard's basket shooting was the feature of the encounter. Captain Ryden put up the best exhibition for the engineers.

The Liberal art-shot group which was scheduled yesterday afternoon will be played tomorrow evening at 7 o'clock. The pharmacists have foreclosed all their goals due to the fact that they cannot get a team together to play in time to participate in the debating this winter.

Following is the summary of the law-engineer game:

"POLICY IS BLAMED: STUDENTS IN ATTACK"

STUDENT STATEMENT IS AUTHORIZED BY MERLE ALTMAN

Undergraduate Body of Formidable Movement Against Board in Control of Athletics

Strong denouncing sentiment against the board in control of athletics has broken into flame in the shape of a statement yesterday given out as authorized by Merle Altman, head of several of the student societies.

The statement is as follows:

"The repeated unsuccessful athletic movement at the state university is the result of the state athletic policy. The board in control of athletics is responsible for this failure. The athletic policy has caused dissatisfaction among the students. The board has beenVectoring mistake against the board in control of athletics and policy has caused dissatisfaction among the students. The board has been granting the graduates for the fall and spring years. Coaches have come and gone, carrying with them the blame for Iowa's repeated defeats. The present condition of the team will be worse than ever. In the course with the university's athletes have understood the real cause of Iowa's failure. The poor coach has taken all the responsibility. Now it is time for the student body as well as the alumni to wake up to the fact that this is the fault of the board. It is the policy that has reined discontent in the ranks of the old and new athletes. These conditions can be solved in no way to amend. All attemp to promote understanding and to take some action is the fault of the athletic policy. These have no organization through which they can petition. This condition is unsatisfactory. All attempts to organize a system whereby the students may petition their needs and complaints has been literally "quashed." This people wonder why there is no spirit at Iowa. In no instance have the students been given the right of voting on the proposal of their intercollegiate contests. With the various teams would allow a vote to be taken by the students on the question they would undoubtedly condemn the present system. The work and good results of the freshman athletic association are being and have been "quashed" in the usual manner by the athletic board. Prof. A. G. Smith, chairman of the athletic board, is on record with the statement that he is opposed to all organized efforts to urge athletic student to attend Iowa. These discouraged conditions are directly affecting many local Iowa athletes to drop out of school. Among the prominent athletes to leave Iowa are Curry, one of the veteran quarter- backs in the state, and Rogers, the crack freshman back. Numa, the 1904 Iowa Gridiron starter, and a number of the local Buffalo football stars from Des Moines, have already left.

Several others are getting ready to depart because of the discouragement and unfair treatment they have received under the present system which blinds all hopes of championship teams.
